Finding God in Scripture John Bertone, 2016-09-01 Why should I read the Bible Isn't it just a lifeless and detached piece of history an ancient relic You may have heard people ask these questions or even asked them yourself This book will help you find the answers to understanding the Bible in a twenty first century context We have progressed as a civilization there is no doubt The advances in computer technology communication and science have improved the quality of our lives But fundamentally at the core the desires and motivations of humans remain the same and it is to this that the Bible speaks most clearly However interpreting the Bible requires intellectual curiosity commitment and a desire to discover truth Finding God In Scripture will equip you to better understand the nature of the Bible's message and the dynamics of how to interpret it For example just like today's modern writers biblical authors used various literary techniques such as the complexities associated with plot and characterization in narrative or the use of poetry evoking emotions These literary techniques were intended to convey God's message and involvement in the world Finding God In Scripture will show you that there is more to the Bible than the communication of historical information there is a reality a truth that can transform your life
