Five Patients The Hospital Explained:

Five Patients Michael Crichton,1989 *Five Patients* Michael Crichton,1989 Crichton has an extraordinary capacity to seize upon then make real and personal the new and the complex the intriguing and the frightening THE NATION In this incisive detailed survey of five patients famous thriller author and doctor Michael Crichton explores the dramatic workings of Massachusetts General Hospital Boston s oldest and most prestigious This readable account covers not only the history of the hospital s place in society but also the actual minute to minute functions of Mass General where health professionals wage their daily battle against disease and death Crichton s insightful look at the changes in medicine and surgery caused by technological strides of recent years makes for amazing reading **Five patients** Michael Douglas,1973 Mending Bodies, Saving Souls

Guenter B. Risse,1999-04-15 This is a brilliant original and broadly defined history of the hospital drawing extensively on narratives written by patients and caregivers to give vivid pictures of hospital life at key stages in the development of the institution **The White Labyrinth** David Barton Smith,Arnold D. Kaluzny,2000 Written for a variety of readers whether interested citizens students or practicing health professionals the book provides a systematic understanding of how health care is provided in the United States It is a readable candid and thoughtful dissection of the problems confronted by both individuals and institutions within the health sector Focus is on a detailed analysis of external environmental issues financial as well as regulatory affecting providers as well as on the structural shifts in health care delivery with both intended and unintended consequences

She was a Booklegger Toni Samek,Moyra Lang,Keller R. Roberto,2010 A compilation of reflections and tales from friends and other admirers who were influenced and inspired by Celeste West a feminist librarian lesbian publisher and activist Provided by publisher Healthy People : the Surgeon General's Report on Health Promotion and Disease Prevention : Background Papers Institute of Medicine (U.S.),1979

Telemedicine, Telehealth and Telepresence Rifat Latifi,Charles R. Doarn,Ronald C. Merrell,2020-11-24 Telemedicine and telehealth have consistently been shown to be effective for remote areas or limited resource locations regular medical and surgical practice primary care second opinion extreme conditions major crises and disaster management The aim of this book is to bring all aspects of telemedicine and e health to the reader in a simple make sense approach in one tome The book is structured in four parts with 29 chapters written by the best experts in the field from around the world including clinicians scientists and administrators of telemedicine programs Part I deals with basic principles of telemedicine and telepresence Historical journeys of telemedicine and strategies building sustainable telemedicine and telehealth programs in the United States and in the Balkans as well as incorporation of telemedicine in the current ongoing pandemic COVID 19 are well described and are must read Current technological developments rules and regulations legal and business aspects and consent are also addressed Part II describes strategies for building sustainable telemedicine and telehealth programs Telehealth patient portals and public private partnership modes of technology as well the role of international telemedicine

and how to make it work are valuable chapters of great significance Part III describes outcomes based evidence clinical applications of telemedicine in trauma burns intensive care pediatric care psychiatry and stroke Finally one important chapter for the readers is the telemedicine for prison and jail population The final part Part IV depicts surgical telementoring and teleproctoring a chapter written by 18 various surgical experts a true gem for the readers The book ends with promises and hurdles of telemedicine in austere conditions Telemedicine Telehealth and Telepresence serves as a valuable resource that focuses on providing patients care from a distance using store and forward technology to live actual performance of operations at a distance Chapters 1 6 12 and 17 are available open access under a Creative Commons Attribution 4 0 International License via link springer.com *Twentieth Century Crime & Mystery Writers* NA NA,2015-12-25 **The Effective Health Care Supervisor** Charles R. McConnell,2003 The fifth edition of this best seller is packed with proven hands on strategies techniques and tools to build and reinforce your management skills and meet the perpetual challenges health care super **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1970 First multi year cumulation covers six years 1965 70 *Management of Medical Technology* Joseph D. Bronzino,2014-06-28 *Management of Medical Technology A Primer for Clinical Engineers* introduces and examines the functions and activities of clinical engineering within the medical environment of the modern hospital The book provides insight into the role that clinical engineers play in the management of medical technology Topics covered include the history job functions and the professionalization of clinical engineering safety in the clinical environment management of hospital equipment assessment and acquisition of medical technologies preparation of a business plan for the clinical engineering department and the moral and ethical issues that surround the delivery of health care Clinical engineers and biomedical engineers will find the book as a great reference material *The Drug Solution* Chester Nelson Mitchell,1990-05-15 This provocative volume makes a valuable contribution to debates on drug legislation It is the only book that analyses and assesses all regulatory alternatives to drug prohibition The author brings together research from the scientific medical ethical and legal fields to criticize drug laws and enforcement policies of many countries including the U S and Canada [Current Catalog](#) National Library of Medicine (U.S.),1970 Includes subject section name section and 1968 1970 technical reports **Great Authors of Mystery, Horror & Thrillers** Britannica Educational Publishing,2014-01-01 Mysteries horror stories and thrillers keep readers hearts pounding and their bodies firmly planted on the edge of their seats The authors who have provided some of the greatest literary adrenaline rushes in history are profiled in this book These individuals challenge readers to solve crimes delve into the supernatural and face their deepest fears all in the name of entertainment and edification By examining the lives of many of the writers behind these popular works including Raymond Chandler Agatha Christie John Grisham Stephanie Meyer and Bram Stoker readers will also learn about the evolution of these genres as well as the impetus behind the creation of many best selling titles therein **Hearts** Thomas Thompson,2016-12-13 Pioneer heart surgeons and bitter rivals The thoroughly

