Posts and Pasts Alfred J. Lopez,2001-05-16 In Posts and Pasts A Theory of Postcolonialism Alfred J Lopez argues for a formulation of postcolonial studies which diverges in three significant ways from current academic and institutional practices 1 the postcolonial as diasporic constituted by a series of dispersed and irregular criticisms not at all containable within a single set of parameters whether historical geographical or socioeconomic 2 the postcolonial as a distinct ontological moment in the life of a nation or people in which it conceives itself as doubly haunted on the one hand by the memory in advance of a collective national future and on the other by its colonial past and 3 the postcolonial as a distinct phenomenological moment a radical break in the history of a relation between lords and bonds women and men Going further than previous studies to address the postcolonial as a diasporic body of texts and discourses it looks at a remarkable variety of writers Joseph Conrad Wilson Harris Jose Marti Edward Kamau Brathwaite Michelle Cliff J M Coetzee Franz Fanon Gabriel Marcia Marquez and Salman

Rushdie Beyond the Headlines Jeff Ignatowski, 2024-07-02 Ever wonder about the truth behind the sensationalized headlines when it comes to history's most infamous killers? So did author Jeff Ignatowski, a nationally known speaker on the psychology of serial killers who turned that curiosity into his meticulously researched collection *BEYOND THE HEADLINES: True Crime's Myths and Legends*. Includes a Foreword by E. J. Hammon. More than a collection of dramatically told true crime stories, Ignatowski's anthology challenges and explores the integrity of widespread myths surrounding infamous personalities such as Jack the Ripper, Dennis Rader, Elizabeth Bathory, Ed Gein, and Ted Bundy. It provides a deeper understanding of their stories through historical insight, criminological analysis, and a careful separation of fact from fiction. Having spent years counseling incarcerated youth offenders and studying serial killer psychology through his collaboration with other true crime and forensic psychiatry experts, he examines in *BEYOND THE HEADLINES* how these narratives have been molded by and in turn shaped public beliefs and media representations. *BEYOND THE HEADLINES* invites readers to reconsider what they think they know about these monsters and their crimes. By challenging conventional narratives, readers will come away with a deeper understanding.

Robert Penn Warren and American Idealism John Burt, 1988-01-01 A comprehensive study that explores the intricate relationship between Robert Penn Warren's literary works and the concept of American idealism. The book delves into how Warren's writings reflect and critique the foundational ideals of America, such as liberty, democracy, and individualism. Burt examines Warren's engagement with American history and its ideals, highlighting how Warren's characters often grapple with the tension between idealism and reality. The book discusses Warren's belief that America's identity is rooted in an abstract idea rather than a shared ancestry or long history, making the American experience unique and complex. Through close readings of Warren's poetry, fiction, and historical writings, Burt illustrates how Warren's work addresses the moral and philosophical challenges of American idealism. The book also touches on Warren's views on the Civil War and its lasting impact on American society, emphasizing the ongoing struggle to reconcile the nation's ideals with its historical realities. Overall, *Robert Penn Warren and American Idealism* provides a nuanced and insightful analysis of Warren's literary contributions and their significance in understanding American identity and ideals.
