The Church of Scientology is one of the most recognizable American born new religions but perhaps the least understood. With academic and popular interest on the rise, many books have been written about Scientology and surely more will follow. Although academics have begun to pay more attention to Scientology, the subject has received remarkably little qualitative attention. Indeed, no work has systematically addressed such questions as: what do Scientologists themselves have to say about their religion's history, theology, and practices? How does Scientology act as a religion for them? What does lived religion look like for a Scientologist? This is not so much a book about the Church of Scientology, its leaders, or its controversies, as it is a compilation of narratives and histories based on the largely unheard or ignored perspectives of Scientologists themselves. Drawing on six years of interviews, fieldwork, and research conducted among members of the Church of Scientology, this groundbreaking work examines features of the new religion's history, theology, and praxis in ways that move discussion beyond apostate-driven and expos accounts.

Handbook of Scientology James R. Lewis, 2017-01-05

The Handbook of Scientology brings together a collection of fresh studies of the most persistently controversial of all contemporary New Religions. In recent years, increasing scholarly attention has been directed at the Church of Scientology, resulting in a small tsunami of new scholarship. We have finally reached a point in time where a book on Scientology need not restrict itself to basics. Thus, for example, the historical chapters in the present volume are not really aimed at providing elementary facts on Scientology's background, but rather focus on understanding how the Church of Scientology developed over the years. In short, the Handbook of Scientology will provide a wealth of new information on a topic that one might otherwise have thought exhausted. Contributors are: Matthew Charet, Dorthe Refslund Christensen, Carole M. Cusack, Bernard Doherty, Marco Frenschkowski, Liselotte Frisk, Kjersti Helles y Don Jolly, James R. Lewis, Renee Lockwood, Andr s M t T th G bor D niel Nagy, Johanna Petsche, Erin Prophet, Susan Raine, David G. Robertson, Mikael Rothstein, Lisbeth Tuxin, Rubin Nicole S. Ruskell, Shannon Trospen, Schorey Michelle Swainson, Inga B rdsen, T llefsen, Hugh G. Urban, Donald A. Westbrook, and Benjamin Zeller.

Scientology James R. Lewis, 2009-03-11

Scientology is arguably the most persistently controversial of all contemporary New Religious Movements. James R. Lewis has assembled an unusually comprehensive anthology incorporating a wide range of different approaches. In this book, a group of well-known scholars of New Religious Movements offers an extensive and evenhanded overview and analysis of all of these aspects of Scientology, including the controversies to which it continues to give rise.

Free Zone Scientology Aled Thomas, 2021-04-08

In this novel academic study, Aled Thomas analyses modern issues surrounding boundaries and fluidity in

contemporary Scientology By using the Scientologist practice of auditing as a case study this book explores the ways in which new types of Scientologies can emerge The notion of Free Zone Scientology is characterised by its horizontal structure in contrast to the vertical hierarchy of the institutional Church of Scientology With this in mind Thomas explores the Free Zone as an example of a developing and fluid religion directly addressing questions concerning authority leadership and material objects This book by maintaining a double focus on the top down hierarchy of the Church of Scientology and the horizontal fluid nature of the Free Zone breaks away from previous research on new religions which have tended to focus either on new religions as indices of broad social processes such as secularization or globalization or as exemplars of exotic processes such as charismatic authority and brainwashing Instead Thomas adopts auditing as a method of providing an in depth case study of a new religion in transition and transformation in the 21st century This opens the study of contemporary and new religions to a series of new questions around hybrid religions sacred and secular and acts as a framework for the study of similar movements formed in recent decades Beyond Heaven and Earth Steven H Propp,2003-11-17 Have you ever wondered what happens to us when we die What if you really HAD to know When tragedy strikes the family of young Jobran Winter he is forced to confront these questions directly Undertaking a feverish Quest he explores various branches of Christianity Judaism Islam Hinduism Buddhism Sikhism as well as the religions of China and Japan His search encompasses the New Age Reincarnation Spiritism and Psychical Research Attending channeling sessions and sances investigating haunted houses and Near Death Experiences he examines spiritual traditions ranging from Swedenborg to Scientology from Jodo Shinshu to the Jehovah s Witnesses Finally the Quest brings him into direct contact with Hospice work physical disability child abandonment abortion suicide euthanasia and even cold blooded murder Encounter the doctrines of Purgatory Predestination Universalism Annihilationism as you journey in a novel that will make you reexamine your ideas about religion skepticism love death and LIFE **After the New Age** Steven H.
