Reporting the Cuban Revolution Leonard Ray Teel,2015-12-16 Reporting the Cuban Revolution reveals the untold story of thirteen American journalists in Cuba whose stories about Fidel Castro s revolution changed the way Americans viewed the conflict and altered U S foreign policy in Castro s favor Between 1956 and 1959 the thirteen correspondents worked underground in Cuba evading the repressive censorship of Fulgencio Batista s dictatorship in order to report on the rebellion led by Fidel Castro The journalists stories appeared in major newspapers magazines and national television and radio influencing Congress to abruptly cut off shipments of arms to Batista in 1958 Castro was so appreciative of the journalists efforts to publicize his rebellion that on his first visit to the United States as premier of Cuba he invited the reporters to a private reception at the Cuban Embassy in Washington where he presented them with engraved gold medals While the medals revealed Castro s perception of the correspondents as like minded partisans the journalists themselves had no such intentions Some had journeyed to Cuba in pursuit of scoops that could rejuvenate or jump start their careers others sought to promote press freedom in Latin America still others were simply carrying out assignments from their editors Bringing to light the disparate motives and experiences of the thirteen journalists who reported on this crucial period in Cuba s history *Reporting the Cuban Revolution* is both a masterwork of narrative nonfiction and a deft analysis of the tension between propaganda and objectivity in the work of American foreign correspondents *First to the Front* Lorissa

Rinehart,2023-07-11 The first authoritative biography of pioneering photojournalist Dickey Chapelle who from World War II through the early days of Vietnam got her story by any means necessary as one of the first female war correspondents I side with prisoners against guards enlisted men against officers weakness against power From the beginning of World War II through the early days of Vietnam groundbreaking female photojournalist and war correspondent Dickey Chapelle chased dangerous assignments her male colleagues wouldn t touch pioneering a radical style of reporting that focused on the humanity of the oppressed She documented conditions across Eastern Europe in the wake of the Second World War She marched down the Ho Chi Minh Trail with the South Vietnamese Army and across the Sierra Maestra Mountains with Castro She was the first reporter accredited with the Algerian National Liberation Front and survived torture in a communist Hungarian prison She dove out of planes faked her own kidnapping and endured the mockery of male associates before ultimately dying on assignment in Vietnam with the Marines in 1965 the first American female journalist killed while covering combat Chapelle overcame discrimination both on the battlefield and at home with much of her work ultimately buried from the public eye until now In *First to the Front* Lorissa Rinehart uncovers the incredible life and unparalleled achievements of this true pioneer and the mark she would make on history **Solo Soldier's Stories** Kathy

three hundred women both print and broadcast journalists were accredited to chronicle America's activities in Vietnam. Many of those women won esteemed prizes for their reporting including the Pulitzer, the Overseas Press Club Award, the George Polk Award, the National Book Award, and the Bancroft Prize for History. Tragically, several lost their lives covering the war while others were wounded or taken prisoner. In this gripping narrative, veteran journalist Joyce Hoffmann tells the important yet largely unknown story of a central group of these female journalists including Dickey Chapelle, Gloria Emerson, Kate Webb, and others. Each has a unique and deeply compelling tale to tell, and vivid portraits of their personal lives and professional triumphs are woven into the controversial details of America's twenty-year entanglement in Southeast Asia.

The Battle of Iwo Jima Walt Sandberg, 2005-01-11 Beginning with the Marine assault on February 19, 1945, the Battle for Iwo Jima quickly became the bloodiest battle in Marine Corps history. Today, this fierce battle remains high in our collective memories, not only for its terrors but for its indelible image of triumph: the raising of the flag on Mt. Suribachi. Much information exists about the Battle for Iwo Jima, but it is scattered and can be difficult to track down. This book draws the information together in two ways. It offers bibliographic listings to lead researchers to useful sources and provides actual texts of documents related to the battle and its aftermath. Part One, The Bibliography, offers information on more than 800 books, magazines, official documents, audio-visual materials, and online resources about the Battle of Iwo Jima. Each listing is annotated to assist researchers, historians, veterans, and others seeking information. Part Two, The Anthology, offers the texts of hard-to-locate documents, a series of maps showing the day-by-day progression of the battle, and a selection of poetry inspired by the battle. Appendices provide details of the American chain of command, and both the American and the Japanese orders of battle describe some lingering mysteries about the Battle of Iwo Jima and list Iwo Jima memorial sites around the world.

Journalism at the End of the American Century, 1965-Present James Brian McPherson, 2006-06-30 McPherson captures the best and worst aspects of American journalism since 1965. The press has evolved into a conglomeration of entities that today can be described as pervasive, entertaining, and justifiably mistrusted. In some ways, today's press offers the best journalism Americans have ever seen. In other ways, the modern news media fall short of the ideals held by most of those who care about journalism and far short of the promise they once seemed to offer in terms of helping create an enlightened democracy. Neither a paean to the press nor an exercise in media bashing, this book finds much to criticize and to praise about recent American journalism while illustrating that traditional journalistic values have diminished in importance, not just for many of those who control the media but also for the media consumers who most need good journalism. Chapters are devoted to various themes that include social unrest, the influence of entertainment values, technological shifts, media consolidation, and corporatization; issues of content versus context; new kinds of news media; and why the 1970s may have been the high point of American journalism. Events and issues given extra attention include the rise of television news and later CNN, the Civil Rights Movement, and other race-related issues, the Women's Movement, various forms of alternative journalism, wars in

