Byzantium Dr Michael Saxby, Professor Dimitar Angelov, 2013-11-28 This volume addresses a theme of special significance for Byzantine studies Byzantium has traditionally been deemed a civilisation which deferred to authority and set special store by orthodoxy canon and proper order Since 1982 when the distinguished Russian Byzantinist Alexander Kazhdan wrote that the

history of Byzantine intellectual opposition has yet to be written scholars have increasingly highlighted cases of subversion of correct practice and correct belief in Byzantium This innovative scholarly effort has produced important results although it has been hampered by the lack of dialogue across the disciplines of Byzantine studies The 43rd Spring Symposium of Byzantine Studies in 2010 drew together historians art historians and scholars of literature religion and philosophy who discussed shared and discipline specific approaches to the theme of subversion The present volume presents a selection of the papers delivered at the symposium enriched with specially commissioned contributions Most papers deal with the period after the eleventh century although early Byzantium is not ignored Theoretical questions about the nature articulation and limits of subversion are addressed within the frameworks of individual disciplines and in a larger context The volume comes at a timely junction in the development of Byzantine studies as interest in subversion and nonconformity in general has been rising steadily in the field

**Antioch II** Silke-Petra Bergjan,Susanna Elm,2018-09-04 During the fourth century Antioch on the Orontes was the most important imperial residence in the Roman Empire and a hot bed of intellectual and religious activity The writings of men such as Libanius the emperor Julian Ammianus Marcellinus John Chrysostom Theodore and many others provide a density of written sources that is nearly unmatched in antiquity while the archaeological evidence of the city s evolution is much harder to reconstruct This volume assembles state of the art scholarship on these ancient authors within the context of recent archaeological work to offer a rare comprehensive view of this late Roman city Contributors Rudolf Brandle Gunnar Brands Silke Petra Bergjan Susanna Elm Johannes Hahn Gavin Kelly Blake Leyerle Jaclyn Maxwell Wendy Mayer Yannis Papadogiannakis Catherine Saliou Adam M Schor Christine Shepardson Jan R Stenger Claudia Tiersch Edward Watts Jorit Wintjes

Michael of Ephesus: On Aristotle's Nicomachean Ethics 10 with Themistius: On Virtue,2018-12-13 The two texts translated in this volume of the Ancient Commentators on Aristotle series both compare the happiness of the practical life which is subject to the hazards of fortune with the happiness of the life of philosophical contemplation which is subject to fewer needs The first is Michael of Ephesus 12th century commentary on Book 10 of Aristotle s Nicomachean Ethics written alongside his commentaries on Books 5 and 9 to fill gaps in the Neoplatonists commentaries from the 6th century He recognizes that lives of practicality and philosophy may be combined and gives his own account of the superiority of the contemplative The second is Themistius text On Virtue written in the 4th century AD He was an important teacher and commentator on Aristotle an orator and leading civil servant in Constantinople His philosophical oration is here argued to be written in support of the Emperor Julian s insistence against the misuse of free speech by a Cynic Heraclius who had satirised him Julian had previously criticised Themistius but here he combines his political and philosophical roles in seeking to mend relations with his former pupil

**The Cultural Turn in Late Ancient Studies** Philip Rousseau,2005-04-28 Collection of essays that focuses on questions of gender and culture in early Christianity

**Controlling Contested Places** Christine Shepardson,2019-05-14 From constructing new buildings to describing rival

controlled areas as morally and physically dangerous leaders in late antiquity fundamentally shaped their physical environment and thus the events that unfolded within it. Controlling Contested Places maps the city of Antioch Antakya Turkey through the topographically sensitive vocabulary of cultural geography demonstrating the critical role played by physical and rhetorical spatial contests during the tumultuous fourth century. Paying close attention to the manipulation of physical places, Christine Shepardson exposes some of the powerful forces that structured the development of religious orthodoxy and orthopraxy in the late Roman Empire. Theological claims and political support were not the only significant factors in determining which Christian communities gained authority around the Empire. Rather, Antioch's urban and rural places far from being an inert backdrop against which events transpired, were ever shifting sites of and tools for the negotiation of power, authority, and religious identity. This book traces the ways in which leaders like John Chrysostom, Theodoret, and Libanius encouraged their audiences to modify their daily behaviors and transform their interpretation of the world and landscape around them. Shepardson argues that examples from Antioch were echoed around the Mediterranean world, and similar types of physical and rhetorical manipulations continue to shape the politics of identity and perceptions of religious orthodoxy to this day.

**Debate and Dialogue** Maijastina Kahlos, 2016-05-13 This book explores the construction of Christian identity in fourth and fifth centuries through inventing, fabricating, and sharpening binary oppositions. Such oppositions, for example, Christians/pagans, truth/falsehood, the one true god/the multitude of demons, the right religion/superstition, served to create and reinforce the Christian self-identity. The author examines how the Christian argumentation against pagans was intertwined with self-perception and self-affirmation. Discussing the relations and interaction between pagan and Christian cultures, this book aims at widening historical understanding of the cultural conflicts and the otherness in world history, thus contributing to the ongoing

discussion about the historical and conceptual basis of cultural tolerance and intolerance This book offers a valuable contribution to contemporary scholarly debate about Late Antique religious history and the relationship between Christianity and other religions The Saturday Review of Politics, Literature, Science and Art ,1895 *Religion* Hent de Vries,2008
