Intergroup Cognition And Intergroup Behavior:

Intergroup Cognition and Intergroup Behavior Constantine Sedikides, John Schopler, Chester A. Insko, 1998 Focusing on the interplay between cognition and behaviour in intergroup settings the contributors to this text address how intergroup cognition perceptions judgements and memories influences behaviour favouritism and discrimination and subsequently behaviour changes cognition
Cognitive Processes in Stereotyping and Intergroup Behavior David L. Hamilton, 2015-08-11 Originally published in 1981 this volume brings together contributions by several of the authors whose research had contributed significantly to the recent advances in our understanding of the role of cognitive processes in stereotyping and intergroup behaviour at the time While each chapter reflects a cognitive approach to its subject matter a broad range of topics issues and contexts is addressed by this collection of authors In the introductory chapter the authors present an historical overview of psychological research on stereotyping discussing historical trends in this literature and summarizing the conceptual orientations which had guided research in this area at the time This chapter not only provides useful background information for the reader but also presents a broader context within which the current cognitively oriented research on which the remaining chapters focus can be viewed Each of the next six chapters reports on integrative program of studies bearing on some aspect of the relationship of cognitive functioning to stereotyping and or intergroup behaviour

Social Identity Stephen Worchel, J Francisco Morales, Darío Páez, Jean-Claude Deschamps, 1998-03-30 Social identity and social categorization theories have offered some of the most exciting developments in social psychology informing work on everything from intergroup relations to personal identity This comprehensive book surveys the latest empirical and theoretical findings alongside original contributions to provide an invaluable overview of this important field The internationally renowned contributors explore a broad range of psychosocial phenomena including intergroup discrimination influence group polarization collective behaviour impact of minorities prejudice stereotypes and leadership Multiple Social Categorization Richard J. Crisp, Miles Hewstone, 2007-01-24 Ethnic cleansing institutional racism and social exclusion are just some of the terms used to describe one of the most pressing social issues facing today s societies prejudice and intergroup discrimination Invariably these pervasive social problems can be traced back to differences in religion ethnicity or countless other bases of group membership the social categories to which people belong Social categorization how we classify ourselves and others exerts a profound influence on our thoughts beliefs feelings and behaviors In this volume Richard Crisp and Miles Hewstone bring together a selection of leading figures in the social sciences to focus on a rapidly

emerging but critically important new question how when and why do people classify others along multiple dimensions of social categorization The volume also explores what this means for social behavior and what implications multiple and complex perceptions of category membership might have for reducing prejudice discrimination and social exclusion Topics covered include the cognitive motivational and affective implications of multiple categorization the crossed categorization and common ingroup methods of reducing prejudice and intergroup discrimination the nature of social categorization among multicultural multiethnic and multilingual individuals Multiple Social Categorization Process Models and Applications addresses issues that are central to social psychology and will be of particular interest to those studying or researching in the fields of Group Processes and Intergroup Relations **The Psychology of Stereotyping** David J. Schneider, 2005-04-07 The first comprehensive treatment of stereotypes and stereotyping this text synthesizes a vast body of social and cognitive research that has emerged over the past quarter century Provided is an unusually broad analysis of stereotypes as products both of individual cognitive activities and of social and cultural forces While devoting careful attention to harmful aspects of stereotypes their connections to prejudice and discrimination and effective strategies for countering them the volume also examines the positive functions of generalizations in helping people navigate a complex world Unique features include four chapters addressing the content of stereotypes which consider such topics as why certain traits are the focus of stereotyping and how they become attributed to particular groups An outstanding text for advanced undergraduate and graduate level courses the volume is highly readable and features many useful examples **Blackwell Handbook of Social Psychology** Michael A. Smith, 2002 The relative deprivation construct has been widely used in the social sciences to explain phenomena from

