Contemporary Mexican Painting in a Time of Change Shifra M. Goldman, 1995 United by their belief in the importance of the human image in art they distanced themselves both from the social realism of their predecessors and from the pure abstraction of many of their contemporaries Shifra Goldman begins with a brief examination of the era and issues of muralism and the art of Rufino Tamayo She then focuses on the confrontation between socially conscious art and pure painting that began in the late 1950s and resulted in the formation of Nueva Presencia **Diego Rivera's America** James Oles, 2022-07-19 Diego Rivera's America revisits a historical moment when the famed muralist and painter more than any other artist of his time helped forge Mexican national identity in visual terms and imagined a shared American future in which unity rather than division was paramount This volume accompanies a major exhibition highlighting Diego Rivera's work in Mexico and the United States from the early 1920s through the mid 1940s During this time in his prolific career Rivera created a new vision for the Americas on both national and continental levels informed by his time in both countries Rivera's murals in Mexico and the U S serve as points of departure for a critical and contemporary understanding of one of the most aesthetically socially and politically ambitious artists of the twentieth century Works featured include the greatest number of paintings and drawings from this period reunited since the artist's lifetime presented alongside fresco panels and mural sketches This catalogue serves as a guide to two crucial decades in Rivera's career illuminating his most important themes from traditional markets to modern industry and devoting attention to iconic paintings as well as works that will be new even to scholars revealing fresh insights into his artistic process Published by the San Francisco Museum of Modern Art in association with University of California Press Exhibition dates San Francisco Museum of Modern Art July 16 2022 January 1 2023 Crystal Bridges Museum of American Art Bentonville Arkansas March 11 July 31 2023 *Artbibliographies Modern*, 2004 *Aesthetics, Applications, Artistry and Anarchy: Essays in Prehistoric and Contemporary Art* Jillian Huntley, George Nash, 2019-03-31 This volume in honour of John Kay Clegg consists of papers by rock art researchers from around the world on topics such as aesthetics the application of statistical analyses frontier conflict and layered symbolic meanings the deliberate use of optical illusion and the contemporary significance of ancient and street art *Dimensions of the Americas* Shifra M. Edgar Wind and Modern Art Ben Thomas, 2020-12-10 This book presents the first comprehensive study of the philosopher and art historian Edgar Wind's critique of modern art The first student of Erwin Panofsky and a close associate of Aby Warburg Edgar Wind was unusual among the Warburgians for his sustained interest in modern art together with his support for contemporary artists This culminated in his respected and influential book *Art and Anarchy* 1963 which seemed like a departure from his usual scholarly work on the iconography of Renaissance art Based on extensive archival research and bringing to light previously unpublished lectures *Edgar Wind and Modern Art* reveals the extent and seriousness of Wind's thinking about modern art and how it was bound up with theories about art and knowledge that he had developed during the 1920s and 30s Wind's ideas are placed in the context of a closely connected international cultural milieu consisting of some of the leading artists and thinkers of the twentieth century In particular the book discusses in detail his friendships with three significant artists Pavel Tchelitchew Ben Shahn and R B Kitaj In the process the existence of an alternative to the

prevailing formalist approach of Alfred Barr and Clement Greenberg to modern art based on the enduring importance of the symbol is revealed

Mexico at the World's Fairs Mauricio Tenorio-Trillo, 2024-07-26 This intriguing study of Mexico's participation in world's fairs from 1889 to 1929 explores Mexico's self-presentation at these fairs as a reflection of the country's drive toward nationalization and a modernized image. Mauricio Tenorio Trillo contrasts Mexico's presence at the 1889 Paris fair where its display was the largest and most expensive Mexico has ever mounted with Mexico's presence after the 1910 Mexican Revolution at fairs in Rio de Janeiro in 1922 and Seville in 1929. Rather than seeing the revolution as a sharp break, Tenorio Trillo points to important continuities between the pre and post-revolution periods. He also discusses how internationally the character of world's fairs was radically transformed during this time from the Eiffel Tower prototype encapsulating a wondrous symbolic universe to the Disneyland model of commodified entertainment. Drawing on cultural, intellectual, urban, literary, social, and art histories, Tenorio Trillo's thorough and imaginative study presents a broad cultural history of Mexico from 1880 to 1930 set within the context of the origins of Western nationalism, cosmopolitanism, and modernism. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1997.

The Scrapbook in American Life Susan Tucker, Katherine Ott, Patricia Buckler, 2006 This book explores the history of scrapbook making, its origins, uses, changing forms, and purposes, as well as the human agents behind the books themselves. Scrapbooks bring pleasure in both the making and consuming and are one of the most enduring yet simultaneously changing cultural forms of the last two centuries. Despite the popularity of scrapbooks, no one has placed them within historical traditions until now. This volume considers the makers, their artefacts, and the viewers within the context of American culture. The volume's contributors do not show the reader how to make scrapbooks or improve techniques but instead explore the curious history of what others have done in the past and why these splendid examples of material and visual culture have such a significant place in many households.
