Investing The Process:

Successful Investing Is a Process Jacques Lussier, 2013-01-28 A process driven approach to investment management that lets you achieve the same high gains as the most successful portfolio managers but at half the cost What do you pay for when you hire a portfolio manager Is it his or her unique experience and expertise a set of specialized analytical skills possessed by only a few The truth according to industry insider Jacques Lussier is that despite their often grandiose claims most successful investment managers themselves can't properly explain their successes In this book Lussier argues convincingly that most of the gains achieved by professional portfolio managers can be accounted for not by special knowledge or arcane analytical methodologies but proper portfolio management processes whether they are aware of this or not More importantly Lussier lays out a formal process oriented approach proven to consistently garner most of the excess gains generated by traditional analysis intensive approaches but at a fraction of the cost since it could be fully implemented internally Profit from more than a half century's theoretical and empirical literature as well as the author's own experiences as a top investment strategist Learn an approach combining several formal management processes that simplifies portfolio management and makes its underlying qualities more transparent while lowering costs significantly Discover proven methods for exploiting the inefficiencies of traditional benchmarks as well as the behavioral biases of investors and corporate management for consistently high returns Learn to use highly efficient portfolio management and rebalancing methodologies and an approach to diversification that yields returns far greater than traditional investment programs The Venture Capital Investment Process Darek Klonowski, 2015-12-04 The book provides one of the most comprehensive overviews of the internal and external challenges of processing venture capital deals providing an eight stage investment model that breaks down each part of the deal into its own specific challenges and rewards *Investments* Charles P.