experiencing psychosomatic stress to participating in urban riots It is currently a valuable tool in research being used especially to understand processes of social identity and responses to disadvantage by both disadvantaged minorities and privileged majorities Originally published in 2001 this book assembles chapters by leading relative deprivation researchers in order to present comprehensive synthesis of knowledge Featuring integrative theoretical and empirical work from social psychology sociology and psychology the book provides a highly detailed reference work It is relevant to researchers in intergroup relations prejudice racism social identity group processes social comparison collective behavior and social movements The book will be of value to anyone with an interest in the topic and its practical application Experimental Social Psychology, 2013-04-05 Advances in Experimental Social Psychology continues to be one of the most sought after and most often cited series in this field Containing contributions of major empirical and theoretical interest this series represents the best and the brightest in new research theory and practice in social psychology This serial is part of the Social Sciences package on ScienceDirect Visit info sciencedirect com for more information Advances Experimental Social Psychology is available online on ScienceDirect full text online of volumes 32 onward Elsevier book series on ScienceDirect gives multiple users throughout an institution simultaneous online access to an important complement to primary research Digital delivery ensures users reliable 24 hour access to the latest peer reviewed content The Elsevier book series are compiled and written by the most highly regarded authors in their fields and are selected from across the globe using Elsevier s extensive researcher network For more information about the Elsevier Book Series on ScienceDirect Program please visit info sciencedirect com bookseries One of the most sought after and most often cited series in this field Contains contributions of major empirical and theoretical interest Represents the best and the brightest in new research theory and Encounters for Change Dagmar Grefe, 2011-11-14 Weaving together insights from social practice in social psychology psychology theology and experiences of interfaith religious leaders Dagmar Grefe develops practical strategies that support interreligious contact at a grassroots level She shows that by working together religious communities can more effectively address global and local problems that all people face poverty environmental destruction and armed conflict Grefe describes interreligious cooperation at work in local communities She develops tools that equip religious leaders with the interreligious competence needed for spiritual care and counseling with individual persons in crisis Cooperation is not only effective in the care for communities and persons in crisis it also heals distant and strained interreligious relationships In the process of working together perceptions of each other can transform The Oxford Handbook of Social and Political Trust Eric M. Uslaner, 2018 This volume explores the foundations of trust and whether social and political trust have common roots Contributions by noted scholars examine how we measure trust the cultural and social psychological roots of trust the foundations of political trust and how trust concerns the law the economy elections international relations corruption and cooperation among myriad societal factors The rich assortment of essays on these themes addresses questions such as How

does national identity shape trust and how does trust form in developing countries and in new democracies Are minority groups less trusting than the dominant group in a society Do immigrants adapt to the trust levels of their host countries Does group interaction build trust Does the welfare state promote trust and in turn does trust lead to greater well being and to better health outcomes The Oxford Handbook of Social and Political Trust considers these and other questions of critical importance for current scholarly investigations of trust The Happy Mind: Cognitive Contributions to Well-Being Michael D. Robinson, Michael Eid, 2017-06-28 This edited volume focuses on different views of happiness and well being considering constructs like meaning and spirituality in addition to the more standard constructs of positive emotion and life satisfaction A premise of the volume is that being happy consists of more than having the right things happen to us it also depends on how we interpret those events as well as what we are trying to achieve Such considerations suggest that cognitive emotional factors should play a fairly pronounced role in how happy we are The present volume pursues these themes in the context of 25 chapters organized into 5 sections. The first section centers on cognitive variables such as attention and executive function in addition to mindfulness The second section considers important sources of positive cognition such as savoring and optimism and the third section focuses on self regulatory contributions to well being Finally social processes are covered in a fourth section and meaning related processes are covered in the fifth What results is a rich and diverse volume centering on the ways in which our minds can help or hinder our aspirations for happiness **Social Groups in Action and Interaction** Charles Stangor, 2015-10-16 Social Groups in Action and Interaction reviews and analyzes the human group as it operates to create both social good and potentially social harm It summarizes current knowledge and contemporary research with real world examples in succinct yet engaging chapters to help students understand and predict group behavior Unlike other texts the book considers a wide range of topics such as conformity leadership task performance social identity prejudice and discrimination from both an intragroup and an intergroup perspective By looking at behavior both within and between groups it bridges the gap between these interconnected approaches The second edition is thoroughly updated to include new discussion of the biology and neuroscience of group formation recent developments in social identity theory and recent advances in the study of social networks It also includes questions for review and discussion in the classroom It provides the most comprehensive and essential resource for courses on group dynamics and behavior **Psychology** Michael W. Eysenck, 2004 Unlike typical American texts this book provides an international approach to introductory psychology providing comprehensive and lively coverage of current research from a global perspective including the UK Germany Scandinavia Holland Australia and Canada as well as the USA Social Metacognition Pablo Briñol, Kenneth G. DeMarree, 2012 Metacognition refers to thinking about our own thinking It has assumed a prominent role in social judgment because our thoughts about our thoughts can magnify attenuate or even reverse the impact of primary cognition Metacognitive thoughts can also produce changes in thought feeling and behavior and thus are critical for a complete

understanding of human social behavior This volume presents and discusses the latest research into metacognition Specifically the chapters are organized into four substantive content areas Attitudes and Decision Making Self and Identity Experiential and Interpersonal Each chapter is written by an expert in the field and presents a state of the art view of the many ways in which metacognition has been examined by social psychologists
