Exchanges Life After Dance:

Ballet Dancers in Career Transition Nancy Upper, 2015-10-03 A professional dancer's career like a professional athlete's lasts an average of 10 to 15 years. Once the prime years of physical prowess have passed, retirement is inevitable, but dancers still have many years of adult life ahead. The challenge for many is making the transition into a new career. Motivated by her own career transition, author Nancy Upper interviewed former ballet dancers who made successful transitions into new careers after they stopped performing. Part 1 of the book features dancers who remained in ballet-related careers. Part 2 features four individuals who chose careers outside the field of dance. Part 3 focuses on dancers who pursued non-dance careers that help dancers and other performing artists. Appendices include the marketable qualities dancers develop as a result of their training, career transition tips, transition resources, and a graph mapping the transition process. **Ballet**

Class Melissa R. Klapper, 2020 A pathbreaking social history that takes seriously the experiences of the countless everyday people who pursued recreational ballet. *Ballet Class: An American History* explores the growth of this now quintessential extracurricular activity as it became an integral part of American childhood across borders of gender, class, race, and sexuality.

Dancing Female Sharon E. Friedler, Susan B. Glazer, 2014-04-08 How do women set up institutions? How has higher education helped or hindered women in the world of dance? These are some of the questions addressed through interviews and researched by the educators and dancers Sharon E. Friedler and Susan B. Glazer in *Dancing Female*. In dealing with some of the tensions, joys, frustrations, and fears women experience at various points of their creative lives, the contributors strike a balance between a theoretical sense of feminism and its practice in reality. This book presents answers to basic questions about women, power, and action. Why do women choreographers choose to create the dances they do in the manner they do? How do women in dance work independently and organizationally? *Fit for Life* United States. Congress. House. Select Committee on Aging. Subcommittee on Human Services, 1992. *Ballerina* Deirdre Kelly, 2012 Throughout her history, the ballerina has been perceived as the embodiment of beauty and perfection, the feminine ideal. But the reality is another story. From the earliest ballerinas in the 17th century, who often led double lives as concubines, through the poverty of the corps de ballet dancers in the 1800s and the anorexic and bulimic ballerinas of George Balanchine, starvation and exploitation have plagued ballerinas throughout history. Using the stories of great dancers such as Anna Pavlova, Isadora Duncan, Suzanne Farrell, Gelsey Kirkland, Evelyn Hart, Marie Camargo, and Misty Copeland, Deirdre Kelly exposes the true rigors for women in ballet. She rounds her critique with examples of how the world of ballet is slowly evolving for the better. But to ensure that this most graceful of dance forms survives into the future, she says that the time has come to rethink ballet to position the ballerina at its center and accord her the respect she deserves. *Who's Who of Canadian Women, 1999-2000* Gillian Holmes, 1999-06-01 *Who's Who of Canadian Women* is a guide to the most powerful and innovative women in Canada. Ancestral Presence Eric Hirsch, 2020-12-28 *Ancestral Presence* tells a history that has more than one history in it while also telling the story of the relation between worlds For the Fuyuge people of the Papuan highlands the past is not history in a conventional sense For them the world and its history derive from a creator force called Tidibe which is central to Fuyuge cosmology the Fuyuge are at the centre of the world But Fuyuge people are part of another history too they have experienced decades of mission and government influence from centres of power located elsewhere to which their mountain home is marginal and remote Through a detailed exploration of Fuyuge myth changes to ritual life and cosmology Eric Hirsch weaves an account of the relationship between these two histories He documents the real changes wrought by colonialism government and Christianity from the late nineteenth century to the turn of the millennium Yet this is not a story of continuity and change Hirsch demonstrates how transformation was always central to Fuyuge life changes brought by missionaries and government were processes they themselves initiated in the ancestral past through Tidibe the cosmological creator force Engaging in debates that have been pivotal to Melanesian anthropology the book presents an ethnographically rich account of a distinctive world cosmology and ideas of historical change It also raises questions regarding assumptions central to Western History its worldview and ideas of historical time

Touring Performance and Global Exchange 1850-1960 Gilli Bush-Bailey, Kate Flaherty, 2021-12-30 This collection uncovers connections and coincidences that challenge the old stories of pioneering performers who crossed the Atlantic and Pacific oceans from the mid nineteenth to the mid twentieth century It investigates songlines drama opera music theatre dance and circus removing traditional boundaries that separate studies of performance and celebrating difference and transformation in style intention and delivery Well known or obscure travelling performers faced dangers at sea and hazardous journeys across land Their tracks made in pursuit of fortune and fame intersected with those made by earlier storytellers in search for food *Touring Performance and Global Exchange* takes a fresh look at such tracks the material remains demonstrating that moving performance does far more than transfer repertoires and people it transforms them Touring performance has too often been conceived in diasporic terms as a fixed product radiating out from a cultural centre This collection maps different patterns ones that comprise reversed flows cross currents and continually proliferating centres of meaning in complex networks of global exchange This collection will be of great interest to scholars and students in theatre music drama studies and cultural history
