a variety of forms of Inuit art Bulk of the collection is contemporary and from the Canadian Arctic although some are prehistoric pieces and from a different geographical area Numerous photographs Art Without Borders Ben-Ami Scharfstein,2009-08-01 People all over the world make art and take pleasure in it and they have done so for millennia But acknowledging that art is a universal part of human experience leads us to some big questions Why does it exist Why do we enjoy it And how do the world s different art traditions relate to art and to each other Art Without Borders is an extraordinary exploration of those questions a profound and personal meditation on the human hunger for art and a dazzling synthesis of the whole range of inquiry into its significance Esteemed thinker Ben Ami Scharfstein s encyclopedic erudition is here brought to bear on the full breadth of the world of art He draws on neuroscience and psychology to understand the way we both perceive and conceive of art including its resistance to verbal exposition Through examples of work by Indian Chinese European African and Australian artists Art Without Borders probes the distinction between accepting a tradition and defying it through innovation which leads to a consideration of the notion of artistic genius Continuing in this comparative vein Scharfstein examines the mutual influence of European and non European artists Then through a comprehensive evaluation of the world s major art cultures he shows how all of these individual traditions are gradually but haltingly conjoining into a single current of universal art Finally he concludes by looking at the ways empathy and intuition can allow members of one culture to appreciate the art of another Lucid learned and incomparably rich in thought and detail Art Without Borders is a monumental accomplishment on par with the artistic achievements Scharfstein writes about so lovingly in its pages

international contexts More than two centuries of industrialization have not extinguished handmade goods rather the broader force of industrialization has redefined and continues to define the context of creation deployment and use of craft objects With object study at the core this book brings together a collection of essays that address the past and present of craft production its use and meaning within a range of community settings from the Huron Wendat of colonial Quebec to the Girls Friendly Society of twentieth century England The making of handcrafted objects has and continues to flourish despite the powerful juggernaut of global industrialization whether inspired by a calculated refutation of industrial sameness an essential means to sustain a cultural community under threat or a rejection of the imposed definitions by a dominant culture The broader effects of urbanizing imperial and globalizing projects shape the multiple contexts of interaction and resistance that can define craft ventures through place and time By attending to the political histories of craft objects and their makers over the last few centuries these essays reveal the creative persistence of various hand mediums and the material debates they represented

**Mythologizing Norval Morrisseau** Carmen L. Robertson,2016-05-03 Mythologizing Norval Morrisseau examines the complex identities assigned to Anishinaabe artist Norval Morrisseau Was he an uneducated artist plagued by alcoholism and homelessness Was Morrisseau a shaman artist who tapped a deep spiritual force Or was he simply one of Canada s most significant artists Carmen L Robertson charts both the colonial attitudes and the stereotypes directed at Morrisseau and other Indigenous artists in Canada s national press

Robertson also examines Morrisseau's own shaping of his image. An internationally known and award-winning artist from a remote area of northwestern Ontario, Morrisseau founded an art movement known as Woodland Art, developed largely from Indigenous and personal creative elements. Still, until his retrospective exhibition at the National Gallery of Canada in 2006, many Canadians knew almost nothing about Morrisseau's work. Using discourse analysis methods, Robertson looks at news stories, magazine articles, and film footage ranging from Morrisseau's first solo exhibition at Toronto's Pollock Gallery in 1962 until his death in 2007 to examine the cultural assumptions that have framed Morrisseau.

**American Indian Art Magazine**, 2008 **Framing Our Past** Lorna R McLean, Kate O'Rourke, Sharon Anne Cook, 2001-05-14 With introductory essays by historians, *Framing Our Past* emphasizes the lived experiences of women, their participation in many areas of social life such as social rituals with other women, organized sporting clubs, philanthropic, spiritual, and aesthetic activities, study and reading groups. The authors then focus on women's roles as nurturers and keepers of the hearth, their experiences with family management, child care, and health concerns. They consider women's varied contributions within formal and informal educational systems as well as their instrumental political role in consumer activism, social work, peace movements, and royal commissions. Canadian women's shaping of health care and science through nursing, physiotherapy, and research are discussed, as is women's work from domestic labour to dressmaking to broadcasting to banking. Using diary accounts, oral history, letters, organizational records, paintings, quilts, dressmaking patterns, milliners' records, posters, *Framing our Past* offers a unique opportunity to share what is rarely, if ever, seen, offering insights into the preservation and interpretation of historical sources.

**The Canadian Encyclopedia** James H. Marsh, 1999 This edition of *The Canadian Encyclopedia* is the largest, most comprehensive book ever published in Canada for the general reader. It is COMPLETE: every aspect of Canada, from its rock formations to its rock bands, is represented here. It is UNABRIDGED: all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume. It has been EXPANDED: since 1988, teams of researchers have been diligently fleshing out old entries and recording new ones; as a result, the text from 1988 has grown by 50% to over 4,000,000 words. It has been UPDATED: the researchers and contributors worked hard to make the information as current as possible. Other words apply to this extraordinary work of scholarship: AUTHORITATIVE, RELIABLE, and READABLE. Every entry is compiled by an expert. Equally important, every entry is written for a Canadian reader, from the Canadian point of view. The finished work, many years in the making and the equivalent of forty average-sized books, is an extraordinary storehouse of information about our country. This book deserves pride of place on the bookshelf in every Canadian home. It is no accident that the cover of this book is based on the Canadian flag. For the proud truth is that this volume represents a great national achievement. From its formal inception in 1979, this encyclopedia has always represented a vote of faith in Canada, in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated. At the start of a new century and a new millennium, in an increasingly borderless

corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry *A mari usque ad mare* from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada
