Fung,Albert

Moran,2007-02-01 Challenging assumptions that have underpinned critiques of globalisation and combining cultural theory with media industry analysis Keane Fung and Moran give a groundbreaking account of the evolution of television in the post broadcasting era and how programming ideas are creatively redeveloped and franchised in East Asia In this first comprehensive study of television program adaptation across cultures the authors argue that adaptation transfer and recycling of content are multiplying to the point of marginalising other economic and cultural practices They also show that significant re modelling of local TV production practices occur when adaptation is genuinely responsive to local values

Examples of East Asian format adaptations include Survivor Who Wants to be a Millionaire The Weakest Link Coronation Street and Idol Head to Hand Keith Tyson,2002 Representing a selective survey of Keith Tyson s drawings from the past eight years Head to Hand includes both those drawings where the hand of the artist gives formal expression to an already mentally charted idea and those drawings where the hand etches out a conceptual space for the head to move into new territory and unanticipated directions The adventurous and ambitious scope of Tyson s use of drawing to define areas of investigation is evident in this rare artist s book which will be released simultaneously with a major show at the South
