Flood of Images Bernie Cook, 2015-04-01 Anyone who was not in New Orleans during Hurricane Katrina and the subsequent flooding of the city experienced the disaster as a media event a flood of images pouring across television and computer screens The twenty four hour news cycle created a surplus of representation that overwhelmed viewers and complicated understandings of the storm the flood and the aftermath As time passed documentary and fictional filmmakers took up the challenge of explaining what had happened in New Orleans reaching beyond news reports to portray the lived experiences of survivors of Katrina But while these narratives presented alternative understandings and more opportunities for empathy than TV news Katrina remained a mediated experience In *Flood of Images* Bernie Cook offers the most in depth wide ranging and carefully argued analysis of the mediation and meanings of Katrina He engages in innovative close and comparative visual readings of news coverage on CNN Fox News and NBC documentaries including Spike Lee's *When the Levees Broke* and *If God Is Willing and Da Creek Don't Rise* Tia Lessin and Carl Deal's *Trouble the Water* and Dawn Logsdon and Lolis Elie's *Faubourg Tremé* and the HBO drama *Tremé* Cook examines the production practices that shaped Katrina as media event exploring how those choices structured the possible memories and meanings of Katrina and how the media's memory making has been contested In *Flood of Images* Cook intervenes in the ongoing process of remembering and understanding Katrina

Holocaust Images and Picturing Catastrophe Angi Buettner, 2016-12-05 *Holocaust Images and Picturing Catastrophe* explores the phenomenon of Holocaust transfer analysing the widespread practice of using the Holocaust and its imagery for the representation and recording of other historical events in various media sites It investigates the use of Holocaust imagery in political and legal discourses in critical thinking and philosophy as well as in popular culture to provide a fresh theorisation of the manner in which the Holocaust comes loose from its historical context and is applied to events and campaigns in the contemporary public sphere Richly illustrated with concrete examples including prominent international animal rights activism the Israeli Palestinian conflict and the genocide in Rwanda this book traces the visual rhetoric of Holocaust imagery and its application to events other than the genocide of Jewish people With its discussion of the wide range of issues arising with this form of Holocaust transfer the generalization of the Holocaust as a metaphor in representations of catastrophe as well as in other cultural locations *Holocaust Images and Picturing Catastrophe* will appeal to those working in the fields of holocaust studies cultural and visual culture studies sociology and media studies

Walter Benjamin's Concept of the Image Alison Ross,2014-10-10 In this book Alison Ross engages in a detailed study of Walter Benjamin's concept of the image exploring the significant shifts in Benjamin's approach to the topic over the course of his career Using Kant's treatment of the topic of sensuous form in his aesthetics as a comparative reference Ross argues that Benjamin's thinking on the image undergoes a major shift between his 1924 essay on Goethe's *Elective Affinities* and his work on *The Arcades Project* from 1927 up until his death in 1940 The two periods of Benjamin's writing share a conception of the image as a potent sensuous force able to provide a frame of existential meaning In the earlier period this function attracts Benjamin's critical attention whereas in the later he mobilises it for revolutionary outcomes The book gives a critical treatment of the shifting assumptions in Benjamin's writing about the image that warrant this altered view It draws on hermeneutic studies of meaning scholarship in the history of religions and key texts from the modern history of aesthetics to track the reversals and contradictions in the meaning functions that Benjamin attaches to the image in the different periods of his thinking Above all it shows the relevance of a critical consideration of Benjamin's writing on the image for scholarship in visual culture critical theory aesthetics and philosophy more broadly

The Art of Truth-telling about Authoritarian Rule Ksenija Bilbija,2005 Publisher Description

Walter Benjamin and the Antinomies of Tradition John McCole,2018-08-06 Few modern thinkers have been as convinced of the necessity of recovering the past in order to redeem the present as Walter Benjamin 1892-1940 Benjamin at once mourned and celebrated what he took to be an inevitable liquidation of traditional culture and his determination to think both of these attitudes through to their conclusions lends his work its peculiar honesty along with its paradoxical antinomial coherence In a landmark interpretation of the whole of Benjamin's career John McCole demonstrates a way of understanding Benjamin that both contextualizes and addresses the complexities and ambiguities of his texts Working with Pierre Bourdieu's concept of the intellectual field McCole traces Benjamin's deep ambivalence about cultural tradition through the longterm project an immanent critique of German idealist and romantic aesthetics which unites his writings McCole builds a sustained reading of Benjamin's intellectual development which sheds new light on the formative role of early influences particularly his participation in the pre World War I German youth movement and the orthodox discourse of German intellectual culture and shows how Benjamin later extended the strategies he learned within these contexts during key encounters with Weimar modernism surrealism and the fiction of Proust The fullest account of Benjamin available in English this lucid and penetrating book will be welcomed by intellectual historians literary theorists and critics historians of German literature and

The Catholic Reading Circle Review ,1895 **Time and Narrative, Volume 3** Paul Ricoeur,2014-02-08 In the first two volumes of this work Paul Ricoeur examined the relations between time and narrative in historical writing fiction and theories of literature This final volume a comprehensive reexamination and synthesis of the ideas developed in volumes 1 and 2 stands as Ricoeur s most complete and satisfying presentation of his own philosophy Ricoeur s aim here is to explicate as fully as possible the hypothesis that has governed his inquiry namely that the effort of thinking at work in every narrative configuration is completed in a refiguration of temporal experience To this end he sets himself the central task of determining how far a poetics of narrative can be said to resolve the aporias the doubtful or problematic elements of time Chief among these aporias are the conflicts between the phenomenological sense of time that experienced or lived by the individual and the cosmological sense that described by history and physics on the one hand and the oneness or unitary nature of time on the other In conclusion Ricoeur reflects upon the inscrutability of time itself and attempts to discern the limits of his own examination of narrative discourse As in his previous works Ricoeur labors as an incomparable mediator of often estranged philosophical approaches always in a manner that compromises neither rigor nor creativity Mark Kline Taylor Christian Century In the midst of two opposing contemporary options either to flee into ever more precious readings or to retreat into ever more safe readings Ricoeur s work offers an alternative option that is critical wide ranging and conducive to new applications Mary Gerhart Journal of Religion The Antijacobin Review and True Churchman's Magazine ,1812

Smallwood, 2003 This study aims to bring the modern theory of literary criticism and Pope's *Essay on Criticism* of 1711 into a more productive and interesting association than critical historical structures have generally allowed Smallwood marks out in current terms and in depth the specialized theoretical and aesthetic problem of defining criticism He recognizes that criticism no more than literature or art cannot be finally codified or defined but insists on the need for clarity in the exposition of criticism's purposes and a fuller consciousness of a common community of practice available to audiences outside the academic fold Affirming the unfailing currency and utility of the term criticism as new languages have taken over the critical domain or have sought to replace or abolish literature Smallwood distinguishes between the normative definitions that are everywhere apparent in modern theory of criticism and the advantages to conceptual comprehension achieved by Pope's poetic idea of criticism in the *Essay*
