Islam Malise Ruthven, 2012-01-26 Islam features widely in the news often in its most militant versions but few people in the non Muslim world really understand the nature of Islam Malise Ruthven's Very Short Introduction contains essential insights into issues such as why Islam has such major divisions between movements such as the Shi'ites the Sunnis and the Wahhabis and the central importance of the Sharia Islamic law in Islamic life It also offers fresh perspectives on contemporary questions Why is the greatest Jihad holy war now against the enemies of Islam rather than the struggle against evil Can women find fulfilment in Islamic societies How must Islam adapt as it confronts the modern world In this new edition Ruthven brings the text up to date by reflecting upon some of the most significant changes in the Muslim world in recent years from the emergence of al Qaeda and the attacks on New

A New Introduction to Islam Daniel W. Brown, 2017-02-16 Covering the origins key features and legacy of the Islamic tradition the third edition of A New Introduction to Islam includes new material on Islam in the 21st century and discussions of the impact of historical ideas literature and movements on contemporary trends Includes updated and rewritten chapters on the Qur'an and hadith literature that covers important new academic research Compares the practice of Islam in different Islamic countries as well as acknowledging the differences within Islam as practiced in Europe Features study questions for each chapter and more illustrative material charts and excerpts from primary sources **Post-Islamist Political Theory** Meysam Badamchi, 2017-06-22 This book deals with the concept of post Islamism from a mainly philosophical perspective using political liberalism as elaborated by John Rawls as the key interpretive tool What distinguishes this book from most scholarship in Iranian studies is that it primarily deals with the projects of Iranian intellectuals from a normative perspective as the concept is understood by analytical philosophers The volume includes analyses of the strengths and weakness of the arguments underlying each thinker's ideas rather than looking for their historical and sociological origins genealogy etc Each chapter develops a particular conjectural argument for the possibility of an overlapping consensus between Islam and political liberalism though the arguments presented draw upon different Islamic particularly Shia resources Thus while Shabestari and Soroush primarily reason from a modernist theological or kalami perspective M H Tabatabai and Mehdi Haeri Yazdi's arguments are mainly based on traditional Islamic philosophy and Quranic exegesis While Kadivar An Naim and Fanaei are post Islamist in the exact sense of the term Malekian goes beyond typical post Islamism by proposing a theory for spirituality that constrains religion within the boundaries of enlightenment thought Throughout the book specific attention is given to Ferrara and March's readings of political liberalism Although the book's chapters constitute a whole they can also be read independently if the reader is only curious about particular intellectuals whose political theories are discussed

Globalizing International Theory A. Layug, John M. Hobson, 2022-09-30 Globalizing International Theory adds to the literature on non Western international relations IR theory by probing the question of what it means to globalize international theory The book starts with the premise that international theory is unfinished incomplete and homogenous because it provides a limited conception of the international which in turn derives from its partiality that reflects its narrow Western centric bias The contributors argue that the IR vision of the world is projected through a polarizing Western filtered lens Rather than utilizing an objective set of explanatory tools for explaining world politics the reality is that orthodox IR theory only tells us why the West is best and why the Rest should become like the West This means that international theory is not truly international In provincializing Western international theory this volume navigates beyond the Eurocentric and imperial frontier of the prevailing limited conception of the international to explore the hidden contributions to international theory which can be found in the non Western world Bringing in excluded non Western conceptions of international theory highlights a broader conception of the international The book provides a framework for

theorizing globally exploring the fundamental problems with Western IR theory and how to overcome them This book will be used by advanced undergraduate and postgraduate students scholars researchers and IR theorists worldwide who are interested in non Western IR theory It will help navigate the problem of internationalness in the face of the grand theoretical problem of our time the use and misuse of international theory in making sense of and responding to the complex global realities of the twenty first century
