Popkin, 2005-05-09 Though history and autobiography both claim to tell true stories about the past historians have traditionally rejected first person accounts as subjective and therefore unreliable What then asks Jeremy D Popkin in History Historians and Autobiography are we to make of the ever increasing number of professional historians who are publishing stories of their own lives And how is this recent development changing the nature of history writing the historical profession and the genre of autobiography Drawing on the theoretical work of contemporary critics of autobiography and the philosophy of Paul Ricoeur Popkin reads the autobiographical classics of Edward Gibbon and Henry Adams and the memoirs of contemporary historians such as Emmanuel Le Roy Ladurie Peter Gay Jill Ker Conway and many others he reveals the contributions historians life stories make to our understanding of the human experience Historians autobiographies he shows reveal how scholars arrive at their vocations the difficulties of writing about modern professional life and the ways in which personal stories can add to our understanding of historical events such as war political movements and the traumas of the Holocaust An engrossing overview of the way historians view themselves and their profession this work will be of interest to readers concerned with the ways in which we understand the past as well as anyone interested in the art of life writing

Richardson, Ralph E. Luker, 2014-06-11 The fiftieth anniversary of many major milestones in what is commonly called the African American Civil Rights Movement was celebrated in 2013 Fifty years removed from the Birmingham campaign the assassination of Medgar Evers and the March on Washington and it is clear that the sacrifices borne by those generations in that decade were not in vain Monuments museums and exhibitions across the world honor the men and women of the Movement and testify to their immeasurable role in redefining the United States The second edition of *Historical Dictionary of the Civil Rights Movement* is a guide to the history of the African American struggle for equal rights in the United States The history of this period is covered in a detailed chronology an introductory essay and an extensive bibliography The dictionary section has over 500 cross referenced entries on important personalities significant legal cases local struggles forgotten heroes and prominent women in the Movement This book is an excellent access point for students researchers and anyone wanting to know more about the Civil Rights Movement      **Who Owns History?** Eric Foner, 2003-04-16 A thought provoking new book from one of America's finest historians *History* wrote James Baldwin does not refer merely or even principally to the past On the contrary the great force of history comes from the fact that we carry it within us are unconsciously controlled by it in many ways and history is literally present in all that we do Rarely has Baldwin's insight been more forcefully confirmed than during the past few decades *History* has become a matter of public controversy as Americans clash over such things as museum presentations the flying of the Confederate flag or reparations for slavery So whose history is being written Who owns it In *Who Owns History* Eric Foner proposes his answer to these and other questions about the historian's relationship to the world of the past and future He reconsiders his own earlier ideas and those of the pathbreaking Richard Hofstadter He also examines international changes during the past two decades globalization the collapse of the Soviet Union the end of apartheid in South Africa and their effects on historical consciousness He concludes with considerations of the enduring but often misunderstood legacies of slavery the Civil War and Reconstruction This is a provocative even controversial study of the reasons we care about history or should      **The Lost Promise** Ellen Schrecker, 2021-12-17 Ellen Schrecker shows how

universities shaped the 1960s and how the 1960s shaped them Teach ins and walkouts in institutions large and small across both the country and the political spectrum were only the first actions that came to redefine universities as hotbeds of unrest for some and handmaidens of oppression for others The tensions among speech education and institutional funding came into focus as never before and the reverberations remain palpable today **The White Man's World** Bill Schwarz,2011-10-27 The White Man s World explores ideas of the white man during the last 100 years of the British Empire Working back from Enoch Powell s Rivers of Blood speech of 1968 it discusses the racial assumptions that accompanied the founding of colonial Australia South Africa and Rhodesia colonies which were popularly known as white men s countries **Serendipity** Brij V. Lal,Doug Munro,2024-02-29 The second generation of Pacific historians who began their careers in the 1970s and 1980s is gradually fading from the academic scene They have made fundamental contributions to the field of Pacific history enduring in their impact and the identity of the discipline is now firmly established This volume is not so much about their individual research but rather their improbable journeys into Pacific history why and how they came to it in the first place Almost without exception they did not choose Pacific history but rather stumbled into the field through serendipity They came from forays into African Indian East Asian French British imperial and other fields and were enticed into Pacific history through chance or the efforts of kindly mentors All this is evident in the values and understandings they bring to the subject The one commonality that binds them is a love of the islands that have been the center of their lifetime work Many distinguished Pacific historians of the last four to five decades are represented in this collection Serendipity presents fourteen autobiographical chapters in which the contributors trace their paths as Pacific historians They offer their sources of inspiration supporters and publications that shaped them as historians With a significant focus on the importance of teaching and mentoring that they both received and provided their writing not only illuminates their lives but the state of Pacific history as an academic field The experiences of the contributors are moving replete with sorrows and regrets as well as of achievements and satisfactions Part of these careers were spent working in areas other than scholarship such as high school teaching consultancies volunteering teaching English as a second language or doing menial jobs just to keep going Serendipity is a pathbreaking form of historiography and essential to the Pacific history field *Transformations in Africana Studies* Adebayo Oyeade,2023-02-07 This book introduces readers to the rich discipline of Africana Studies reflecting on how it has developed over the last fifty years as an intellectual enterprise for knowledge production about Africa and the African diaspora The African world has always had a wealth of indigenous knowledge systems but for the greater part of the scholarly history hegemonic Western epistemologies have denied the authenticity of African indigenous ways of knowing The post colonial era has seen steady and deliberate efforts to expand the frontiers of knowledge about black people and their societies and to Africanize such bodies of knowledge in all fields of human endeavor This book reflects on how the multidisciplinary discipline of Africana Studies has transformed and reinvented itself as it has sought to advance knowledge

