Steven Belletto, Joseph Keith

Introduction To Neo Colonialism:

An Introduction to Neo-colonialism Jack Woddis, **An introduction to neo-colonialism : the new imperialism en Asia, Africa and Latin America** Jack Woddis,1971 **NAFTA & Neocolonialism** Laurence French, Magdaleno Manzanárez,2004-10-22 This work is a study of the impacts of the North American Free Trade Agreement NAFTA By focusing on the issue of justice in the contexts of globalization and neo colonialism the book contributes to a broader discussion of the significance of NAFTA Authors Laurence French and Magdaleno Manzan rez emphasize cultural and ethnic issues in the relations of NAFTA partners and enrich treatment of the topic by bringing to bear sociology political science justice studies psychology and educational theory The authors relate classical sociological theory to contemporary issues of social and criminal justice **Neocolonial Fictions of the Global Cold War** Steven Belletto, Joseph Keith,2019-06-03 Bringing together noted scholars in the fields of literary cultural gender and race studies this edited volume challenges us to reconsider our understanding of the Cold War revealing it to be a global phenomenon rather than just a binary conflict between U S and Soviet forces Shining a spotlight on writers from the war s numerous fronts and applying lenses of race gender and decolonization the essayists present several new angles from which to view the tense global showdown that lasted roughly a half century Ultimately they reframe the Cold War not merely as a divide between the Soviet Union and the United States but between nations rich and poor and mostly white and mostly not By emphasizing the global dimensions of the Cold War this innovative collection reveals emergent forms of post WWII empire that continue to shape our world today thereby raising the question of whether the Cold War has ever fully ended **Neo-colonialism** Mahmoud Yahya,1994 **Neo-Colonialism and the Poverty of 'Development' in Africa** Mark Langan,2017-10-11 Langan reclaims neo colonialism as an analytical force for making sense of the failure of development strategies in many African states in an era of free market globalisation Eschewing polemics and critically engaging the work of Ghana s first President Kwame Nkrumah the book offers a rigorous assessment of the concept of neo colonialism It then demonstrates how neo colonialism remains an impediment to genuine empirical sovereignty and poverty reduction in Africa today It does this through examination of corporate interventions Western aid giving the emergence of new donors such as China EU Africa trade regimes the securitisation of development and the UN Sustainable Development Goals Throughout the chapters it becomes clear that the current challenges of African development cannot be solely pinned on so called neo patrimonial elites Instead it becomes imperative to fully acknowledge and interrogate corporate and donor interventions which lock many poorer countries into neo colonial patterns of trade and production The book provides an original contribution to studies of African political economy demonstrating the on going relevance of the concept of neo colonialism and reclaiming it for scholarly analysis in a global era **The International Criminal Court at the Mercy of Powerful States** Res Schuerch,2017-07-15 This book aims to investigate whether and if so how an institution designed to bring to justice perpetrators of the most heinous crimes

can be regarded a tool of oppression in a neo colonial sense To do so it re invents the concept of neo colonialism which is traditionally associated more with economic or political implications from an international criminal law perspective combining historical political and legal analyses Allegations of neo colonialism in relation to the International Criminal Court ICC became widespread after the Court had issued an arrest warrant against the Sudanese President Omar Al Bashir in 2009 While the Court since its entry into function in 2002 has been confronted with criticism from various corners the neo colonialism controversy was sparked by African stakeholders Unlike other contributions in this domain thus this book provides a Western perspective on an issue more often addressed from an African standpoint with the intention of distinguishing itself from the more political and emotive and sometimes superficial arguments that exist within critical legal approaches towards the ICC The subject matter will primarily be of interest to scholars of international criminal law or those operating at the intersection of law and politics history nationals of African states and from other parts of the world professionally interested and or involved in international criminal law and justice and the ICC and governmental and non governmental organizations Secondly the book will also appeal and speak to critical legal scholars and those interested in historical legal analysis Res Schuerch is a Swiss lawyer specialized in the field of International Criminal Law and the ICC He previously worked as a researcher at the University of Amsterdam and as an academic assistant at the University of Zurich