Vietnam and Iraq investigative journalism the World Trade Center attacks the Clinton Lewinsky scandal the 2000 and 2004 presidential campaigns and elections civic journalism and journalism scandals *The Women Who Wrote the War* Nancy Caldwell Sorel,1999 Like Tom Brokaw's *The Greatest Generation* Sorel's moving account of the women war correspondents of this century at last brings to light the exploits of more than 100 of this country's unsung heroes of photos **Rescuing the World** Andrew F. Smith,2012-02-01 Leo Cherne's life brimmed with paradox and improbability He was born in the Bronx to a poor immigrant Jewish family and yet rose to the heights of economic and political power in WASP America A successful entrepreneur and an unofficial advisor to nine presidents he nevertheless devoted the majority of his time to humanitarian causes particularly the International Rescue Committee which he chaired for forty years From Hungary to Cuba to Cambodia Cherne traveled across the globe on behalf of political refugees A consummate networker he also had the uncanny ability to attract and cultivate talented people before they became prominent including such figures as John F Kennedy Ronald Reagan Patrick Moynihan Claiborne Pell Tom Dooley William Casey John Whitehead and Henry A Kissinger He was presented with the Presidential Medal of Freedom in 1984 by Ronald Reagan who proclaimed that although never elected to governmental office Leo Cherne had more influence on American foreign policy than most elected officials The underlying theme of his life was that one person without family contacts or wealthy connections could make a difference worldwide in political and humanitarian affairs **War and Press Freedom** Jeffery A. Smith,1999-02-25 War and Press Freedom The Problem of Prerogative Power is a groundbreaking and provocative study of one of the most perplexing civil liberties issues in American history What authority does or should the government have to control press coverage and commentary in wartime First Amendment scholar Jeffery A Smith shows convincingly that no such extraordinary power exists under the Constitution and that officials have had to rely on claiming the existence of an autocratic higher law of survival Smith carefully surveys the development of statutory restrictions and military regulations for the news media from the ratification of the Bill of Rights in 1791 through the Gulf War of 1991 He concludes that the armed forces can justify refusal to divulge a narrow range of defense secrets but that imposing other restrictions is unwise unnecessary and unconstitutional In any event as electronic communication becomes almost impossible to constrain soldiers and journalists must learn how to respect each other's obligations in a democratic system **American Women during World War II** Doris Weatherford,2009-10-16 American Women during World War II documents the lives and stories of women who contributed directly to the war effort via official and semi official military organizations as well as the millions of women who worked in civilian defense industries ranging from aircraft maintenance to munitions manufacturing and much more It also illuminates how the war changed the lives of women in more traditional home front roles All women had to cope with rationing of basic household goods and most women volunteered in war related programs Other entries discuss institutional change as the war affected every aspect of life including as schools hospitals and even religion American Women during World War II provides a handy one volume

Historical Dictionary of the War in Vietnam Ronald B. Frankum Jr.,2011-06-10 For Southeast Asia the Vietnam War altered forever the history topography people economy and politics of the Democratic Republic of Vietnam DRV the Republic of Vietnam RVN Cambodia and Laos That the war was controversial is an understatement as is the notion that the war can be understood from any one perspective One way of understanding the Vietnam War is by marking its time with turning points both major and minor that involved events or decisions that helped to influence its course in the years to follow By examining a few of these turning points an organizational framework takes shape that makes understanding the war more possible *Historical Dictionary of the War in Vietnam* emphasizes the international nature of the war as well as provide a greater understanding of the long scope of the conflict The major events associated with the war will serve as the foundation of the book while additional entries will explore the military diplomatic political social and cultural events that made the war unique While military subjects will be fully explored there will be greater attention to other aspects of the war All of this is done through a chronology an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries This book is an excellent access point for students researchers and anyone wanting to know more about the Vietnam War

The War Beat, Pacific Steven Casey,2021-04-05 The definitive history of American war reporting in the Pacific theater of World War II from the attack on Pearl Harbor to the atomic bombings of Hiroshima and Nagasaki After almost two years slogging with infantrymen through North Africa Italy and France Ernie Pyle immediately realized he was ill prepared for covering the Pacific War As Pyle and other war correspondents discovered the climate the logistics and the sheer scope of the Pacific theater had no parallel in the war America was fighting in Europe From Pearl Harbor to Hiroshima and Nagasaki *The War Beat Pacific* provides the first comprehensive account of how a group of highly courageous correspondents covered America's war against Japan what they witnessed what they were allowed to publish and how their reports shaped the home front's perception of some of the most pivotal battles in American military history In a dramatic and fast paced narrative based on a wealth of previously untapped primary sources Casey takes us from MacArthur's doomed defense on the Philippines and the navy's overly strict censorship policy at the time of Midway through the bloody battles on Guadalcanal New Guinea Tarawa Saipan Leyte and Luzon Iwo Jima and Okinawa detailing the cooperation as well as conflict between the media and the military as they grappled with the enduring problem of limiting a free press during a period of extreme crisis *The War Beat Pacific* shows how foreign correspondents ran up against practical challenges and risked their lives to get stories in a theater that was far more challenging than the war against Nazi Germany while the US government blocked news of the war against Japan and tried to focus the home front on Hitler and his atrocities