about the African world The contributors consider the foundations of the discipline its key theories and methods of knowledge production and how it interacts with popular culture Women s Studies and other area studies such as Ethnic and Afro Latinx Studies Bringing together rich insights from across history religion literature art sociology and philosophy this book will be an important read for students and researchers of Africa and Africana Studies *Civic Labors* Dennis A. Deslippe, Eric Fure-Slocum, John W. McKerley, 2016-10-17 Labor studies scholars and working class historians have long worked at the crossroads of academia and activism The essays in this collection examine the challenges and opportunities for engaged scholarship in the United States and abroad A diverse roster of contributors discuss how participation in current labor and social struggles guides their campus and community organizing public history initiatives teaching mentoring and other activities They also explore the role of research and scholarship in social change while acknowledging that intellectual labor complements but never replaces collective action and movement building Contributors Kristen Anderson Daniel E Atkinson James R Barrett Susan Roth Breitzer Susan Chandler Sam Davies Dennis Deslippe Eric Fure Slocum Colin Gordon Michael Innis Jim nez Stephanie Luce Joseph A McCartin John W McKerley Matthew M Mettler Stephen Meyer David Montgomery Kim E Nielsen Peter Rachleff Ralph Scharnau Jennifer Sherer Shelton Stromquist Emily E LB Twarog and John Williams Searle **Shapers of Southern History** John B. Boles, 2004 This volume gathers personal recollections by fifteen eminent historians of the American South Coming from distinctive backgrounds traveling diverse career paths and practicing different kinds of history the contributors exemplify the field s richness on many levels As they reflect on why they joined the profession and chose their particular research specialties these historians write eloquently of family and upbringing teachers and mentors defining events and serendipitous opportunities The struggle for civil rights was the defining experience for several contributors Peter H Wood remembers how black fans of the St Louis Cardinals erupted in applause for the Dodgers Jackie Robinson I realized for the first time writes Wood that there must be something even bigger than hometown loyalties dividing Americans Gender equality is another frequent concern in the essays Anne Firor Scott tells of her advisor s ridicule when childbirth twice delayed Scott s dissertation With great effort I managed to write two chapters but Professor Handlin was moved to inquire whether I planned to have a baby every chapter Yet another prominent theme is the reconciliation of the professional and the personal as when Bill C Malone traces his scholarly interests back to the memories of growing up poor on an East Texas cotton farm and finding escape and diversion in the sounds of hillbilly music Always candid and often witty each essay is a road map through the intellectual terrain of southern history as practiced during the last half of the twentieth century *The History and Poetics of Scientific Biography* Thomas Söderqvist, 2016-03-03 Biographies of scientists carry an increasingly prominent role in today s publishing climate Traditional historical and sociological accounts of science are complemented by narratives that emphasize the importance of the scientific subject in the production of science Not least is the realization that the role of science in culture is much more accessible when presented through the

lives of its practitioners Taken as a genre such biographies play an important role in the public understanding of science In recent years there has been an increasing number of monographs and collections about biography in general and literary biography in particular However biographies of scientists engineers and medical doctors have rarely been the topic of scholarly inquiry As such this volume of essays will be welcomed by those interested in the genre of science biography and who wish to re examine its history foundational problems and theoretical implications Borrowing approaches and methods from cultural studies and the history philosophy and sociology of science the contributions cover a broad range of subjects periods and locations By presenting such a rich diversity of essays the volume is able to chart the reoccurring conceptual problems and devices that have influenced scientific biographies from classical antiquity to the present day In so doing it provides a compelling overview of the history of the genre suggesting that the different valuations given scientific biography over time have been largely fuelled by vested professional interests

**Why France?** Laura Lee Downs, Stephane Gerson, 2011-11-11 France has long attracted the attention of many of America s most accomplished historians The field of French history has been vastly influential in American thought both within the academy and beyond regardless of France s standing among U S political and cultural elites Even though other countries from Britain to China may have had a greater impact on American history none has exerted quite the same hold on the American historical imagination particularly in the post 1945 era To gain a fresh perspective on this passionate relationship Laura Lee Downs and St phane Gerson commissioned a diverse array of historians to write autobiographical essays in which they explore their intellectual political and personal engagements with France and its past In addition to the essays Why France includes a lengthy introduction by the editors and an afterword by one of France s most distinguished historians Roger Chartier Taken together these essays provide a rich and thought provoking portrait of France the Franco American relationship and a half century of American intellectual life viewed through the lens of the best scholarship on France
