International Patterns Of Inflation A Study In Contrasts Conference Board Report No 853:

International Patterns of Inflation Ezra Solomon, 1984 *The Golden Age of Capitalism* Stephen A. Marglin, Juliet B. Schor, 1991 For some twenty years after the Second World War Keynesian economic policies in countries of the capitalist West were successful in generating rapid growth with high employment This golden age of capitalism did not survive the economic traumas of the 1970s nor has the more recent emphasis on monetarist policies and supply side performance succeeded in regenerating comparable growth rates Blending historical analysis with economic theory this book seeks to understand the making and unmaking of this golden age questions the basis of much present policy making and suggests alternative directions for policy **Cumulative Index - Conference Board** Conference Board, 1985 *F&S Index International Annual* , 1998 **F&S Index United States Annual** , 1996 **Research Bulletin** , 1986 The 1985 U.S. Economy , 1984 *F & S Index United States* , 1997 Macropolicy in the Rise and Fall of the Golden Age Gerald A. Epstein, Juliet B. Schor, 1988 **Energy Shocks and the World Economy** Hui Liang Tsai, 1989-09-25 The second of two works resulting from the author s extensive study of energy and the world economy this book examines the international macroeconomic aspects of energy adjustment Specifically the author analyzes the ways in which economies adjust to external shocks particularly the oil price shock and other energy market changes of the 1970s and early 1980s He seeks to put the recessions experienced by industrial countries during the last decade in historical and analytical perspective arguing that with the increasing openness of the world economy the effects of the domestic policies of the industrial economies are increasingly relevant to the economic prospects of developing countries He argues further that the apparent problems of the global economy during the post 1973 era stagnant growth inflation the international debt crisis and rising protectionism are in part the result of a deterioration in the economic performance of industrial countries The author begins by examining the effects of energy supply disturbances on the world economy Subsequent chapters explore such issues as challenges to economic stabilization policy the impact of external shocks on the economies of less developed countries especially with regard to inflation and balance of payments problems the relationship between world payment imbalances and recycling problems and the link between energy markets and the international debt crisis Finally the author provides a theoretical framework for the international adjustment to energy shocks focusing on flexible exchange rate policy responses to exogenous shocks in the 1970s and the contribution of exchange rate misalignment to the international debt crisis of the 1980s *F&S Index Europe* Gale Group, Thomson Gale, 1999-05 **F&S Index Europe Annual** , 1996 **Index of Industrial Relations Literature** , 1984 *Across the Board* , 1986 **Predicasts Forecasts** Predicasts, inc, 1995 Compilation of economic forecasts for population products services markets and industry The arrangement is by six digit SIC code *The Current Industrial Relations Scene in Canada* , 1985 Worldcasts , 1994-12 Inflation Adjustment of the Individual Income Tax, Indexation Or Legislation? Steven Malin, 1984 *Economic Titles/abstracts* , 1984 *World Regional*
