Illusion In Java:

Illusion in Java Gene Fowler, 1939 **Javaphilia** Henry Spiller, 2015-03-31 Fragrant tropical flowers opulent batik fabrics magnificent bronze gamelan orchestras and of course aromatic coffee Such are the exotic images of Java Indonesia s most densely populated island that have hovered at the periphery of North American imaginations for generations Through close readings of the careers of four javaphiles individuals who embraced Javanese performing arts in their own quests for a sense of belonging Javaphilia American Love Affairs with Javanese Music and Dance explores a century of American representations of Javanese performing arts by North Americans While other Asian cultures made direct impressions on Americans by virtue of firsthand contacts through immigration trade and war the distance between Java and America and the vagueness of Americans imagery enabled a few disenfranchised musicians and dancers to fashion alternative identities through bold and idiosyncratic representations of Javanese music and dance Javaphilia s main subjects Canadian born singer Eva Gauthier 1885 1958 dancer painter Hubert Stowitts 1892 1953 ethnomusicologist Mantle Hood 1918 2005 and composer Lou Harrison 1917 2003 all felt marginalized by the mainstream of Western society Gauthier by her lukewarm reception as an operatic mezzo soprano in Europe Stowitts by his homosexuality Hood by conflicting interests in spirituality and scientific method and Harrison by his predilection for prettiness in a musical milieu that valued more anxious expressions All four parlayed their own direct experiences of Java into a defining essence for their own characters By identifying aspects of Javanese music and dance that were compatible with their own tendencies these individuals could literally perform unconventional yet coherent identities based in Javanese music and dance Although they purported to represent Java to their fellow North Americans they were in fact simply representing themselves In addition to probing the fascinating details of these javaphiles lives Javaphilia presents a novel analysis of North America s first significant encounters with Javanese performing arts at the 1893 World s Columbian Exposition in Chicago An account of the First International Gamelan Festival in Vancouver BC at Expo 86 almost a century later bookends the epoch that is the focus of Javaphilia and sets the stage for a meditation on North Americans ongoing relationships with the music and dance of Java **Ground-Up Java** Philip Heller, 2006-02-20 Learn Java From the Ground Up With Animated Illustrations that You Manipulate This is the first effective Java book for true beginners Sure books before now focused on basic concepts and key techniques and some even provided working examples on CD Still they lacked the power to transform someone with no programming experience into someone who sees who really gets it Working with Ground Up Java you will definitely get it This is due to the clarity of Phil Heller s explanations and the smoothly flowing organization of his instruction He s one of the best Java trainers around But what s really revolutionary are his more than 30 animated illustrations which you ll find on the enclosed CD Each of these small programs visual and interactive in nature vividly demonstrates how its source code works You can modify it in different ways distinctly altering the behavior of the program As you experiment with these tools and you can play with them for hours you

It gain both the skills and the fundamental understanding needed to complete each chapter's exercises which steadily increase in sophistication. No other beginning Java book can take you so far so quickly and none will be half as much fun. Note CD ROM DVD and other supplementary materials are not included as part of eBook file.

The Delineator R. S. O'Loughlin, H. F. Montgomery, Charles Dwyer, 1909 *Undocumented Secrets of MATLAB-Java Programming* Yair M. Altman, 2011-12-05 For a variety of reasons the MATLAB Java interface was never fully documented. This is really quite unfortunate. Java is one of the most widely used programming languages having many times the number of programmers and programming resources as MATLAB. Also unfortunate is the popular claim that while MATLAB is a fine programming platform for proto

Recovering the Orient Andrew Gerstle, Anthony Milner, 2024-11-01 Much recent writing about Asian societies and Asian Histories adopts a homogenising vision of humanity. It views the definition of cultural difference as an Orientalist project serving colonial or neo colonial purposes. This unusual collection of essays written by leading specialists in a range of disciplines re appraises and expands the Orientalism debate. Several authors examine the ways in which the Asian other acts as a creative stimulus for the European artist, composer and playwright. The work of Monet, Debussy and Brecht for instance is explored to suggest a subtle and complex circulation of idea between the Orient and the West. Other essays investigate the scholar's own encounter with the exotic; in particular they ask to what extent Western concepts and categories can be used in the analysis of Asian societies and cultures. Among the concepts considered are space in Chinese art, landscape, high art, low art and opera in Indonesia and tragedy, the book concert, music and subjectivity in Japan. Furthermore the implications of orality and literacy are examined in the case of Malay society. Like discredited orientalists the authors of this volume are in most cases based in the West in universities in Europe, United States and Australia but their investigations are not grounded in confident assumptions about Western power and civilisation. Recovering the Orient probes the Asian other at a time of conceptual uncertainty when foundational tenets of Western civilisation have come under question.

Beginning JavaServer Pages Vivek Chopra, Jon Eaves, Rupert Jones, Sing Li, John T. Bell, 2005-02-08 JSP is one of the core technologies for server side Java applications and the 2.0 release which this book covers in detail makes JSP an even more powerful tool. Walks Java programmers and Web developers through JSP fundamentals including JSP syntax and directives, JSP Expression Language, JSP Tag libraries, JSTL and techniques for testing and debugging. Shows how to use JSP in real world Web applications along with open source frameworks such as Struts, WebWork and Turbine, software design methodologies and developer tools like Ant, JUnit and CVS as well as popular IDEs, integrated development environments. Each chapter has an exercise section with solutions on the companion Web site.
