Includes INDEX BIBLIOGRAPHY **Introduction to Parapsychology** William Flexner,2004 **Parapsychology** Jane Henry,2005 Beginning with an introduction to the methodology this book provides the reader with a sympathetic yet critical overview of current research into unexplained phenomena including visions telepathy psychokinesis and out of body experiences *A Brief Introduction to Parapsychology* Joseph Banks Rhine,1984 *The Elements of Parapsychology* K. Ramakrishna Rao,2017-10-12 Psychic phenomena recorded throughout human history remained a mystery or a matter of faith rather than a subject of serious study until scientists began to investigate them roughly a century and a half ago Systematic experimentation began with the work of J B Rhine at Duke University resulting in the publication of Extra Sensory Perception 1934 followed by Extra Sensory Perception After Sixty Years 1940 Rhine and researchers who came after him struggled to present sufficient evidence to gain scientific credibility for the existence of extrasensory abilities Yet despite tight experimental controls and numerous significant results the subject remains controversial Parapsychologists argue that the impasse is not due to a lack of evidence but to the challenge their claims pose to the worldview of science in general This comprehensive overview of the discipline of parapsychology written by one of its most notable investigators offers the reader a full understanding of both its concepts theories and methods and its controversies problems and prospects *The Encyclopedia of Parapsychology* Courtney M. Block,2022-09-14 Superbly organized and researched this book by Block provides a comprehensive presentation about parapsychology Library Journal Starred Review The Encyclopedia of Parapsychology covers the history of parapsychology key international figures and a decade by decade annotated bibliography of research It includes find information on early psychical researchers from around the globe and how the work of those psychical researchers inspired the creation of the modern field of parapsychology Alongside biographical entries about key figures are sketches of those at the center of psychical inquiry like mediums and others who seemingly have the ability to manifest strange phenomena The Encyclopedia covers the Spiritualism era which influenced early psychical inquiry and how it influenced psychical thought around the globe More contemporary coverage includes biographical entries for current international researchers who continue to investigate the depths of psi phenomena In order to provide comprehensive coverage of historical and modern research into psi phenomena the Encyclopedia features a decade by decade bibliography of resources that highlight the shifting theories and experiments of the field starting from the 1870s and going through the 2020s This section includes a wide variety of research into topics such as psychokinesis hauntings poltergeists also known as recurrent spontaneous psychokinesis near death experiences extrasensory perception remote viewing and much more Appendices provide information on international parapsychological research organizations and a quick start research guide With information on key figures and research on an international scale The Encyclopedia of Parapsychology provides an approachable yet comprehensive compendium of information **Parapsychology** Caroline Watt,2016-04-14 From premonitions to apparitions spoon bending to mind reading the paranormal has bemused and

mystified humans for millennia In this Beginner s Guide renowned author and scientist Dr Caroline Watt explores the evidence behind such phenomena In the last one hundred years parapsychologists have tried to determine whether it is possible to examine paranormal activity using scientific methods Packed full of interesting characters surprising incidents and novel experiments this book takes the reader on a journey through this fascinating research Parapsychology A Beginner s Guide traces the history and evolution of parapsychology as a science and provides a thorough and critical analysis of the research and evidence in the field today

Spiritual Being and Becoming Eric J Kyle,2017-05-25 As many as 100 billion neurons make up the human nervous system a system that is incredibly complex and a fundamental part of what makes us who we are But there is far more to human beings than biology Many academic disciplines study the human condition and there are many schools of thought within that study We must also appreciate that the study of human nature did not begin in contemporary times History is full of texts that offer detailed explorations of the human condition However no consensus has yet emerged Consensus or not those working towards religious and spiritual formation pursue the transformation of their communities This book offers a fuller understanding of some of the common views of human nature and also insights into how we might utilise this knowledge in our ministries ministries that strive towards the spiritual being and becoming of our world

An Introduction to Parapsychology Kevin Brewer,2001-01-01 Anomalous Experiences Matthew D. Smith,2014-01-10 Thirteen essays on the psychology and parapsychology of anomalous experience explore a range of phenomena including extrasensory perception haunting experiences apparitions alien contacts seance room activity and out of body experiences The contributors are Daryl J Bem Etzel Cardena Jezz Fox Rachel Fox Christopher C French Victoria Hamilton Craig D Murray Ciaran O Keefe Steve Parsons Chris A Roe Julia Santomauro Simon J Sherwood Christine Simmonds Moore Paul Stevens Michael Thalbourne Caroline Watt Richard Wiseman and Robin Wooffitt

Parapsychology Etzel Cardena,John Palmer,David Marcusson-Clavertz,2015-08-14 Many people have experienced such unusual phenomena as dreams that later seem to correspond with unforeseeable events thinking of a long lost friend just before he or she unexpectedly calls or the ability to feel the presence of deceased loved ones What many do not realize is that these types of experiences have been researched for more than a century by eminent scientists including Nobel laureates Most of these researchers have concluded that some of these phenomena do occur although we are far from explaining them to everyone s satisfaction This book is the first in almost 40 years to provide a comprehensive scientific overview of research in the field of parapsychology explaining what we know and don t know about so called psi phenomena such as telepathy precognition or psychokinesis Contributors evaluate the evidence for these phenomena accounting for factors such as selective memory wish fulfillment and incorrect methods or analyses in some cases offering psychological physical and biological theories
