Medieval History Donald A. White, 1965 Reflecting the editor's conviction that the study of medieval history perhaps more than any other requires acquaintance with primary sources of the era this volume is a collection of contemporary documents accounts and essays on the main movements in Europe from the times of the Romans to 1300 It includes as many complete works as possible or long selections rather than a series of short excerpts and is organized around single topics each with a provocative and revealing editorial introduction Medieval history begins with the reorganization of the Roman Empire in the 4th century and concludes at the end of the 13th century The editor believes the half century between 1275 and 1325 inaugurated a new period in European history intermediate between medieval and early modern The readings presented here and their introductions constitute a comprehensive view of the medieval world and its religious and secular history Publisher **A History of Medieval**

Europe Ralph Henry Carless Davis, 2006 R C Davis provided the classic account of the European medieval world equipping generations of students with sufficient grasp of the period to debate diverse historical perspectives and reputations In updating this classic work to a third edition the additional author now enables students to see history in action the diverse viewpoints and important research that has been undertaken since Davis second edition and progressed historical understanding A key work updated in a method that both enhances subject understanding and sets important research in its wider context A vital resource now up to date for generations of historians to come

The Medieval World View William Robert Cook, Ronald B. Herzman, 1983 The Medieval World View 2 e is an engaging introduction to the people places and ideas that shaped the intellectual world of the Middle Ages The book presents the presuppositions of medieval society in a systematic fashion by integrating brief self contained selections from primary texts and carefully captioned photographs into a narrative of the medieval world and its foundations The text is divided into three parts Treating both the classical and biblical antecedents of the Middle Ages and ending in Late Antiquity Part 1 includes a thorough discussion of the monumental figure of St Augustine Part 2 deals with the early Middle Ages beginning with the disintegration of the Roman Empire and continuing through the German invasions the sixth and seventh century founders and the renaissance associated with the reign of Charlemagne Part 3 examines the High Middle Ages and beyond following developments in the Church in politics and in arts and culture from the twelfth century through the end of the fourteenth century This second edition has been thoroughly updated to reflect recent scholarship in the field It adds a new chapter covering the fourteenth century and pays greater attention to women and gender related issues The bibliography has been updated and revised and now provides a useful guide to electronic resources The Medieval World View 2 e handles sophisticated issues with great clarity and ease making this an ideal text for courses in medieval history literature or art history Book jacket
