Henry,2012-12-06 This book was born of a refusal the refusal of the very philosophy from which it has sprung After the war when it had become apparent that the classical tradition and particularly neo Kantianism was breathing its last French thought looked to Germany for its inspiration and renewal Jean Hyppolite and Kojève reintroduced Hegel and the existentialists and phenomenologists drew the attention of a curious public to the fundamental investigations of Husserl and Heidegger If only by being understood as a phenomenological ontology this books speaks eloquently enough of the debt it owes to these thinkers of genius The conceptual material which it uses particn1arly in chapters 1 to 44 outlines the Husserlian and Heideggerian horizon of the investigations However it is precisely this horizon which is questioned In spite of its profundity and achievements I wanted to show that contemporary ontology pushes to the absolute the presuppositions and the limits of the philosophy of consciousness since Descartes and even of all Western philosophy since the Greeks An External critique viz the opposing of one thesis to another would have no sense whatever Rather it is interior to these presuppositions whose insufficiency had to be shown that we placed ourselves the very concepts which were rejected were also the ones which guided the problem initially **The Shaping Of The Unbegotten - Expanded Edition Lecture**

Christian Wisdom Meets Modernity, 2016-05-05 The Illuminating Modernity series examines the great but lesser known thinkers in the Romantic Thomist tradition such as Erich Przywara and Fernand Ulrich and shows how outstanding 20th century theologians like Ratzinger and von Balthasar have depended on classical Thomist thought and how they radically reinterpreted this thought The chapters in this volume are dedicated to the encounter between the presuppositions and claims of modern intellectual culture and the Christian confession that the crucified and resurrected Jesus is the power and wisdom of God and is the lord of history and of his church The scholars contributing to this discussion do not assume that Christianity and modernity are two discrete entities which can be readily defined nor do they presume that Christian wisdom and modernity meet each other only in conflict or by coincidence They engage with a variety of great figures Kierkegaard Heidegger Rahner Przywara Guardini Karl Barth and Karol Wojtyla to illustrate the connection between modernism and Christian wisdom The volume concludes with a programmatic statement for the renewal of Christian philosophy that has been able to retain the cosmo theological vision as outlined by Mezei in the final chapter
