Campbell,2017-09-29 The goal of the twelve essays in this volume contributed by scholars in the fields of history literature art history and medicine is to enrich our understanding of cultural discourses on ageing in early modern Europe While a

number of books examine old age in other eras and a few touch on the early modern period this is the first to focus explicitly on representations of ageing in Europe from 1350 1700 These studies invite the reader to take a closer look at images of ageing they show that representations are embedded in specific communities life situations and structures of power As well the book explores how representations of old age function in various and often surprising ways as repositories of socio cultural anxieties as strategies of self fashioning and as instruments of ideology capable of disciplining the body and the body politic Since this book is about how old age as a cultural category was produced and maintained through representation the essays in this volume are organised thematically across geographic disciplinary and media boundaries to foreground the politics and poetics of representational strategies The contributors to this collection show that our understanding not only of ageing but also of power subjectivity gender sexuality and the body is enriched by the study of cultural representations of old age Through sensitive and sophisticated readings of a wide range of sources these papers collectively demonstrate the formative influence and generative force of images of old age within early modern European culture The Naked Heart Peter Gay,1996 In investigating the inner life of the whole Victorian bourgeoisie that vast class in Emile Zola s words reaching from the common people to the aristocracy Gay turns also to the letters and confessional diaries of both obscure and prominent men and women Jacket **Cultures of Forgery** Judith Ryan,Alfred Thomas,2013-05-13 In Cultures of Forgery leading literary studies and cultural studies scholars examine the double meaning of the word forge to create or to form on the one hand and to make falsely on the other Catalogue of the Library of the National Gallery of Canada National Gallery of Canada. Japan as a clarion call to understand how literary culture worldwide now teeters on a historic precipice one at which Japan's writers may have arrived just a moment before the rest of us *The Naked Heart: The Bourgeois Experience Victoria to Freud* Peter Gay, 1996-10-17 In *The Naked Heart* Peter Gay explores the bourgeoisie's turn inward. At the very time that industrialists, inventors, statesmen, and natural scientists were conquering new objective worlds, Gay writes, the secret life of the self had grown into a favorite and wholly serious indoor sport. Following the middle class's preoccupation with inwardness through its varied cultural expressions such as fiction, art, history, and autobiography, Gay turns also to the letters and confessional diaries of both obscure and prominent men and women. These revealing documents help to round out a sparkling portrait of an age.
