

An aerial photograph of a city at sunset. A large highway interchange with multiple overpasses is visible on the left side of the frame. The city's grid of streets and buildings extends towards the horizon, where a bright orange and red glow from the setting sun is visible. The overall scene is bathed in a warm, golden light.

Talk to me, Matt. Just talk to me.
Until the signal moon goes zero.

Just Talk Lilian R. Furst, 2021-12-14 While countless memoirs have been written about depression and therapy no one has examined how the talking cure of psychotherapy is presented in novels and other works of literature Beginning with an overview of the principles of psychotherapy and its growing use as a treatment for mental and emotional disorders Lilian Furst addresses the patient's view of the value of talk Patients' portrayals of psychotherapy in literary works range from serious to satirical and from comic to ironic with some descriptions verging on the grotesque Furst identifies the overtalkers undertalkers and duet voices that shape the individual experiences of psychotherapy While the voices of the overtalkers overwhelm those of their therapists undertalkers are reluctant to express or acknowledge their feelings Particularly revealing are the instances where patient and therapist provide separate but parallel renderings of the same therapy Just Talk looks at a wide range of questions about psychotherapy Furst considers the patient's first impressions of the therapist and how the patient is prompted to engage in talk She looks for signs of self deception or self betrayal on the patient's part and asks how the therapist's behavior affects the patient's responses and the ultimate outcome of the therapy Furst examines such well known works as Roth's Portnoy's Complaint Plath's The Bell Jar and Lodge's Therapy as well as lesser known novels to discuss how patients react to psychotherapy as a cure for mental and emotional disorders Her analysis of these narratives adds significantly to our understanding of the dynamic relationship between patient and therapist and reveals much about the healing process that is not addressed in technical casebooks

Deep Secrets Niobe Way, 2011-03-15 Boys are emotionally illiterate and don t want intimate friendships In this empirically grounded challenge to our stereotypes about boys and men Niobe Way reveals the intense intimacy among teenage boys especially during early and middle adolescence Boys not only share their deepest secrets and feelings with their closest male friends they claim that without them they would go wacko Yet as boys become men they become distrustful lose these friendships and feel isolated and alone Drawing from hundreds of interviews conducted throughout adolescence with black Latino white and Asian American boys Deep Secrets reveals the ways in which we have been telling ourselves a false story about boys friendships and human nature Boys descriptions of their male friendships sound more like something out of Love Story than Lord of the Flies Yet in late adolescence boys feel they have to man up by becoming stoic and independent Vulnerable emotions and intimate friendships are for girls and gay men No homo becomes their mantra These findings are alarming given what we know about links between friendships and health and even longevity Rather than a boy crisis Way argues that boys are experiencing a crisis of connection because they live in a culture where human needs and capacities are given a sex female and a sexuality gay and thus discouraged for those who are neither Way argues that the solution lies with exposing the inaccuracies of our gender stereotypes and fostering these critical relationships and fundamental human skills
