Nehru's India Taylor C. Sherman, 2025-07-22 An iconoclastic history of the first two decades after independence in India Nehru's India brings a provocative but nuanced set of new interpretations to the history of early independent India Drawing from her extensive research over the past two decades Taylor Sherman reevaluates the role of Jawaharlal Nehru India's first prime minister in shaping the nation She argues that the notion of Nehru as the architect of independent India as well as the ideas policies and institutions most strongly associated with his premiership nonalignment secularism socialism democracy the strong state and high modernism have lost their explanatory power They have become myths Sherman examines seminal projects from the time and also introduces readers to little known personalities and fresh case studies including India's continued engagement with overseas Indians the importance of Buddhism in secular India the transformations in industry and social life brought about by bicycles a riotous and ultimately doomed attempt to prohibit the consumption of alcohol in Bombay the early history of election campaign finance and the first state sponsored art exhibitions The author also shines a light on underappreciated individuals such as Apa Pant the charismatic diplomat who influenced foreign policy from Kenya to Tibet and Urmila Eulie Chowdhury the rebellious architect who helped oversee the building of Chandigarh Tracing and critiquing developments in this formative period in Indian history Nehru's India offers a fresh and definitive exploration of the nation's early postcolonial era

Self as Image in Asian Theory and Practice Roger T. Ames, 1998-04-30 This is the third in a series dealing with the concept of self and its importance in understanding Chinese Japanese and Indian cultures The authors examine the relationship between self and image and its significance in attaining a deeper knowledge of Chinese Japanese and Indian cultures The relationship between self and image is as complex as it is fascinating It takes on different meanings and significances in diverse cultures In this volume the focus of attention is largely

on representational practices and symbolic media such as literature cinema art and dance By examining both classical and contemporary works associated with China India and Japan the authors seek on the one hand to demonstrate the intricate relationship between self and image and on the other to make use of that relationship to further our understanding of these cultures *Socialist Congressman* ,1966 *Power and Diplomacy* Zorawar Daulet Singh,2018-11-28 The notion that a monolithic idea of nonalignment shaped India s foreign policy since its inception is a popular view In *Power and Diplomacy* Zorawar Daulet Singh challenges conventional wisdom by unveiling another layer of India s strategic culture In a richly detailed narrative using new archival material the author not only reconstructs the worldviews and strategies that underlay geopolitics during the Jawaharlal Nehru and Indira Gandhi years he also illuminates the significant transformation in Indian statecraft as policymakers redefined some of their fundamental precepts on India s role in in the subcontinent and beyond His contention is that those exertions of Indian policymakers are equally apposite and relevant today Whether it is about crafting a sustainable set of equations with competing great powers formulating an intelligent Pakistan policy managing India s ties with its smaller neighbours dealing with China s rise and Sino American tensions or developing a sustainable Indian role in Asia *Power and Diplomacy* strikes at the heart of contemporary debates on India s unfolding foreign policies

Mapping South Asian Masculinities Chandrima Chakraborty,2017-10-02 This book offers the first substantial critical examination of men and masculinities in relation to political crises in South Asian literatures and cultures It employs political crisis as a frame to analyze how South Asian men and masculinities have been shaped by critical historical events events which have redrawn maps and remapped or unmapped bodies with different effects These include colonialism anti colonialism state formations civil wars religious conflicts and migration Political crisis functions as a framing device to offer nuances and clarifications to the assumed visibility of male bodies and male activities during political crisis The focus on masculinities in historical moments of crisis divests masculinity of its naturalization and calls for a heterogeneous conceptualization of the everyday practices and experiences of being a man Written by scholars from a variety of theoretical perspectives and disciplinary approaches and drawing on a range of written and visual texts this book contributes to this recent rethinking of South Asian literary and cultural history by engaging masculinity as a historicized category of analysis that accommodates an understanding of history as differentiated encounters among bodies cultures and nations This book was originally published as a special issue of *South Asian History and Culture* *Tibet* Claude Arpi,2017-07-01 Though Tibet s system of governance had serious lacunas the Land of Snows was free and independent In October 1950 Mao s regime decided to liberate it Liberate from what was the question everybody asked Though some in Delhi did not realise it it would soon be a tragedy for India too as it had to suddenly live with a new neighbor whose ideology was the opposite of Buddhist values The narrative starts soon after Independence and ends with the signing of the 17 Point Agreement in Beijing in May 1951 when Tibet lost its Independence and India a gentle neighbour Using never accessed before Indian archival material

this book is the first of a series of four books on the India Tibet Relations 1947-62. The next volumes will respectively cover the periods 1952-1954, 1954-1957 and 1957-1962. **Misperceptions In Foreign Policymaking** Yaacov Y.I.

