Objectives:

- Define literature.
- Categorize five main literature genres.
- Recognize different elements of poetry.
- Determine different types of prose.

Lesson 1: What is Literature?

Literature, in its broadest sense, is any written work. Etymologically, the term derives from Latin *litteratura/litteratura* "writing formed with letters," although some definitions include spoken or sung texts. More restrictively, it is writing that possesses literary merit. Literature can be classified according to whether it is fiction or non-fiction and whether it is poetry or prose. It can be further distinguished according to major forms such as the novel, short story or drama, and works are often categorized according to historical periods or their adherence to certain aesthetic features or expectations (genre).