engrossing true story of doctors Michael DeBakey and Denton Cooley The New York Times Book Review By 1970 the Texas Medical Center in Houston was the leading heart institute in the world home to the field's two most distinguished surgeons Dr Michael Ellis DeBakey and his young and ambitious disciple Dr Denton Arthur Cooley Their combined mastery in occlusive disease coronary artery bypass surgery angioplasty and heart transplants was unparalleled For years they worked across the same operating table focused on and fighting toward the same lifesaving goals But what began as a personal friendship and a mutually respectful professional partnership soon deteriorated into a jealous and embittered feud Though their discord was a cause célèbre among colleagues it would take award winning investigative journalist Thomas Thompson to uncover the stunning betrayals and simmering resentments that fueled one of the most famous rivalries in the history of medicine Weaving the story of DeBakey and Cooley with the stories of patients suffering life threatening medical conditions Thompson paints a fascinating portrait of the risks and rewards of cutting edge science From devastating tragedies to miraculous breakthroughs Hearts is a richly detailed and utterly compelling account of the turmoil and tension behind one of the greatest medical achievements of the twentieth century Time **The Criminalization of Medicine** Ronald T.

Libby, 2007-11-30 Medical doctors have been made political scapegoats for the financial crisis of healthcare and the failed war on drugs in the United States says author Ronald Libby In order to combat health fraud and abuse the government launched tough new laws and guidelines designed to battle rising urban violent crimes illegal drugs and terrorism But by eliminating safeguards to protect the innocent those same laws and guidelines also made it far easier for agents and prosecutors to arrest charge fine convict and imprison physicians Current witch hunts for doctors now include wiretaps and whistleblowers who get 35 percent of the fines even before conviction Under a new doctrine of harmless error a doctor receives no protection against false testimony Libby explains all of this offering cases from media reports personal interviews and records of trial as examples in this compelling book Huge law enforcement bureaucracies have been created to target doctors for alleged fraud kickbacks and drug diversion Federal state and local police are rewarded for prosecuting doctors and other healthcare professionals while investigators and prosecutors receive pay raises and promotions and law enforcement agencies seize the assets of doctors charged with felonies Libby explains that doctors are prosecuted for billing mistakes for referring patients to clinics or treating pain patients with pain relieving drugs They receive large fines and long prison sentences some even harsher than those given common criminals who've committed the most violent offenses Join Senior Research Fellow Libby who is also a Professor of Political Science as he shows us why doctors have been demonized as corrupt and greedy entrepreneurs how media sensationalizes doctors arrests and what unjust prosecution could mean for the future of healthcare **Managing a Hospital** Otto Armin Smiseth, 2022-11-24 This book demonstrates how hospitals can be transformed into dynamic patient centered and cost effective organizations It describes systems for providing safe high quality medical services and outlines the importance of data for health outcomes In this regard the book underscores

the importance of decision making and delegation as well as the effective use of administrative staff new technologies and evidence based medicine to benefit patients and boost efficiency At the same time it emphasizes the importance of applying metrics to improve cost effectiveness Although primarily intended as a hands on book for clinical leaders it also considers hospitals from a broader societal perspective making it of interest to leaders at all organizational levels in hospitals and to policymakers alike Something about the Author Alan Hedblad, Anne Commire, 1997 **Virtually Virgins** Jessica L. Gregg, 2003 This book provides a detailed intimate portrait of a community of women living in a shantytown favela in northeastern Brazil while exploring the complex interplay between gender sexuality power and disease It reveals how poor Brasileiras are constrained by dominant cultural constructions of female sexuality as a dangerous force that must be controlled by men yet these women also manipulate these expectations by using their sexuality as a means to secure economic support from men The book argues that these constructions affect their interpretations of medical discourse on the prevention of cervical cancer Since women view sex as both a force they can't control and as a necessary tool for their survival they choose to de-emphasize medical warnings against risky sexual behavior with grave consequences for their health The text is threaded with poignant humorous sometimes graphic and always memorable depictions of the women's lives in the shantytowns making this serious anthropological study a highly readable one as well
