The Spiritual Quest Robert M. Torrance,2023-09-01 Robert Torrance s wide ranging innovative study argues that the spiritual quest is rooted in our biological psychological linguistic and social nature The quest is not as most have believed a rare mystical experience but a frequent expression of our most basic human impulses Shaman and scientist medium and poet prophet and philosopher all venture forth in quest of visionary truths to transform and renew the world Yet Torrance is not trying to reduce the quest to an archetype or monomyth Instead he presents the full diversity of the quest in the myths and religious practices of tribal peoples throughout the world from Oceania to India Africa Siberia and especially the Americas In theorizing about the quest Torrance draws on thinkers as diverse as Bergson and Piaget van Gennep and Turner Pierce and Popper Freud Darwin and Chomsky This is a book that will expand our knowledge and awareness of a fundamental human activity in all its fascinating complexity Robert Torrance s wide ranging innovative study argues that the spiritual quest is rooted in our biological psychological linguistic and social nature The quest is not as most have believed a rare mystical experience but a frequent expression of o

Fusion Energy Update ,1979 **Nuclear Power Hazard Control Policy** John C. Chicken,2016-06-03 Nuclear Power Hazard Control Policy provides an analysis of the elements that influenced the development and type of policies on the hazard control of nuclear power in Britain The book starts with an account of the nuclear hazards and its legal and administrative basis of control A section of the book is focused on the creation and implementation of policies The book analyzes some types of radiation and how it is released The diseases that develop from certain exposure to radiation are also explained The economic aspects of nuclear power utilization are discussed in detail Some historical accounts of significance to the study are evaluated Events such as the British bomb and the arrival of nuclear power are some of the events The final chapter of the book discusses a possible policy making system that considers the changes in the environment surrounding the system The text is intended for legislators lawyers nuclear physicists students and researchers in the field of law The Nuclear Fission Process Cyriel Wagemans,1991-09-20 This text provides a comprehensive review of knowledge regarding

nuclear fission from both the purely scientific and practical points of view Topics discussed include fission barriers spontaneous fission neutron induced fission cross sections photon and electron induced fission charged particle induced fission fragment angular momentum and ternary fission The characteristics of other reaction products are also discussed Contributed articles from several distinguished nuclear scientists guarantee adequate treatment of some of the specialized research fields included in the text Intended primarily as an introduction to nuclear fission for graduate students this book will also provide useful information for nuclear physicists involved with research or teaching *New Society*, 1977

The Rats Had Never Left Abdusamaad (Sam) Karani, 2023-01-05 Systemic racism underlies post colonial societies due in part to the undeniable legacy of historical racism The conquering colonist often mistakenly referred to as the settler colonist dominated the colonized especially their minds Overcoming destructive colonialism and systemic racism requires the decolonization of the mind the mutually embedded mindsets of the conqueror and the colonized Eliminating this legacy requires that we know who we are and admit to and rectify past mistakes The Rats Had Never Left draws on the lived experiences of Abdusamaad Sam Karani in Apartheid South Africa including his personal advocacy for mental health and psychology in society and the cost he paid in the process Having lived abroad in London UK and now Canada Karani shares his experiences with the destructive legacy of systemic racism Liberal democracies need to overcome the legacy of systemic racism So how do we move forward How do we keep ourselves from being stuck in the destructiveness of the blame game Enhancing tolerance is the way forward The racialized must not be reluctant to take the initiative Society's institutions police the justice system etc need to self reflect for long term change keeping in mind that power has traditionally never been shared as a natural process with society's disadvantaged *Nuclear Science Abstracts*, 1975

The Geography of Rural Change Brian W. Ilbery, 2014-09-11 The Geography of Rural Change provides a thorough examination of the processes and outcomes of rural change as a result of a period of major restructuring in developed market economies After outlining the main dimensions of rural change the book progresses from a discussion of theoretical insights into rural restructuring to a consideration of both the extensive use of rural land and the changing nature of rural economy and society The text places an emphasis on relevant principles concepts and theories of rural change and these are supported by extensive case study evidence drawn from different parts of the developed world The Geography of Rural Change is written for undergraduates taking courses in human geography agricultural geography rural geography rural sociology planning and agricultural economics THE FISSION SOCIETY; ENERGY, ELECTRICITY, AND THE NUCLEAR OPTION. W.C. PATTERSON, 1977

Nuclear Fission Patrick Talou, Ramona Vogt, 2023-01-01 This book provides advanced students and postdocs as well as current practitioners of any field of nuclear physics involving fission an understanding of the nuclear fission process Key topics covered are fission cross sections fission fragment yields neutron and gamma emission from fission and key nuclear technologies and applications where fission plays an important role It addresses both fundamental aspects of the fission

process and fission based technologies including combining quantitative and microscopic modeling **Energy Research Abstracts** ,1990 *ERDA Energy Research Abstracts* ,1977 Journal and Proceedings of the Royal Society of New South Wales Royal Society of New South Wales,1902 Includes list of members **New Ways and Needs for Exploiting Nuclear Energy** Didier Sornette,Wolfgang Kröger,Spencer Wheatley,2018-09-29 The history of mankind is a story of ascent to unprecedented levels of comfort productivity and consumption enabled by the increased mastery of the basic reserves and flows of energy This miraculous trajectory is confronted by the consensus that anthropogenic emissions are harmful and must decrease requiring de carbonization of the energy system The mature field of indicator based sustainability assessment provides a rigorous systematic framework to balance the pros and cons of the various existing energy technologies using lifecycle assessments and weighting criteria covering the environment economy and society as the three pillars of sustainability In such a framework nuclear power is ranked favorably but since emphasis is often placed on radioactive wastes and risk aversion renewables are usually ranked top However quantifying the severity of the consequences of nuclear accidents on a rough integral cost basis and balancing severity with low core damage accident probabilities indicates that the average external cost of such accidents is similar to that of modern renewables and far less than carbon based energy This book formulates the overall goal and associated unprecedented demanding criteria of taming nuclear risks by excluding mechanisms that lead to serious accidents and avoiding extremely long stewardship times as far as possible by design It reviews the key design features of nuclear power generation paving the way for the exploration of radically new combinations of technologies to come up with revolutionary or even exotic system designs The book also provides scores for the selected designs and discusses the high potential for far reaching improvements with small modular lines of the best versions as being most attractive Given the ambition and challenges the authors call for an urgent increase in funding of at least two orders of magnitude for a broad international civilian super Apollo program on nuclear energy systems Experience indicates that such investments in fundamental technologies enable otherwise unattainable revolutionary innovations with massive beneficial spillovers to the private sector and the public for the next generations **Radioactive Waste Management** ,1981 **Conference on Neutron Cross Section Technology** P.
