

INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM

Justice— is a social norm providing guidance for people in their dealings with one another; as a standard against which actions are evaluated; and as a prescription for the requirement that people act justly.

Schools of Thoughts about Justice:

- **Positive Law Theory**
 - ✓ Justice is a creature of law made by men. No justice exists apart from what law creates or mandates, there is no independent or abstract standard against which the actions of people or man-made law itself can be judged.
- **Social Good Theory**
 - ✓ Justice is more than what one finds in positive law, that there are standards or concepts of what is in the best interests of society, and that man-made laws can be judged against these standards or concepts and found lacking.
- **Natural Right Theory**
 - ✓ Justice can be summarized by this rule "Render to each his right or due". Those who hold that individuals have natural rights that precede and are superior to the interests of society or the state, and those who hold that human beings mean nothing apart from their social and political role in organized society.

Substantive Justice vs. Procedural Justice

- **Substantive Justice**
 - ✓ In the area of criminal justice, the substantive issues concern which behaviors are to be made criminal violations and what sanctions the law should provide for dealing with those who commit crimes.
- **Procedural Justice**
 - ✓ In criminal justice, the term refers to how offenders are brought before the bar justice and the procedures used in gathering and presenting evidence, determining the guilt or innocence of the accused, and deciding on the sentence to be imposed on those convicted.

LAW - It is a society's primary instrument for making known what acts are crimes and what sanctions may be applied to those who commit acts defined as crimes.

- **Forms of Law:**
 - ✓ **Common Law** — known in other countries as the body of principles, practices, usages, and rules of action.
 - ✓ **Statutory Law** — a legislated law; or made by legislatures.
 - ✓ **Case Law** — law made by justices in cases decided in the appellate courts, especially by the Supreme Court.
- **Types of Law:**
 - ✓ **Civil Law** — a law that has something to do with such things as contracts, wills, inheritances, marriage, property, divorce, adoption, and the like, and with private injuries which are called "torts".
