Robert Ash, John W. Garver, Penelope Prime, 2013-07-03 Taiwan's rapid industrialization during the 1960s and 1970s combined with the democratic revolution that began with the lifting of martial law in 1987 were of deep historic importance. Over the next decade Taiwan's political miracle matched its earlier economic miracle, creating a vibrant liberal democracy complete with freedom of speech, association and assembly, rule of law and competitive and fair multi-party elections. The continuation of these achievements and the new challenges that have surfaced are addressed in rich detail in the chapters of this volume by an international team of experts. One of the biggest such challenges is Mainland China's economic success which has added to the complexity of Taiwan's economic and political policy options. A number of the contributors to this volume consider Taiwan's response to China's economic rise and show how Taiwanese companies have strategically taken advantage of the changing economic environment by moving up the value chain of production within Taiwan while also taking the opportunity to invest overseas. With chapters covering a wealth of topics including Constitutional reform, National identity, Party politics, Taiwan's development model, Industrial policy, Trade and investment, Globalization, Sustainable development, Taiwan's Democracy will be of huge interest to students and scholars of Taiwan studies, Chinese politics and economics, international politics and economics and development studies.      Refracted Modernity Yuko Kikuchi, 2007-08-01

Since the mid 1990s Taiwanese artists have been responsible for shaping much of the international contemporary art scene yet studies on modern Taiwanese art published outside of Taiwan are scarce. The nine essays collected here present different perspectives on Taiwanese visual culture and landscape during the Japanese colonial period 1895-1945, focusing variously on travel writings, Western and Japanese Oriental style paintings, architecture, aboriginal material culture and crafts. Issues addressed include the imagined Taiwan and the discovery of the Taiwanese landscape which developed into the imperial ideology of *nangoku* (southern country), the problematic idea of local color which was imposed by Japanese and its relation to the nativism that was embraced by Taiwanese, the gendered modernity exemplified in the representation of Chinese Taiwanese women and the development of Taiwanese artifacts and crafts from colonial to postcolonial times from their discovery, aestheticization and industrialization to their commodification by both the colonizers and the colonized. Contributors: Chao Ching-fu, Chia-yu Hu, Yuko Kikuchi, Kaoru Kojima, Ming-chu Lai, Hsin-tien Liao, Naoko Shimazu, Toshio Watanabe, Chuan-ying Yen.      **Entrepreneurship and Taiwan's Economic Dynamics** Fu-Lai Tony Yu, 2012-04-02 Taiwan's economic success is well known and considered to be one of the East Asian Miracles by the World Bank. This book examines the contributions of dynamic entrepreneurs to the economic development of Taiwan. It adopts Austrian theories of entrepreneurship and market process as a major analytical framework. Specifically, it focuses on knowledge and coordination problems. It examines how entrepreneurs identify and pursue profit opportunities and how their efforts have enhanced Taiwan's economic dynamics. This book sheds new light on the economic development of Taiwan.      **Government and**
