Imaginary Income:

Income, excess profits, and estate taxes United States. Congress. House. Committee on Ways and Means, 1918

The Accountant, 1925 *The American Economic Review*, 1919 Includes annual List of doctoral dissertations in political economy in progress in American universities and colleges and the Hand book of the American Economic Association

Bernard Schmitt's Quantum Macroeconomic Analysis Alvaro Cencini, 2022-11-25 The aim of Bernard Schmitt's analysis of the monetary economy of production was twofold to introduce and to explain the logical character of the macroeconomic laws governing our economies and to explain the origin of the pathologies that follow if these laws are not complied with Schmitt's main original contributions concern the theories of value profit and capital as well as his explanation of inflation unemployment and international payments unified as quantum macroeconomic analysis This book expounds on the key principles of quantum macroeconomic analysis as he conceived and developed them Schmitt's starting point was the analysis of bank money and the way it is associated with produced output His macroeconomics was not founded on microeconomics nor derived from the aggregation of microeconomic variables Schmitt's theory does not rely on mathematics and modelling either instead it is based on logical laws derived from the nature of money and monetary payments Part I of this book deals with the quantum macroeconomic analysis of capitalism and its pathologies developed by Schmitt and provides the elements necessary to understand its structural mechanism Parts II and III deal with the principles of two reforms that enable the passage from capitalism to post capitalism and from the present non system of international payments to an orderly system This book provides essential reading for all those interested in heterodox approaches to macroeconomics monetary economics banking international economics and the history of economic thought Hearings United States. Congress. House. Committee on Ways and Means, 1918 *The Westminster Review*, 1861 **Community Chest**, Voluntary contributions by private citizens and corporations in amounts ranging from a few coins to millions of dollars are a major factor in the maintenance of the American way of life It is difficult to imagine the consequences if this source of support for the work of religious bodies health and welfare agencies and educational and research institutions were materially reduced This case study focused on Indianapolis examines a critical mass fund raising and giving program Community chests in many communities evolved into the present day United Way In design scope and detail this study was without precedent when it was initially published in the 1950s But Community Chest is more than an examination of local problems of fund raising It also makes a decisive contribution to knowledge of philanthropic practice that is of general relevance to the social sciences The book asks and seeks answers to the most ticklish issues of philanthropic fund raising What may agencies expect in contributions from different social segments How does one begin to estimate the need for philanthropic dollars in a given community How can the public guard the interests of both ultimate recipients of assistance and donors In short what elements are crucial to success or failure in financing voluntary agencies not merely in terms of money but with full regard

for the needs and potentials of citizens and the community as a whole Sociologists welfare personnel and professionals involved in financial development will find in this book an extraordinary amount of material both factual and interpretive suggesting new approaches to the perplexing problems of community fund raising A new introduction prepared by Carl Milofsky is a fascinating study of the tensions involved in the selection of the senior author John R Seeley and of the critical response to this controversial study This new material itself uniquely contributes to the sociology of knowledge

Elementary Principles of Economics Irving Fisher,1912 **The Law Reports of the Incorporated Council of Law Reporting** Great Britain. Parliament.