Colonial Downfall and Neo-colonialism Hartmut Schilling,1979 **Socio-Economic Origins of Neocolonialism and African States' Responses since 1960** Teshale Aklilu,2023-01-09 Academic Paper from the year 2022 in the subject History of Europe Colonialism language English abstract This paper tries to show the socio economic origins of neocolonialism and the African States response since 1960 This research employs a qualitative study based on a careful examination of books pertinent published journal articles and other works that have been consulted cross checked and reinterpreted The outcome demonstrates that since the 1960s former colonial powers have sought to maintain their former position of agricultural product and raw material attachment with newly independent African states Finally some African state leaders such as Nkrumah Nyerere Milton Obote and others provided an exemplary response to the expansion of neocolonialist powers in Africa by focusing on a thorough explanation of dependency theory and advising African leaders to fight neocolonialists in the economic sphere and they began cooperation by holding conferences and signing an agreement to combat neocolonialism Britain and the Arab Gulf after Empire Simon C. Smith,2019-03-08 Although Britain s formal imperial role in the smaller oil rich sheikdoms of the Arab Gulf Kuwait Bahrain Qatar and the United Arab Emirates ended in 1971 Britain continued to have a strong interest and continuing presence in the region This book explores the nature of Britain s role after the formal end of empire It traces the historical events of the post imperial years including the 1973 oil shock the fall of the Shah in Iran and the beginnings of the Iran Iraq War considers the changing positions towards the region of other major world powers including the United States and engages with debates on the nature of empire and the

end of empire The book is a sequel to the authors highly acclaimed previous books Britain's Revival and Fall in the Gulf Kuwait Bahrain Qatar and the Trucial States 1950-71 Routledge 2004 and Ending Empire in the Middle East Britain the United States and Post war Decolonization 1945-1973 Routledge 2012 *Legal Protection and Sustainability of Chinese Investments in Africa* Xiuli Han, 2022-08-26 This book attempts to illustrate the whole picture of international investment rule of law between China and African countries and find the way forward through combining theory and practice It is a book by a Chinese professor based on her long term research experience in the international investment law field and her African field work in person Its main feature is its well balanced thinking on the structure of investment international rule of law It should be the most comprehensive research on the international investment rule of law between China and African countries With the increase of Chinese investment in Africa various discussions and viewpoints on Chinese investment in Africa have become striking The purpose of this book is to explore systematically the protection and sustainability of Chinese investment under the concept and framework of the international investment rule of law so as to serve the sustainable development of Africa and China For the purpose of this book great importance is attached to the idea of the international rule of law and the international investment law with the function of rule of law is adhered to The conclusion of this book is that China should take proactive steps to protect Chinese investment in Africa and regulate Chinese overseas investors and their investments in addition to complying with the laws in the host states and thus make them conducive to African and Chinese sustainable development however the most significant issue is that China Africa investment relations should be regulated by the evolving and specific international investment rule of law and the China Africa international investment rule of law should conform to normative in form support common sustainable development in value and reflect the social reality of China and Africa For both researchers and students it is an approach to understand international investment rule of law from a perspective of China and Africa For those who are interested in China and Africa it is a useful reference book *The Illusion of the Post-Colonial State* W. Alade Fawole, 2018-06-01 This book challenges the long held conventional wisdom that Africa is a post colonial society of sovereign nation states despite the outward attributes of statehood demarcated territories permanent populations governments national currencies police and armed forces While it is true that African nation states have been gifted flag independence by their respective colonial masters few have reached fully developed status as a secure nation state Most African nation states have since independence been grappling with the crisis of state building nation building governance and myriad security challenges which have been chronically exacerbated by the dynamics of the post Cold War era To focus merely on the agency of the African political elite and their inability to sustain functional modern nation states misses the point The central argument of the book is that an understanding of Africa's contemporary governance and security challenges requires us to historicize the discourse surrounding nation building and state building throughout Africa *An Introduction to African Politics* Alex Thomson, 2022-12-30 This fully updated fifth edition of An Introduction to African

Black Iconography and Colonial (re)production at the ICC Stanley Mwangi Wanjiru, 2022-11-25 This book explores the reproduction of colonialism at the International Criminal Court ICC and examines international criminal law ICL vs the black body through an immersive format of art music poetry and architecture and post colonial critical race theory lens Taking a multi disciplinary approach the book interrogates the operationalisation of the Rome Statute to detail a Eurocentric hegemony at the core of ICL It explores how colonialism and slavery have come to shape ICL exposing the perpetuation of the colonial and warns that it has ominous contemporary and future implications for Africa As currently envisaged and acted out at the ICC this law is founded on deceptive and colonial ideas of what is wrong in with the world The book finds that the contemporary ICL regime is founded on white supremacy that corrupts the law s

interaction with the African The African is but a unit utilised by the global elite to exploit and extract resources From time to time these alliances disintegrate with ICL becoming a retaliatory tool of choice What is at stake is power not justice This power has been hierarchical with Eurocentrism at the top throughout modern history Colonialism is seen not to have ended but to have regerminated through the foundation of the independent African state The ICC reproduces the colonial by use of European law and ultimately the over representation of the black accused To conclude the book provides a liberated African forum that can address conflicts in the content with a call for the end of the ICC s involvement in Africa The demand is made for an African court that utilises non colonising African norms which are uniquely suited to address local conflicts Multidisciplinary in nature this book will be of great interest to students and scholars of international criminal law criminal justice human rights law African studies global social justice sociology anthropology postcolonial studies and philosophy
