Disappearing Architecture Georg Flachbart, Peter Weibel, 2005-09-09 The creation of new environments through the use of developments in Information Technology is significantly altering not only architecture itself but also the roles and tasks of the architects Architecture can no longer be described in the terms we are familiar with since it no longer corresponds to the form of architecture as we know it an inclusive and exclusive structure clearly defined with a single interior and a single exterior For architects the challenge of the future will increasingly lie in creatively coming to terms with hybrid environments understanding and exploiting the design potential of digital spaces within the physical world and redefining the role of architecture within a visually dominated culture This volume presents a valuable and attractive contribution to the contemporary discussion on this subject **Invisible Architecture** Steven Kelly, 1991-01-01

(Re)Production of Architecture Doina Petrescu, Kim Trogal, 2017-07-14 The Social Re Production of Architecture brings the debates of the right to the city into today s context of ecological economic and social crises Building on the 1970s discussions about the production of space which French sociologist Henri Lefebvre considered a civic right the authors question who has the right to make space and explore the kinds of relations that are produced in the process In the emerging post capitalist era this book addresses urgent social and ecological imperatives for change and opens up questions around architecture s engagement with new forms of organization and practice The book asks what new kinds of social can architecture re produce and what kinds of politics values and actions are needed The book features 24 interdisciplinary essays written by leading theorists and practitioners including social thinkers economic theorists architects educators urban curators feminists artists and activists from different generations and global contexts The essays discuss the diverse global

world's finest and most representative contemporary architects is unparalleled in its field Building in France, Building in Iron, Building in Ferroconcrete Sigfried Giedion, 1995-09-01 With *Building in France Building in Iron Building in Ferroconcrete* 1928 published now for the first time in English Sigfried Giedion positioned himself as an eloquent advocate of modern architecture This was the first book to exalt Le Corbusier as the artistic champion of the new movement It also spelled out many of the tenets of Modernism that are now regarded as myths among them the impoverishment of nineteenth century architectural thinking and practice the contrasting vigor of engineering innovations and the notion of Modernism as technologically preordained Hut Pavilion Shrine: Architectural Archetypes in Mid-Century Modernism Miles David Samson, 2016-03-09 The phase of American architectural history we call mid century modernism 1940 1980 saw the spread of Modern Movement tenets of functionalism social service and anonymity into mainstream practice It also saw the spread of their seeming opposites Temples arcades domes and other traditional types occur in both modernist and traditionalist forms from the 1950s to the 1970s *Hut Pavilion Shrine* examines this crossroads of modernism and the archetypal and critiques its buildings and theory The book centers on one particularly important and omnipresent type the pavilion a type which was the basis of major work by Louis I Kahn Paul Rudolph Philip Johnson Minoru Yamasaki and other eminent architects While focusing primarily on the architecture culture of the United States it also includes the work of British European Team X and Scandinavian designers and writers Making connections between formal analysis historical context and theory the book continues lines of inquiry which have been pursued by Neil Levine and Anthony Vidler on representation and by Sarah Goldhagen and Alice Friedman on modernism's forbidden elements of the honorific and the visually pleasurable It highlights the significance of pavilionizing mid century designers such as Victor Lundy John Johansen Eero Saarinen and Edward Durrell Stone and shows how frequently essentialist and traditionalist types appeared in the roadside vernacular of drive in restaurants gas stations furniture and car showrooms branch banks and motels The book ties together the threads in mid century architectural theory that addressed aspects of type essential structure and primal humanistic aspects of environment making and discusses how these concerns outlived the mid century moment and in the designs and writings of Aldo Rossi and others they paved the way for Post Modernism *Music, Sound, and Documentary Film in the Global South* Christopher L. Ballengee, 2022-11-01 *Music Sound and Documentary Film in the Global South* edited by Christopher L Ballengee represents an important step toward thinking about the production and analysis of the soundscapes of documentary film all while exploring a range of social cultural technological and theoretical questions relevant to current trends in Global South studies Written by a diverse set of authors including filmmakers academics and cultural critics the ten essays in this book provide fresh evaluations of the place of music and sound in documentary films outside the European American milieu On the whole the authors illuminate how the invention of documentary film was at first a product of the colonialist project Yet over time access to filmmaking technologies led to the creation of documentary films relevant for local communities and national

identities In this sense documentary film in the Global South might be broadly defined as a mode of personally or politically mediated storytelling that by one route or another has become a useful and recognizable means of memorializing traumatic histories and critiquing everyday lived experience As the essays in this volume attest close readings of documentary soundscapes provide fresh perspectives on ways of hearing and ways of being heard in the Global South **Optimizing**
