Justpeace Ethics Jarem Sawatsky, 2009-01-01 People too often enter into conflict with an eye on how to resolve manage or transform it thereby losing sight of the people involved and the end desired Justice and peace too often serve as abstract ideals or distant shores We have not yet learned enough

about how these ends can also be the means of conflict resolution Drawing on the imaginations of some leading peace and restorative justice practitioners Justpeace Ethics identifies components of a justpeace imagination the basis of an alternative ethics where the end is touched with each step In this simple companion to justpeace ethics Jarem Sawatsky helps those struggling with how to respond to conflict and violence in both just and peaceful ways He offers practical examples of how analysis intervention and evaluation can be rooted in a justpeace imagination

What is a Just Peace? Pierre Allan,Alexis Keller,2008 Just war has attracted considerable attention The words peace and justice are often used together Surprisingly however little conceptual thinking has gone into what constitutes a just peace This book which includes some of the world s leading scholars debates and develops the concept of just peace The problem with the idea of a just peace is that striving for justice may imply a just war In other words peace and justice clash at times Therefore one often starts from a given view of what constitutes justice but this a priori approach leads especially when imposed from the outside straight into discord This book presents conflicting viewpoints on this question from political historical and legal perspectives as well as from a policy perspective This book also argues that a just peace is a mediated peace It is just because it is based on conventions that are negotiated and recognized by the parties Mutual recognition is central parties recognize each other as agents that have an identity Consent is necessary too all parties need to approve a solution therefore each party needs to understand what allows the other to remain self And renouncement concessions are necessary some symbols and positions need to be sacrificed In this sense the Geneva Initiative the first comprehensive Israeli Palestinian peace plan is a mediated peace Thus the book challenges a liberal view of peace founded on norms claiming universal scope This liberal conception has difficulty in solving conflicts such as civil wars characterized typically by fundamental disagreements between different communities Cultures make demands that are identity defining and some of these defy the cultural neutrality that is one of the foundations of liberalism Thus the concept of just peace cannot be solved within liberalism nor for that matter within communitarianism

**Ethics Beyond War's End** Eric Patterson,2012-03-02 The wars in Afghanistan and Iraq have focused new attention on a perennial problem how to end

wars well What ethical considerations should guide war's settlement and its aftermath In cases of protracted conflicts recurring war failed or failing states or genocide and war crimes is there a framework for establishing an enduring peace that is pragmatic and moral Ethics Beyond War's End provides answers to these questions from the just war tradition Just war thinking engages the difficult decisions of going to war and how war is fought But from this point forward just war theory must also take into account what happens after war ends and the critical issues that follow establishing an enduring order employing political forms of justice and cultivating collective forms of conciliation Top thinkers in the field including Michael Walzer Jean Bethke Elshtain James Turner Johnson and Brian Orend offer powerful contributions to our understanding of the vital issues associated with late and post conflict in tough real world scenarios that range from the US Civil War to contemporary quagmires in Afghanistan the Middle East and the Congo

**A Double-Edged Sword** Brenda E.

Novack,2014-05-19 On first consideration one might not be inclined to view Adolf Hitler and Dietrich Bonhoeffer in relation to Jehanne d Arc Joan of Arc but Brenda E Novack does just that She demonstrates how these three prominent figures who influenced world history all acted in accordance with what they claimed or perceived to be divine sanction of their participation in violence Taking the reader on a unique exploration of their lives and deaths Novack identifies significant similarities and differences in notions of divine call and human response conveyed by these personalities and determines how they align or fail to align with the biblical prophetic tradition Taking Jehanne d Arc as her foundational study the author engages important theological issues such as the nature of revelation evil and morality The process culminates in the construction of a model of righteous warfare and human agency presented as a tool for evaluating claims to divinely sanctioned violence and as a potentially effective alternative to an outmoded and currently inadequate just war model Case studies of Hitler and Bonhoeffer tentatively establish the model s ability to steer humanity away from unnecessary destruction toward justice compassion and peace

**Justice After War** David Chiwon Kwon,2023-05-12 Justice After War is aimed especially to both undergraduate and graduate students as well as the general audience who want to understand the significance of a recent development within the just war tradition namely the increasing attention given to the category of jus post bellum postwar justice and peace While examining the interrelated challenges of moral and social norms in both political and legal domains as well as church practices this work proposes an innovative methodology for linking theology ethics and social science so that the ideal and the real can inform each other in the ethics of war and peacebuilding The main task of this project then is to identify what the author views as three key themes of jus post bellum and three practices that are essential to implementing jus post bellum immediately after a war just policing just punishment and just political participation David Kwon endeavors to challenge the view of those who suggest that reconciliation mainly political reconciliation is the foremost ambition of jus post bellum Instead he attempts to justify the proposition that achieving just policing just punishment and just political participation are essential to building a just peace a peace in which the fundamental characteristic must be human security It thus demonstrates that human security is an oft neglected theme in the recent discourse of moral theologians and that a more balanced understanding of jus post bellum will direct attention to the elements composing human security in a postwar context

Suderman,2016-09-30 The church What has it become What was it meant to be Does it pave the way or get in the way Are we suspicious of the institutionalization of church bureaucracy Or thrilled with the relevant impact of its presence Robert J Suderman writes about the church as a practitioner His inspiration emerges out of the crossroads of biblical vision and human sincerity always tempered with frailty Years of ministry never a stranger to complexity only serve to sharpen the vision of possibility His imagination of what can be is never divorced from the realities of what is He does not bow to the common assumption that you can t get there from here Here is the only possible point of origin for us In his succinct easy to understand writing style
