Dinner Roles Sherrie A. Inness, 2001-04 Who cooks dinner in American homes It's no surprise that Mom remains the overwhelming answer Cooking and all it entails from grocery shopping to chopping vegetables to clearing the table is to this day primarily a woman's responsibility How this relationship between women and food developed through the twentieth century and why it has endured are the questions Sherrie Inness seeks to answer in *Dinner Roles American Women and Culinary Culture* By exploring a wide range of popular media from the first half of the twentieth century including cookbooks women's magazines and advertisements *Dinner Roles* sheds light on the network of sources that helped perpetuate the notion that cooking is women's work Cookbooks and advertisements provided valuable information about the ideals that American society upheld A woman who could prepare the perfect Jell O mold whip up a cake with her new electric mixer and still maintain a spotless kitchen and a sunny disposition was the envy of other housewives across the nation Inness begins her exploration not with women but with men those individuals often missing from the kitchen who were taught their own set of culinary values She continues with the study of juvenile cookbooks which provided children with their first cooking lessons Chapters on the rise of electronic appliances ethnic foods and the 1950s housewife all add to our greater
