## Just Plain Words:

Speechwright William F. Gavin, 2011-11-01 For almost thirty years William F. Gavin wrote speeches at the highest levels of government. *Speechwright* is his insider's view of politics, a shrewd critique of presidential and congressional rhetoric, and a personal look at the political leaders for whom he wrote speeches. While serving President Richard Nixon and candidate Ronald Reagan, Gavin advocated for working rhetoric well-crafted, clear, hard-hitting arguments that did not offer visions of the unattainable but instead limited political discourse to achievable ends reached through practical means. Filled with hard-earned wisdom about politics and its discontents, *Speechwright* describes Gavin's successes, his failures, and his call for political rhetoric built on strong argument rather than the mere search for eloquence. *A Very Short, Fairly Interesting and Reasonably Cheap Book about Studying Leadership* Brad Jackson, Ken Parry, 2018-05-08 An engaging guide through the cacophony of competing perspectives and models of leadership, the new edition includes an expanded discussion of contemporary topics like followership, gender, ethics, authenticity, and leadership, and the arts set against the backdrop of the global financial crisis. Conceived by Chris Grey as an antidote to conventional textbooks, each book in the *Very Short, Fairly Interesting and Reasonably Cheap* series takes a core area of the curriculum and turns it on its head by providing a critical and sophisticated overview of the key issues and debates in an informal, conversational, and often humorous way. Suitable for students of leadership, professionals working in organizations, and anyone curious about the workings of leadership. *The Precarious* M. Catherine de Zegher, 1997 Two works in one: this is an exquisite art book offering the first comprehensive treatment of Vicuña's work in English. **The Chinese Horoscopes Guide to Relationships** Theodora Lau, 1997-06-16 Are you and your partner always quarreling for no apparent reason? Could it be that one of you is a Dragon and the other a Dog? If you were looking for a creative person to work for, would it help to know their birth year? Someone born in the Year of the Monkey would be a strong choice. Were you born in the Year of the Rooster? Maybe it's no surprise that your closest friends are a Horse and a Rabbit. *The Chinese Horoscopes Guide to Relationships* is a fascinating guide to the secrets of the astrological system that has been practiced in China for years. By identifying the people in your life—business associates, family members, teachers, friends, lovers, and spouses—through their respective signs, you will gain valuable insight into their personalities and aptitudes, their quirks and proclivities. More important, you will discover how your own sign and its traits affect how you get along with others born under different signs. At long last, you will have the astrological explanations as to why you can be so compatible with one person yet so completely at odds with someone else. Theodora Lau was born in Shanghai and lived with her husband and two children in Hong Kong before moving to California, where she is presently settled. She is the author of *The Handbook of Chinese Horoscopes*, now in its third edition. **The Work-Family Interface** Sampson Lee Blair, Josip Obradović, 2018-10-29 This volume focuses upon the complex nature of the work-family interface and how families around the globe deal with the inherent dilemmas therein. **Immeasurable Outcomes** Gayle Greene,2023-01-17 What is the purpose of education The answer might be found in a Shakespeare class at a small liberal arts college In this engaging account of teaching a Shakespeare class at a small liberal arts college Gayle Greene illustrates what is so vital and urgent about the humanities Follow along with Greene as she introduces us to her students and showcases their strengths needs and vulnerabilities so we can experience the magic of her classroom In *Immeasurable Outcomes* Greene s class builds a complex human ecosystem that pushes students to think more deeply and discover their own interests and potential all while recognizing the inherent dignity in other people s views and values Grounding her analyses in half a century of teaching Greene pushes back against the demand for measurable student learning outcomes and the standardization imposed on K 12 schools in the name of reform Instead she draws her conclusions about education directly from the students themselves Alumni testimonials describe the transformative power of a liberal arts education recounting how their experience of community and engagement has provided them the tools to navigate the uncertainties of a rapidly changing world while also inspiring the social awareness our democracy depends on *Immeasurable Outcomes* rejects claims that the liberal arts are impractical exposing the political agendas of technocrats and ideologues who would transform higher education into vocational training and programs focused only on profitability Greene reminds us that the liberal arts have been the basis for

the most successful educational system in the world and provides a powerful demonstration that education at a human scale that is relationship rich and humanities based should be the model for education in the future      **The Hobo Bill**
