Hippocrates Volume One:

Hippocrates Hippocrates, 2022 The Hippocratic Collection Corpus Hippocraticum consists of between sixty and seventy medical writings in the Ionic Greek dialect dating for the most part from a hundred year period around 400 BC The works included in volume 1 are Ancient Medicine Airs Waters Places Epidemics I Epidemics III Oath Precepts and Nutriment These works greatly in their form and content Ancient Medicine and Airs Waters Places are essays formulated in elegant expository prose in which their authors treat central questions of medical method Epidemics I and III are primary witnesses to Hippocratic observation and experience The Hippocratic Oath is or pretends to be a historical document although its lack of historical context often leaves its interpreter at a loss Unquestionably however its identification of many of the perennial ethical problems attached to medical practice and its high moral ideal justify the reverence it has received for two millennia Precepts is interesting for its author's thoughts on medical ethics etiquette and professionalism in spite of the fact that the text often lacks logical coherence and its language on several occasions defies comprehension Nutriment which is also often difficult to understand although in this case the mystery may be partly the result of an intentional imitation of the language of the early Greek philosopher Heraclitus of Ephesus contains many speculative explanations how the three basic forms of nutriment food drink and breath interact with the body

The General History of Drugs, Volume One Antonio Escoto, 2010 [The Fragments of the Methodists, Volume One: Text and Translation](#) Manuela Tecusan, 2018-07-17 The Fragments of the Methodists is a new attempt to give a first corpus of its kind Manuela Tecusan has collected edited and translated all the surviving testimonials concerning one of the most influential schools or doctrines of medicine in late antiquity Methodism This volume contains the fragments accompanied by a textual apparatus and facing English translation The introduction provides a guide to the collection The second volume presents a commentary to all fragments and two glossaries of medical and pharmacological terms Apart from its intrinsic novelty this material affords fresh insights into broad topics of contemporary concern such as the relation between philosophy and medicine problems of biomedical ethics the epistemological foundations of the sciences the role of causal explanation explored here in their fascinating historical set up Many of the long texts included in the Methodist collection become now available in a translation for the first time *The Works of Ibn Wāḍiḥ al-Ya'qūbī (Volume 1)* Matthew S. Gordon, Chase F. Robinson, Everett K. Rowson, Michael Fishbein, 2018-01-09 The Works of Ibn Wāḍiḥ al-Ya'qūbī a three volume set contains a fully annotated translation of the extant writings of Abū al-Abbās al-Ya'qūbī a Muslim imperial official and polymath of the third ninth century along with an introduction to these works and a biographical sketch of their author The most important of the works are the History Tarikh and his Geography Kitāb al-buldan It also contains a new translation of al-Ya'qūbī's political essay Mushakalat al-nas and a set of fragmentary texts drawn from other Arabic medieval works Al-Ya'qūbī's writings are among the earliest surviving Arabic language works of the Islamic period and thus offer an invaluable body of evidence on patterns of early Islamic history social

and economic organization and cultural production Contributors Laila Asser Paul Cobb Lawrence I Conrad Elton Daniel Fred Donner Michael Fishbein Matthew S Gordon Sidney H Griffith Wadad Kadi al Q Lutz Richter Bernberg Chase F Robinson Everett K Rowson The hardback edition of this title is also available as part of a 3 volume set hardback ISBN 978 90 04 35608 5 [click here](#) **Diocles of Carystus. Volume One, Text and Translation** P.J. van der Eijk, 2018-07-17 Diocles of Carystus 4th century BCE also known as the younger Hippocrates was one of the most prominent medical authorities in antiquity He wrote extensively on a wide range of areas such as anatomy physiology pathology therapeutics embryology gynaecology dietetics foods and poisons In his writings he betrays strong philosophical influence and his views present striking connections with the Hippocratic Corpus Plato Aristotle and Theophrastus The study of Diocles ideas has long been hampered by the absence of a reliable collection of the remaining evidence This book presents and discusses all the fragments and testimonies to Diocles views The first volume presents the Greek Latin and Arabic sources with facing English translation The second volume publication April 2001 provides a commentary on the fragments and places them in their intellectual context *The Genuine Works of Hippocrates; Volume 1 - Scholar's Choice Edition* Francis Adams, Hippocrates Hippocrates, 2015-02-12 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

contribute to our picture of him And what can this tell us about wider popular engagements with the classical world today in memes quotes and online

The History of Mathematics: A Source-Based Approach June Barrow-Green, Jeremy Gray, Robin Wilson, 2021-12-17 The History of Mathematics A Source Based Approach is a comprehensive history of the development of mathematics This the first volume of the two volume set takes readers from the beginning of counting in prehistory to 1600 and the threshold of the discovery of calculus It is notable for the extensive engagement with original primary and secondary source material The coverage is worldwide and embraces developments including education in Egypt Mesopotamia Greece China India the Islamic world and Europe The emphasis on astronomy and its historical relationship to mathematics is new and the presentation of every topic is informed by the most recent scholarship in the field The two volume set was designed as a textbook for the authors acclaimed year long course at the Open University It is in addition to being an innovative and insightful textbook an invaluable resource for students and scholars of the history of mathematics The authors each among the most distinguished mathematical historians in the world have produced over fifty books and earned scholarly and expository prizes from the major mathematical societies of the English speaking world

Psychiatric Power Michel Foucault, 2008-06-24 In Psychiatric Power the fourth volume in the collection of his groundbreaking lectures at the Coll ge de France Michel Foucault addresses and expands upon the ideas in his seminal Madness and Civilization sketching the genealogy of psychiatry and of its characteristic form of power knowledge Madness and Civilization undertook the archeology of the division according to which in Western Society the madman found himself separated from the sane That book ends with the medicalization of madness at the beginning of the nineteenth century Psychiatric Power continues this discourse up to the end of the nineteenth century and the double depsychiatrization of madness now dispersed between the neurologist and the psychoanalyst Presented in a conversational tone Psychiatric Power brings fresh access and light to the work of one of the past century s preeminent thinkers

Galen: Works on Human Nature: Volume 1, Mixtures (De Temperamentis) , 2019-01-10 Mixtures is of central importance for Galen s views on the human body It presents his influential typology of the human organism according to nine mixtures or temperaments of hot cold dry and wet It also develops Galen s ideal of the well tempered person whose perfect balance ensures excellent performance both physically and psychologically Mixtures teaches the aspiring doctor how to assess the patient s mixture by training one s sense of touch and by a sophisticated use of diagnostic indicators It presents a therapeutic regime based on the interaction between foods drinks drugs and the body s mixture Mixtures is a work of natural philosophy as well as medicine It acknowledges Aristotle s profound influence whilst engaging with Hippocratic ideas on health and nutrition and with Stoic Pneumatist and Peripatetic physics It appears here in a new translation with generous annotation introduction and glossaries elucidating the argument and setting the work in its intellectual context

Science and Technology in World History, Volume 1 David Deming, 2014-01-10 Science is a living organic activity the meaning and understanding of which have evolved incrementally
