*Education and Technology* David W. Kritt, Lucien T. Winegar, 2007-12-05 There are numerous publications about education and technology What is missing is a balanced appraisal of the values and cognitive skills technology promotes and those it devalues This is important for education because the way we teach influences how children think and it is of more general importance for the evolution of society If we wait until these issue are definitively resolved and have noticeable societal effects it will inevitably be too late Hence the need for informed debate now **African Drama and Performance**

**Contending with Globalization in World Englishes** Mukul Saxena, Tope Omoniyi, 2010-05-28 This book engages with English in globalization re-examining and re-interpreting the contemporary contexts of its acquisition and use. The chapters contained in this book weave together four inter-related themes that define the role of English in the global context: the centrality of structure, relationships of interdependence, social constructions of difference and reproduction of inequality. These themes enable the authors to draw attention to the dynamics of the contemporary realities of the English-speaking and English-using nations especially as they compete for cultural, social, economic and symbolic capital in global networks. In engaging World Englishes with the sociolinguistics of globalization, the authors raise some fundamental questions about the status, structure and functions of World Englishes.

**The Yoruba** Akinwumi Ogundiran, 2020-11-03 The Yoruba A New History is the first transdisciplinary study of the two thousand year journey of the Yoruba people from their origins in a small corner of the Niger Benue Confluence in present day Nigeria to becoming one of the most populous cultural groups on the African continent. Weaving together archaeology with linguistics, environmental science with oral traditions and material culture with mythology, Ogundiran examines the local, regional and even global dimensions of Yoruba history. The Yoruba A New History offers an intriguing cultural, political, economic, intellectual and social history from ca 300 BC to 1840. It accounts for the events, peoples and practices as well as the theories of knowledge, ways of being and social valuations that shaped the Yoruba experience at different junctures of time. The result is a new framework for understanding the Yoruba past and present.

*Nigerian Languages, Literatures, Culture and Reforms* Ndimele, Ozo-mekuri, 2016-04-30 The papers in this volume were selected from the Silver Jubilee edition of the Annual Conference of the Linguistic Association of Nigerian LAN which was held at the Nigerian Educational Research and Development Council NERDC Abuja, Nigeria. The Silver Jubilee edition is dedicated to the father of Nigerian Linguistics, Professor Emeritus Ayo Bamgbose. Professor Emeritus Bamgbose was the first indigenous Professor of Linguistics in Nigeria and the first black African to teach linguistics in any known university south of the Sahara. He was there from the very beginning and together with co-operation of people such as the late Professor Kay Williamson, he nurtured Nigerian linguistics. He is not just a foremost Nigerian linguist but also a most famous, respected, celebrated, distinguished and cherished African linguist of all times. To be candid, Nigerian linguistics is synonymous with Professor Emeritus Bamgbose. In 58 well-written chapters by experts in their fields, the book covers aspects of Nigerian languages, linguistics, literatures and culture. The papers have not been categorized into sections; rather, they flow, hence there is some overlapping in the arrangement. The book is an essential resource for all who are interested to learn about current trends in the study of languages, linguistics and related subject matters in Nigeria.
