of hermeneutics and religion in post foundational and cross cultural perspective Toward this end Paul Chung offers a constructive theology of divine speech acts in a manner more amenable to the social public sphere than other proposals In all of this he deeply considers intercultural horizon of interpretation between West and East and its implications for a theology of interpretation The result is a truly theological theory of interpretation that takes seriously the issues of intercultural studies and their intersection with Christian doctrine **The Ancient Story of God-With-Us** Ray C. What is forming you We often assume that our identities are formed and created only when we intend them to be But what if our quest for discerning the deepest truths about ourselves our God and our world are already governed by appetites and ways of thinking that are so fixed in our collective imaginations we don t even know that they re there This book is aimed at exposing those hidden assumptions that have kept us feeling like God is distant while we remain divided anxious and afraid despite our best efforts to overcome through private prayer and Bible reading The Ancient Story of God With Us is about the good news that you don t have to think or pray your way out of this wilderness by yourself Through our storied identity with God we have been gifted deep wells from which to draw again and again as the Spirit woos us deeper into the inexhaustible mystery of the triune God with us God is alive We have nothing to fear *Therapy Culture* Frank Furedi,2004 Suggests that

History and Class Consciousness Georg Lukács,2021-03-13 History and Class Consciousness Studies in Marxist Dialectics is a 1923 book by the Hungarian philosopher Georg Luk cs in which the author re emphasizes the philosopher Georg Wilhelm Friedrich Hegel s influence on Karl Marx analyses the concept of class consciousness and attempts a philosophical justification of Bolshevism Luk cs attempts a philosophical justification of Bolshevism stressing the distinction between actual class consciousness and ascribed class consciousness the attitudes the proletariat would have if they were aware of all of the facts Marx s idea of class consciousness is seen as a thought which directly intervenes into social being Claiming to return to Marx s methodology Luk cs re emphasizes the philosopher Georg Wilhelm Friedrich Hegel s influence on the philosopher

Karl Marx emphasizes dialectics over materialism makes concepts such as alienation and reification central to his theory and argues for the primacy of the concept of totality Luk cs depicts Marx as an eschatological thinker He develops a version of Hegelian Marxism that contrasted with the emerging Soviet interpretations of Marxism based on the work of the philosopher Georgi Plekhanov and the dialectics of nature inspired by the philosopher Friedrich Engels While reading it is important to note that later in his life Luk cs believed he misunderstood Marx s conception of alienation and conflated it with Hegel s conception It is important to understand too that Luk cs believed orthodox marxism refers exclusively to method As such this book should not be read to keep one foot into the ivory tower but to understand this as another addition to a long historical conversation had on the philosophical implications of class consciousness not so much a radical history of it as the title may be interpreted as

Freedom and Equality Clare Chambers,2024-03-13 Should the state recognise gender Can a liberal state discourage traditional family structures Is women s sport compatible with equality of opportunity Should feminists defend women s freedom to choose cosmetic surgery Is genital cutting always wrong or is it only wrong for girls Freedom and Equality investigates the contours of feminist liberalism a philosophical approach that is appealing but elusive Its hallmark is a liberalism that prioritises equality and individual autonomy while offering a rigorous critique of using individuals choices as the measure of justice Liberalism without feminism prioritises individual choice a strategy that has played a crucial role in the liberal defence of freedom against authoritarianism and conformity However as feminism shows relying on individual choice is insufficient to render an outcome just because people often choose things that harm or disadvantage themselves From beauty norms to the gendered division of labour from marriage to religion women and men choose to arrange their lives in ways that perpetuate inequality Often these choices are made in response to social norms including unjust unequal or harmful norms It follows that relying on individual choice as a measure of justice actually leaves unjust social structures intact Any defender of autonomy and equality must be prepared to criticise individuals choices while prioritising individual choosers The essays in this collection cover a wide range of issues fundamental to liberalism to feminism and to their intersection They explore the foundational philosophical concepts of choice equality of opportunity ideology and the state and they engage directly with key political controversies including women s sport the state recognition of gender the regulation of cosmetic and cultural surgeries and state action to secure equality in the family Clare Chambers argues that feminist liberalism is both possible and necessary It is possible because the two doctrines of feminism and liberalism are compatible their fundamental values of freedom and equality aligned But feminism is necessary because

liberalism has shown that it is simply not up to the task of securing gender equality and women s liberation alone
