MotorBoating ,1913-06 *William James* Bruce Wilshire,1984-06-30 The importance of this collection of writings of William James lies in the fact that it has been arranged to provide a systematic introduction to his major philosophical discoveries and precisely to those doctrines and theories that are of most burning current interest William James *The Essential Writings* is a series of philosophical arguments on some of the most obscure and head cracking problems in contemporary philosophy the relation of thought to its object the interrelationships between meaning and truth the levels and structures of experience the degrees of reality the nature of the embodied self the relation of ethics aesthetics and religious experience to man s strenuously and heroically active nature and above all the structurization of the experienced life world as the validating ground and origin of all theory Bruce Wilshire has provided an introduction to William James s thought on these and other related points which is at once both substantial and subtle **Blacklisting Myself** Roger Lichtenberg Simon,2008 *Blacklisting Myself* details Academy Award nominated screenwriter Roger L Simon s odyssey from financier of the Black Panther Breakfast Program to darling of the political right In this tale of Hollywood radical chic run amuck Simon relates his adventures with Richard Pryor Warren Beatty Woody Allen and real life Hollywood KGB officers Among the topics covered along the way the new blacklist for conservatives in tinseltown and how new media will destroy Hollywood as we know it **The Missing Martyrs** Charles Kurzman,2019 In this startlingly counterintuitive book a leading authority on Islamic movements demonstrates that terrorist groups are thoroughly marginal in the Muslim world Charles Kurzman draws on government sources public opinion surveys election results and in depth interviews with Muslims in the Middle East and around the world finding that while young Muslims are indeed angry at the West they are simply not attracted to terrorist methods This revised edition updated to include the self proclaimed Islamic State concludes that fear of terrorism should be brought into alignment with the actual level of threat and that government policies and public opinion should be based on evidence rather than alarmist hyperbole *The British drama* British drama,1804 **The Power of Education** Colin Power,2014-10-23 This book is about the power of education the kind of education that simultaneously improves the quality of life both of individuals and the wider society It explains why education must be viewed as a basic human right as a value in and of itself and reviews the evidence on how education builds the human resources that individuals and nations need to be productive to continue to learn to solve problems to be creative and to live together and with nature in peace and harmony

When nations ensure that such an education is accessible to all throughout their lives education becomes the engine of sustainable development economic social moral and cultural The book is unique in that it covers the development of education at all levels in all countries of the Asia Pacific region and beyond using the latest international data bases while blending in analyses of both quantitative and qualitative research *House of Memories* Arnoud-Jan Bijsterveld, 2016

Ambition Deborah L. Rhode, 2021-08-02 An engaging account of ambition the forces that drive and constrain it and whether it serves our deepest needs Ambition is a dominant force in for human civilization driving its greatest achievements and most horrific abuses Our striving has brought art airplanes and antibiotics as well as wars genocide and despotism This mixed record raises obvious concerns about how we can channel ambition in the most productive directions In Ambition Deborah L Rhode offers a comprehensive and engaging survey of the topic that focuses in particular on the nature of ambition in contemporary American life To do this she first explores three central focuses of ambition recognition power and money and argues that an excessive preoccupation with these external markers for success can be self defeating for individuals and toxic for society She then shifts to discussing the obstacles to constructive ambition and the consequences when ambitions are skewed or blocked by inequality and identity related characteristics such as gender race class and national origin Rhode further addresses the ways that families schools and colleges might play a more effective role in developing positive ambition Finally she examines what sorts of ambitions contribute to sustained well being such as building relationships and contributing to society rather than chasing extrinsic rewards such as wealth power and fame Drawing upon leading thinkers on the topic and contemporary social science research while laying out an agenda for how ambition can be better developed Ambition will force us reconsider the factors that shape our ambitions and whether those ambitions meet our deepest needs and highest aspirations
