Green, 2002 This book is the product of both historical and personal interest in the grounds of religious conviction It deals with the practice and development of the tradition of discernment of spirits in the late fourteenth century England and sixteenth century Spain as reflected in the classical texts of the mystics of the periods Julian of Norwich the Cloud Author and Walter Hilton in England and Ignatius of Loyola and John of the Cross in Spain The tradition of discernment came into being at the very beginning of the Church s history and has been appropriated adapted and developed throughout its history The book explores how the tradition is expanded and maintains continuity with its origins and suggests that it reaches some apogee in sixteenth century Spain for Christian lives of apostolic mission and contemplation It illustrates how the cultural circumstances of the times moulded the manner in which the experiences of the mystics were perceived Discernment of Spirits is about how Christians reach some conviction that the stirrings within consciousness which seem to originate so strangely and yet beckon so persistently are real in the sense of authentically divine They are stirrings which call for a response in the lives of mystics Rowan Williams at the beginning of his influential book The Wound of Knowledge refers to the intractable strangeness of the ground of belief that must constantly be allowed to challenge the fixed assumptions of religiosity it is a given whose question to each age is fundamentally one and the same This book illustrates how the question is addressed in the texts of the mystics In our own time the strange stirrings which intimate the question tend to be drowned by a multiplicity of competing voices The suggestion is made that when we listen to the voices of the past we may be encouraged to wonder about the question posed by the stirrings within our own consciousness hitherto unheard or dismissed as simply strange      Christ, Our Mother of Mercy Margaret A. [Call No One on Earth Your Father](#) Josephine E. Armour, 2019-03-29 This book brings a critique to the theology of the ordained ministry in contemporary Catholicism, a theology that fosters clericalism. It challenges a theology that views the ordained as set apart for a particular work over and against the laity. This book brings critique to current practices, including lifelong commitment to the ordained ministry, the requirement of celibacy for the ordained, and the exclusion of women from the ordained ministry. The author examines history, reclaiming elements that have been distorted or forgotten, and asks: What is retrievable in the tradition that is freeing and redeeming for a renewed theology? The critique of the traditional theology and current practices in the ordained ministry, and the retrieval of relevant elements of the tradition, is a springboard for reconstructing a theology of the ordained ministry. The model of the Trinity is suggested as an image for the ordained ministry itself and, through its relational nature, the ministry of the whole church. The model of the Trinity sets the ordained ministry in its rightful context of the Christian community, where all of the gifts of the baptized are valued and where ministry is collaborative, non-hierarchical, and mutually enriching for the people of God. *Daughters of Sarah*, 1990 **Theological Reflection and the Pursuit of Ideals** Dale Wright, Maria Antonaccio, 2016-02-17 Contemporary thought is marked by heated debates about the character, purpose, and form of religious thinking and its relation to a range of ideals: spiritual, moral, aesthetic, political, and ecological, to name the obvious. This book addresses the interrelation between theological thinking and the complex and diverse realms of human ideals. What are the ideals appropriate to our moment in human history, and how do these ideals derive from or relate to theological reflection in our time? In *Theological Reflection and the Pursuit of Ideals*, internationally renowned scholars from a range of disciplines—physics, art, literary studies, ethics, comparative religion, history of ideas, and theology—engage with these crucial questions with the intention of articulating a new and historically appropriate vision of theological reflection and the pursuit of ideals for our global times. **Studies in Gender** Patricia Grimshaw, Ruth Fincher, Marion Campbell, 1992 *Margery Kempe* Verena E. Neuburger, 1994 Traditionally, the feminist movement in England is dated at the threshold of the eighteenth century. A close reading of *The Book of Margery Kempe* has revealed irrefutable evidence of much earlier roots. To her reputation as a minor mystic and the author of the first autobiography in the English language can be added a

greater claim The Book Margery Kempe s record of her struggle for self definition demands inclusion among the serious contributions to feminist literature      **Julian of Norwich's Showings** Denise Nowakowski Baker,1997 The 14th century mystic Julian of Norwich has inspired generations of Christians with her reflections on the motherhood of Jesus and other writings Here Denise Baker reconsiders Julian as an evolving theologian of great originality Focusing on Julian s BOOK OF SHOWINGS in which she recorded a series of revelations received in 1373 Baker provides the first historical assessment of Julian s significance as a writer and thinker 3 halftones      **Encyclopedia of Catholic Literature** Mary R.
