From the perspective of social science, each face of the city in a film comes from a choice shown only on the basis of the filmmaker's selection criteria. In this process, the film becomes the cognitive map of that city. The interweaving of the city space and film language will be elaborated first from the perspective of urban studies. Then some viewpoints of tourism studies will be provided to explore the relation between the image of the city in the film and in reality. Two films about the city Taipei are looked at as case studies: *A One and a Two* by Director Edward Yang (2000) and *Au Revoir Taipei* by Director Arvin Chen (2010). *Mortals, Deities and Divine Symbols: Rethinking Ancient Images from the Levant to Mesopotamia* Benjamin Sass, Laura Battini, 2025-05-29 Dedicated to Tallay Ornan, a scholar distinguished in ancient Western Asian iconographic studies.
