Hodgson, Thorbjørn Knudsen, 2010-12-15 Of paramount importance to the natural sciences the principles of Darwinism which involve variation inheritance and selection are increasingly of interest to social scientists as well But no one has provided a truly rigorous account of how the principles apply to the evolution of human society until now In Darwin's Conjecture Geoffrey Hodgson and Thorbjørn Knudsen reveal how the British naturalist's core concepts apply to a wide range of phenomena including business practices legal systems technology and even science itself They also critique some prominent objections to applying Darwin to social science arguing that ultimately Darwinism functions as a general theoretical framework for stimulating further inquiry Social scientists who adopt a Darwinian approach they contend can then use it to frame and help develop new explanatory theories and predictive models This truly pathbreaking work at long last makes the powerful conceptual tools of Darwin available to the social sciences and will be welcomed by scholars and students from a range of disciplines *Charles S. Peirce, Selected Writings* Charles S. Peirce, 2012-08-28 Science material idealism pragmatism history of scientific thought With Buchler's book best way to approach notoriously cryptic philosopher Features 24 selections including The Place of Our Age in the History of Civilization Wilhelm Dilthey: Selected Works, Volume VI Wilhelm Dilthey, 2019-11-12 This book completes a landmark six volume translation of the major writings of Wilhelm Dilthey 1833-1911 a philosopher and historian of culture who continues to have a significant influence on philosophy hermeneutics and the theory of the human sciences These volumes make available to English readers texts that represent the full range of Dilthey's work The works in this volume present Dilthey's

most deeply held views about philosophy and how it can guide human practices System of Ethics 1890 argues that Humean sympathy motivates us only externally and must be replaced with the internally motivated fellow feeling of solidarity that respects others as ends in themselves The Essence of Philosophy 1907 demonstrates how philosophy has developed from its traditional metaphysical role to the epistemological and encyclopedic functions that ground and order the natural and human sciences The work also discloses an orientational function of philosophy that is explored further in The Types of World View and Their Development 1911 Philosophical world views are important in that they address the existential needs and riddles that grow out of life experience and are not solved by any of the sciences In addition the book features three other significant essays Present Day Culture and Philosophy 1898 concerns the challenges to philosophy posed by contemporary culture Dream 1903 is about the thinkers portrayed in Raphael s School of Athens and Dilthey s worries about them breaking up into three divergent groups Finally The Problem of Religion 1911 considers how religiosity can still inform lived experience in secular times
