The alien abduction phenomenon is one of the enduring enigmas of our time While the reality of alien abductions is a hotly debated topic among UFO researchers scientists skeptics and true believers alike the phenomenon indisputably exists as an artifact of popular culture This book analyzes more than 75 films that draw their inspiration from allegedly fact based accounts of alien contact from 1951 s The Man from Planet X to Contactee in 2021 These films are examined in terms of both their cinematic qualities and their exploration of thematic elements derived from abduction reports Abduction motifs that appear in science fiction classics such as The Day the Earth Stood Still 2001 and Close Encounters are analyzed as well as those in lesser known films like The Stranger Within Starship Invasions Dark Skies and Proximity Special attention is given to movies based on the famed experiences of abductees Betty and Barney Hill Whitley Strieber and Travis Walton The book also addresses skeptical theories about the origins of the phenomenon in science fiction and examines an uncanny prescience that appears to anticipate these inexplicable occurrences *Classic Movie Monsters* Donald F. sterreichische Einwanderung in die USA Die vorliegende Publikation beleuchtet das Thema der Migration von sterreichern in die USA genauer das bis heute ein immer noch sehr unerforschtes Gebiet ist Seit kurzer Zeit erlebt die Forschung allerdings einen neuen Aufschwung es herrscht gro es Interesse vor allem in der Biografieforschung Die vorliegenden Beitr ge basieren auf einer Tagung die im Juni 2015 in Wien zum gleichnamigen Thema stattgefunden hat Es handelt sich haupts chlich um Fallstudien ber emigrierte sterreicher die ihre Heimat aus wirtschaftlichen politischen oder karrieretechnischen Gr nden verlassen haben Alle mussten sich mit einer schwierigen Einwanderungspolitik der USA auseinandersetzen trotzdem ist den meisten von ihnen eine erfolgreiche Integration in die amerikanische Gesellschaft gelungen The essays in this book argue that the United States served as a great attraction for economic betterment to Austrian migrants before and World War I yet a third of these migrants actually remigrated Remigration was less likely after World War I as the economic situation deteriorated in Europe and the political situation landscape became desperate for Jews and the opponents of the Hitler regime Most of the Austrians migrating to the U S in the World War II era stayed For the roughly 30 000 Jews who had been brutally kicked out of their homes after the Anschluss and managed to snag immigration papers to the U S returning to desperately poor and still anti Semitic Austria was not an option These case studies show that integrating and assimilating into the American mainstream often was a difficult process that might take two generations Many of the intellectuals and academics never fully felt at home in the U S as they viewed American culture shallow and American values too materialistic The Aliens Are Here Fraser A. Sherman,2022-10-10 Aliens They have taken

Westfahl, Amy Kit-size Chan, 2005-11-01 *World Weavers* is the first ever study on the relationship between globalization and science fiction. Scientific innovations provide citizens of different nations with a unique common ground and the means to establish new connections with distant lands. This study attempts to investigate how our world has grown more and more interconnected not only due to technological advances but also to a shared interest in those advances and to what they might lead to in the future. Science fiction has long been both literally and metaphorically linked to the emerging global village. It now takes on the task of exploring how the cybernetic revolution might transform the world and keep it one step ahead of the real world despite ever accelerating developments. As residents of a world that is undeniably globalized, science fictional and virtual, it is incumbent on us to fully understand just how we came to live in such a world and to envisage where this world may be heading next. *World Weavers* represents one small but significant step toward achieving such knowledge.

Encyclopedia of American Film Serials Geoff Mayer, 2017-02-23 From their heyday in the 1910s to their lingering demise in the 1950s, American film serials delivered excitement in weekly installments for millions of moviegoers despite minuscule budgets, nearly impossible shooting schedules, and the disdain of critics. Early heroines like Pearl White, Helen Holmes, and Ruth Roland broke gender barriers and ruled the screen. Through both world wars, such serials as *Spy Smasher* and *Batman* were vehicles for propaganda. Smash hits like *Flash Gordon* and *The Lone Ranger* demonstrated the enduring mass appeal of the genre. Providing insight into early 20th-century American culture, this book analyzes four decades of productions from Pathe, Universal, Mascot, and Columbia, and all 66 Republic serials.

Space Patrol Jean-Noel Bassior, 2015-05-07 Before *Star Trek*, there was *Space Patrol*. Science fiction television has its roots in this live-action packed series that captured the imagination of Americans from 1950 to 1955 when space travel was just a dream.