Vertzberger, 2019-04-11 In this case study of the Sino Indian conflict between 1959 and 1962 the author explores the attitudes that shaped India's policy toward China and traces the network of misunderstandings that led to a war unwanted by both sides. *Scratches on Our Minds* Harold R. Isaacs, 2015-02-12 A presentation of eight contemporary Chinese women

writers representing two generations of women with different backgrounds and experiences. The selections explore esthetic, cultural and ideological problems that continue to challenge Chinese women. **India and China** Geeta Kochhar, Snehal Ajit Ulman, 2020-07-19 This book looks at the changing dynamics of diplomacy of the two emerging global powers India and

China. It examines trade relations, cultural ties and economic engagements of both countries and their shifting influence in the region surrounding them. This volume takes an in-depth look at the trade and economic strategies of India and China through the prism of soft power diplomacy. It reflects on the challenges the two countries face over bilateral trade negotiations, BRICS and China's Silk Road project along with other issues of foreign policy. The book underlines the decisive role of the soft power approach and greater people-to-people contact in the global strategies of India and China and in fostering greater cooperation in the region. The book will be of great interest to researchers and students of international relations, political science, public policy and international communications. It will also be useful for think tanks, policy makers and general readers who are interested in the India-China relationship and the politics of soft power diplomacy. *In the*

Images of Development Tridib Banerjee, 2021-06-08 The urban legacy of the Global South since the colonial era and how sustainable development and environmental and social justice can be achieved. Remarkably little of the expansive literature on development and globalization considers actual urban form and the physical design of cities as outcomes of these phenomena. The development that has shaped historic transformations in urban form and urbanism and the consequent human experiences remains largely unexplored. In this book Tridib Banerjee fills this void by linking the idea of development with those of urbanism, urban form and urban design, focusing primarily on the contemporary cities in the developing world, the Global South and their intrinsic prospects in city design. Further, he examines the endogenous possibilities for the future design of these cities that may address growing inequality and the environmental crisis. Banerjee deftly traces the urban legacy of the Global South from the beginning of the colonial era, closely examining the economic, political and ideological forces that influenced colonial and postcolonial development, drawing from relevant experiences of different cities in the developing world and discussing the arguments for the historic parity of these cities with their Western counterparts. Finally, Banerjee considers essential notions of future city design that are grounded in the critical challenges of sustainable development, equity, environmental and social justice and diversity and how such outcomes can be achieved. This book serves as the opening of a long overdue conversation among design, development and planning scholars and practitioners and those

interested in the urban development of the Global South India and the China Crisis Steven A. Hoffmann, 2024-07-26 The earliest accounts of the Sino Indian boundary dispute cast India as the victim of Chinese betrayal and expansionism but a more favorable image of China vis a vis India has appeared since the 1970s Since then China has been portrayed as the victim of India's self righteous intransigence with the 1962 India China war occurring because China was provoked into practicing a justifiable form of realpolitik These two seemingly irreconcilable academic schools of thought still exist In this case study of India's decision making between the years of 1959 and 1963 the critical first years of its border conflict with China Steven A Hoffmann takes an important step in reconciling the conflicting views of the crisis and of the ascribed reasons for the war that ensued in 1962 Drawing on interviews with Indian officials military officers and political leaders and on memoirs and other sources gathered during concentrated research in India England and North America between 1983 and 1986 the author provides previously unknown material on the perceptions and realities of Indian decision making A model for international crisis behavior as proposed by Michael Brecher is used to help establish a balanced treatment of information and offer insights into such questions as why India and China both failed to understand one another's frontier psychologies and strategies and why the Nehru government did not succeed in managing the conflict This richly detailed and carefully researched approach is invaluable in this time when India and China are once again exploring ways to establish a solid relationship This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 **Identity and Religion** Amalendu Misra, 2004-08-30 A sensitive and intelligent account of the Indian nationalist thought and the difficulties it faced in doing justice to India's Islamic inheritance Lord Parekh Fellow of the British Academy A thoughtful well researched and original analysis of the nationalist conceptualisation of the Muslim presence in India Professor Noel O Sullivan University of Hull Amalendu Misra shows that while some eminent nationalist leaders were implacably hostile to Muslims even wholly secular ones were uneasy with India's Muslim past and had a generally unfavourable disposition towards both Muslims and Islam The book explicates this by focusing on the writings of Vivekananda Gandhi Nehru and Savarkar supported by a wealth of examples from a wide range of contexts It argues that the views of these four prominent individuals were heavily shaped by British historiography as well as their respective visions of independent India The author goes on to suggest how modern India needs to redefine itself to flourish as a genuinely secular democracy **Economic Planning and Social Organisation** Sachin Chaudhuri, 1969 **'Photos of the Gods'** Christopher Pinney, 2004 Chris Pinney demonstrates how printed images were pivotal to India's struggle for national and religious independence He also provides a history of printing in India **Images of Delhi** Ramesh Chandra Dhussa, 2023-06-12 The main objective of this book is to analyze prominent literary images of Delhi in post independence

India The author has probed into a number of eminent writings in Hindi English and other languages The author s methodology a humanistic and phenomenological approach allows exploration of experiential dimension of writers and their characters in various genres of literature An inquiry into perceptions and imagination in literature enriches the understanding of place space time and seasons the concerns central to geography The Perceptions of the metropolis of Delhi interestingly vary between authors and their characters The images of Delhi in plethora of literary works show a wide spectrum of colors The images evoke feelings of reverence love adoration dislike indifference or neutrality Experiences vary from places of beauty and grandeur to utterly ugly environments Natives express different views and attitudes toward the city of Delhi from those of expatriate writers
