Himalayan Enchantment Frank Kingdo-Ward, 2002 Himalayan Enchantment Francis Kingdon Ward, 1990 The last of the great plant hunters Frank Kingdon Ward undertook 25 major expeditions over a period of nearly 50 years and collected and numbered more than 23 000 plants English gardens are still enriched by the poppies lilies primulas rhododendrons and many other plants that he introduced Britain and Tibet 1765-1947 Julie Marshall, 2004-11-23 This bibliography is a record of British relations with Tibet in the period from 1765 to 1947 It also provides background information to Tibet's claims to independence an issue of current importance The work is divided into a number of sections and subsections based on chronology geography and events The introductions to each of the sections provide a condensed and informative history of the period and place the books and articles in their historical context. This work is both a history and a bibliography of the subject and provides a rapid entry into a complex area for scholars in the fields of international relations and military history as well as Asian history The Unquiet River Arupiyoti Saikia, 2019-08-25 The unruly Brahmaputra has always been an agent in shaping both the landscape of its valley and the livelihoods of its inhabitants But how much do we know of this river s rich past Historian Arupjyoti Saikia s biography of the Brahmaputra reimagines the layered history of Assam with the unquiet river at the centre The book combines a range of disciplinary scholarship to unravel the geological forces as well as human endeavour which have shaped the river into what it is today Wonderfully illuminated with archival detail and interwoven with narratives and striking connections the book allows the reader to imagine the Brahmaputra's course in history This evocative and compelling book will be interesting reading for anyone trying to understand the past and the present of a river confronted by the twenty first century s ambitious infrastructural designs to further re engineer the river and its landscape Dictionary Of British And Irish Botantists And Horticulturalists Including plant collectors, flower painters and garden designers Ray Desmond, 2002-09-11 An exhaustive treatment of all British and Irish botanists through 1976 **Beyond Beauty** Bill Terry, 2012 Hunting the Wild Blue Poppy is the story of a remarkable journey when Bill Terry and his wife Rosemary joined a party of Dutch and British alpine plant hunters intent on botanizing on the roof of the world The expedition travelled in a convoy of eight jeeps over roads that were rarely paved frequently subject to falling rock and in places simply terrifying confined to a single lane with a cliff on one side and a precipitous drop of several hundred feet to the valley below They crossed fifteen passes as high as 5 000 metres 16 500 feet where even in midsummer the wind scoured exposed skin like steel wool As the journey unfolds Terry sketches the history of the region and in particular observes life for Tibetans under direct Chinese rule and the ever alert Peoples Liberation Army

**Rhododendron** Richard Milne,2017-09-15 Has ever a plant inspired such love and such hatred as the rhododendron Its beauty is inarguable it can clothe whole hillsides and gardens with a blanket of vibrant color The rhododendron has a propensity towards sexual infidelity making it very popular with horticultural breeding programs And it can also be used as

an herbal remedy for an astonishing range of ailments But there is a darker side to these gorgeous flowers Daphne du Maurier used the red rhododendron as a symbol of blood in her best selling novel Rebecca and numerous Chinese folktales link the plant with tragedy and death It can poison livestock and intoxicate humans and its narcotic honey has been used as a weapon of war Rhododendron ponticum has run riot across the British countryside but the full story of this implacable invader contains many fascinating surprises In this beautifully illustrated volume Richard Milne explores the many ways in which the rhododendron has influenced human societies relating this to the extraordinary story of the plant s evolution Over one thousand species of the plant exist ranging from rugged trees on Himalayan slopes to rock hugging alpines and delicate plants perched on rainforest branches Milne relays tales of mythical figures intrepid collectors and eccentric plant breeders However much you may think you know about the rhododendron this charming book will offer something new **Thunder** Caroline Alexander, 2024-05-14 From the New York Times bestselling author a breathtaking account of combat and survival in one of the most brutally challenging and rarely examined campaigns of World War II In April 1942 the Imperial Japanese Army steamrolled through Burma capturing the only ground route from India to China Supplies to this critical zone would now have to come from India by air meaning across the Himalayas on the most hazardous air route in the world SKIES OF THUNDER is a story of an epic human endeavor in which Allied troops faced the monumental challenge of operating from airfields hacked from the jungle and took on the Hump the fearsome mountain barrier that defined the air route They flew fickle untested aircraft through monsoons and enemy fire with inaccurate maps and only primitive navigation technology. The result was a litary of both deadly crashes and astonishing feats of survival The most chaotic of all the war s arenas the China Burma India theater was further confused by the conflicting political interests of Roosevelt Churchill and their demanding nominal ally Chiang Kai shek Caroline Alexander who wrote the defining books on Shackleton's Endurance and Bligh's Bounty is brilliant at probing what it takes to survive extreme circumstances She has unearthed obscure memoirs and long ignored records to give us the pilots and soldiers eye views of flying and combat as well as honest portraits of commanders like the celebrated Vinegar Joe Stillwell and Claire Lee Chennault She assesses the real contributions of units like the Flying Tigers Merrill's Marauders and the British Chindits who pioneered new and unconventional forms of warfare Decisions in this theater exposed the fault lines between the Allies America and Britain Britain and India and ultimately and most fatefully between America and China as FDR pressed to help the Chinese nationalists in order to forge a bond with China after the war A masterpiece of modern war history Japanese Agent in Tibet Hisao Kimura, Scott Berry, 1990 In October 1943 a small group of Mongolian pilgrims set off westward from Inner Mongolia Before them lay a confused battleground where the Japanese and rival armies of Chinese and Mongolians fought over the fate of Central Asia Among the pilgrims was a young monk named Dawa Sangpo beginning what was probably the greatest travel adventure undertaken by anyone of his nationality in this century for he was not Mongolian at all but an enterprising Japanese named Hisao Kimura Into the
