

# Family Therapy Activities

Explore the most well-known and effective family therapy techniques and a few family therapy activities.

## + Genogram

An initial assessment is likely to include a genogram or family tree to help the family understand how they came to their present situation. It may include divorces, stepchildren, and deaths.

## + Structural Map

Structural maps demonstrate the dynamics between family members and focus on the boundaries and hierarchies within a family to help family members see how they relate to each other.

These are the

**1. Genogram**  
After assessing family relationships patterns, a genogram may be used to help family members understand their family structure and how it may have changed over time. It may include divorces, stepchildren, and deaths.

**2. Structural Map**  
Structural maps demonstrate the dynamics between family members and focus on the boundaries and hierarchies within a family to help family members see how they relate to each other.

**3. Family Sculpting**  
Family members arrange themselves in a room to represent their relationships with each other. This activity helps family members see how they relate to each other and how they may change over time.

**4. Family Sculpting**  
Family members arrange themselves in a room to represent their relationships with each other. This activity helps family members see how they relate to each other and how they may change over time.

**5. Family Sculpting**  
Family members arrange themselves in a room to represent their relationships with each other. This activity helps family members see how they relate to each other and how they may change over time.

**6. Family Sculpting**  
Family members arrange themselves in a room to represent their relationships with each other. This activity helps family members see how they relate to each other and how they may change over time.
