resource will be of immense value to scholars and policymakers in numerous fields and disciplines including political science public policy and administration international relations regulation international law business and politics European studies regional studies and development studies The Czech Republic and the European Union Dan Marek, Michael Baun, 2010-10-04 This book examines the Czech Republic s road to EU membership in 2004 and assesses how EU accession has affected or changed the Czech Republic including its domestic politics institutions and policies It contributes to academic debate about the EU and European integration Europeanization and the role of small states in the EU of Policy Implementation Phedon Nicolaides, 2013-01-04 The European Union EU has a compliance problem there are persistent failures in the implementation of EU rules and policies by the member states This book examines how policy implementation may be improved It explains the nature of policy mistakes proceeds to consider how individual public authorities and organizations can avoid making policy mistakes and then in the light of its findings derives how the EU may induce its member states and their public authorities to improve their compliance with EU rules and policies Basically this is a book about how the right incentives at national level can improve institutional performance and contribute towards more effective application of EU rules across member states without having to confer new competences to the EU Its premise is that strengthening the capacity of organizations to learn should not only lead to better performance but should also stimulate useful policy experimentation across the EU Although this volume focuses on the obligations of EU membership and how to strengthen compliance the proposed solutions have broader applicability Improved organizational capacity for policy implementation will also be beneficial in those areas where the EU has no formal competence Just as member states can learn from each other so can policy officials in different policy fields Good practices can spread Implementing Social Europe in Times of Crises Dorte Martinsen, Hans Vollaard, 2017-10-02 While the EU legitimacy crisis and the Great Recession prevail certain European Union principles and policies have to be implemented in the member states This volume explores the diverse processes stages and subjects of implementation in a variety of social policies to identify different institutional dynamics and actor behaviours at play The individual contributions examine the transposition of the patients rights directive to the Europeanisation of pension reforms the role of national parliaments in transposing social Europe judicial Europeanisation and the multi level enforcement of EU decisions Theoretically the contributions in this book highlights the fact that implementation is often conditioned by domestic politics or comes as a random walk due to organisational and cognitive constraints Empirically the volume has three main findings First the constitutive components of the EU tend to have a contradictory impact on the EU s social policies and the national welfare systems Second crises influence the implementation of social Europe at times leading to a modification of fundamental principles and content but not across the board Third as a result there is evidence of differentiated Europeanisation This book was originally published as a special issue of West European Politics Implementing EU Mobility Partnerships Fanny Tittel-Mosser, 2020-06-08 This book

provides a comprehensive assessment of the effectiveness of Mobility Partnerships and their consequences for third countries Mobility partnerships between the EU and third countries are usually viewed as reflecting asymmetric power relations where development aid trade relations and visa policies are made conditional upon the cooperation by third countries with an EU agenda of migration control This book argues that three main factors condition the relevance of Mobility Partnerships the state of relations between EU Member States and a third country and in particular the role of postcolonial ties the power of negotiation of a third country which is linked to its geopolitical importance for the EU and its administrative capacity which is understood as the capacity of a state to define and implement policies and to legislate and enforce the law The work combines a comparative legal analysis of the development of the legal and policy frameworks in the cases of Morocco and Cape Verde with an empirical study of the implementation of Mobility Partnerships projects The analysis demonstrates that Mobility Partnerships despite their non binding nature have legal and policy relevance for these third countries with regard to the regulation of migration asylum human trafficking and even labour law As such this book makes a contribution to the understanding of the interplay between the interests of EU Member State and third country actors in the implementation of the Mobility Partnerships The book will be a key resource for academics and students focusing on Migration Law EU Studies Geopolitics and African Studies The empirical approach will also appeal to policy The implementation of environmental policy in makers international organisation representatives and NGOs **Ireland** Bernadette Connaughton, 2019-05-22 This book explores the response of Ireland's political administrative system to the implementation of environmental directives in the cases of waste management water reform and biodiversity Ireland represents the implementation challenges of a small EU member state with a weak background in environmental governance and has struggled to adapt to the complexities of enforcing environmental rules Using a theoretical framework inspired by traditional implementation analysis and insights from the Europeanisation literature the book traces the implementation process in three directives The main conclusion of this study is that Ireland s implementation performance in waste management water and nature conservation is influenced by the low issue salience of environmental policy and the need to overcome structural problems in the public administration system to give effect to EU legislation Innovative Approaches to EU Multilevel Implementation Eva Thomann, Fritz Sager, 2019-10-23 Multi level governance systems like the European Union EU calibrate integration with member state discretion in order to implement common yet context sensitive solutions to shared policy problems Research on implementation in the EU typically focuses on legal compliance with EU policy However this focus gives us an incomplete picture of EU implementation its diversity and practice The contributions of this collection represent a shift toward a more performance oriented perspective on EU implementation as problem solving They approach implementation fundamentally as a process of interpretation of superordinate law by actors who are embedded within multiple contexts arising from the coexistence of dynamics of Europeanization on the one hand and what has been termed

domestication on the other Moving beyond legal compliance the contributions provide new evidence on the diversity of domestic responses to EU policy the roles and motivations of actors implementing EU policy and the black box of EU law in action and its enforcement By reassessing the relative importance of EU policy and domestic factors and actors for the outcomes of EU implementation the results give insight into on the nuanced interplay between Europeanization and domestication forces useful for both EU researchers and practitioners The chapters originally published as a special issue in the Journal of European Public Policy Implementing EU Environmental Policy Christoph Knill, Andrea Lenschow, 2000 This book examines issues of censorship publicity and teenage fandom in 1950s Britain surrounding a series of controversial Hollywood films The Wild One Blackboard Jungle Rebel Without a Cause Rock Around the Clock and Jailhouse Rock It also explores British cinema s commentary on juvenile delinquency through a re examination of such British films as The Blue Lamp Spare the Rod and Serious Charge Taking a multi dimensional approach the book intersects with star studies and social history while reappraising the stardom of Marlon Brando James Dean and Elvis Presley By looking at the specific meanings pleasures and uses British fans derived from these films it provides a logical and sustained narrative for how Hollywood star images fed into and disrupted British cultural life during a period of unprecedented teenage consumerism

The Routledge Handbook of European Public Policy Nikolaos Zahariadis, Laurie Buonanno, 2017-11-24 The Routledge Handbook of European Public Policy provides an in depth and systematic understanding of EU policies It covers theoretical approaches on the policy process and the various stages of public policy formulation and decision making and discusses key questions of contemporary European governance The handbook introduces major concepts trends and methodologies in a variety of comparative settings thereby providing the first systematic effort to include theoretical and substantive analyses of European public policies in a single volume The handbook is divided into four sections Concepts and approaches in EU policymaking Substantive policies of the EU including economic and social fiscal and monetary areas of freedom security and justice and external policies Elements of the policy cycle Themes ranging from crisis and resistance to controversies in education This handbook will be an essential reference for students and scholars of the European Union public policy social policy and more broadly for European and comparative politics **Greece in the European Union** Dionyssis G. Dimitrakopoulos, Argyris G. Passas, 2004-02-24 The contributors collected here discuss the patterns of continuity and change success and failure observed in seven policy areas environment social regulation regional policy the single market agriculture EMU and foreign policy in order to investigate how policy formulated and implemented in Greece has changed as a result of EU membership why Greek authorities have managed to implement EU policy more successfully in some policy areas than in others and whether Greek public opinion vis vis the EU changed over time This book argues that although the widely held belief that Greece is a laggard in a number of policy areas is not inaccurate the pattern of Greek membership of the EU is much more complex not least because it contains success stories It will be of interest to students and researchers
