Stories in a New Skin Keavy Martin, 2012-12-15 In an age where southern power holders look north and see only vacant polar landscapes isolated communities and exploitable resources it is important to note that the Inuit homeland encompasses extensive philosophical political and literary traditions Stories in a New Skin is a seminal text that explores these Arctic literary traditions and in the process reveals a pathway into Inuit literary criticism Author Keavy Martin considers writing storytelling and performance from a range of genres and historical periods the classic stories and songs of Inuit oral traditions life writing oral histories and contemporary fiction poetry and film and discusses the ways in which these texts constitute an autonomous literary tradition She draws attention to the interconnection between language form and context and illustrates the capacity of Inuit writers singers and storytellers to instruct diverse audiences in the appreciation of Inuit texts Although Eurowestern academic contexts and literary terminology are a relatively foreign presence in Inuit territory Martin builds on the inherent adaptability and resilience of Inuit genres in order to foster greater southern awareness of a tradition whose audience has remained primarily northern

In Northern Mists (Vol. 1&2) Fridtjof Nansen, 2023-12-12 Fridtjof Nansen's monumental two volume work In Northern Mists serves as an intricate exploration of the Arctic and its profound historical geographical and cultural significance The narrative weaves together travelogue scientific inquiry and

historical analysis all delivered with Nansen's characteristic eloquence and meticulous detail. Drawing upon rich firsthand experiences from his polar expeditions, he vividly captures the stark beauty and haunting isolation of the North while simultaneously engaging with the myths and realities that envelop this enigmatic region. Fridtjof Nansen, a pioneering Norwegian explorer and diplomat blossomed during the late 19th century, a time marked by intense curiosity about the polar regions. His distinguished career, marked by not only exploration but also achievements in oceanography and humanitarian efforts, provided him with a unique lens to examine Northern cultures and geographies. Nansen's breadth of experience through his Arctic voyages shaped his understanding of the complex interplay between nature and human endeavors. *Northern Mists* is highly recommended for anyone interested in the intersection of adventure and scholarship. Nansen's reflective prose and immersive storytelling not only enlighten readers about the Arctic's allure but also establish a dialogue on humanity's relationship with the environment. This work is an essential read for explorers of both the physical and intellectual landscapes.

Kyuquot way Susan M. Kenyon, 1980-01-01 This volume describes a modern Nootka community from a historical perspective. Despite evidence of significant change over time with respect to material culture, technology, and political institutions, considerable continuity exists insofar as codes of social interaction, community values, and ideals are concerned. Published in English.

Algonquin ethnobotany Meredith Jean Black, 1980-01-01 A compilation of published ethnobotanical data pertaining to all of the Algonkian-speaking peoples of eastern North America and field data concerning the Algonquin bands of the Ottawa River drainage and the Cree bands of the St. Maurice drainage of western Quebec. These data help illuminate past subsistence patterns, the seasonal movements of the Algonquin, and the relationship between Algonquin bands and other Algonkian speakers. They also indicate that the Algonquin previously enjoyed a subarctic subsistence orientation similar to that of the Cree and other northerners, in contrast to their Iroquoian neighbours, thus necessitating a redefinition of the eastern subarctic culture area. Published in English.

Hare Indians and their world Hiroko S. Hara, 1980-01-01 An ethnographic examination of how the Hare, Northern Athapaskan-speaking hunters and gatherers of the Fort Good Hope Game area in the Mackenzie River basin view the world and their place in it. Published in English.

Groundbreaking scholar Patricia Monaghan spent her life researching, writing about, and documenting goddesses and heroines from all religions and all corners of the globe. Her work demonstrated that from the beginning of recorded history, goddesses reigned alongside their male counterparts as figures of inspiration and awe. Kindergarten and First Grade Magazine, 1925 **Echoing Silence** John Moss, 1997 The North has always had, and still has, an irresistible attraction. This fascination is made up of a mixture of perspectives among these various

explorations of the Arctic itself and the Inuk cultural heritage found in the elders and contemporary stories This book discusses the different generations of explorers and writers and illustrates how the sounds of a landscape are inseparable from the stories of its inhabitants Published in English **Reverse Shots** Wendy Gay Pearson, Susan Knabe, 2015-01-15
