**Forming Sleep** Nancy L. Simpson-Younger, Margaret Simon, 2020-04-13 *Forming Sleep* asks how biocultural and literary dynamics act together to shape conceptions of sleep states in the early modern period Engaging with poetry drama and prose largely written in English between 1580 and 1670 the essays in this collection highlight period discussions about how seemingly insentient states might actually enable self formation Looking at literary representations of sleep through formalism biopolitics Marxist theory trauma theory and affect theory this volume envisions sleep states as a means of

defining the human condition both literally and metaphorically The contributors examine a range of archival sources including texts in early modern faculty psychology printed and manuscript medical treatises and physicians notes and printed ephemera on pathological sleep through the lenses of both classical and contemporary philosophy Essays apply these frameworks to genres such as drama secular lyric prose treatise epic and religious verse Taken together these essays demonstrate how early modern depictions of sleep shape and are shaped by the philosophical medical political and above all formal discourses through which they are articulated With this in mind the question of form merges considerations of the physical and the poetic with the spiritual and the secular highlighting the pervasiveness of sleep states as a means by which to reflect on the human condition In addition to the editors the contributors to this volume include Brian Chalk Jennifer Lewin Cassie Miura Benjamin Parris Giulio Pertile N Amos Rothschild Garret A Sullivan Jr and Timothy A Turner **50**

Cerbone,2014-12-05 Understanding Phenomenology provides a guide to one of the most important schools of thought in modern philosophy The book traces phenomenology s historical development beginning with its founder Edmund Husserl and his pure or transcendental phenomenology and continuing with the later existential phenomenology of Martin Heidegger Jean Paul Sartre and Maurice Merleau Ponty The book also assesses later critical responses to phenomenology from Derrida to Dennett as well as the continued significance of phenomenology for philosophy today Written for anyone coming to phenomenology for the first time the book guides the reader through the often bewildering array of technical concepts and jargon associated with phenomenology and provides clear explanations and helpful examples to encourage and enhance engagement with the primary texts      **Railing, Reviling, and Invective in English Literary Culture, 1588-1617** Maria Teresa Micaela Prendergast,2016-04-08 Railing Reviling and Invective in English Literary Culture 1588 1617 is the first book to consider railing plays and pamphlets as participating in a coherent literary movement that dominated much of the English literary landscape during the late Elizabethan early Jacobean period Author Prendergast considers how these crisis ridden texts on religious gender and aesthetic controversies were encouraged and supported by the emergence of the professional theater and print pamphlets She argues that railing texts by Shakespeare Nashe Jonson Jane Anger and others became sites for articulating anxious emotions including fears about the stability of England after the death of Queen Elizabeth and the increasing factional splits between Protestant groups But given that railings about religious and political matters often led to censorship or even death most railing writers chose to circumvent such possible repercussions by railing against unconventional gender identity perverse sexual proclivities and controversial aesthetics In the process Prendergast argues railers shaped an anti aesthetics that was itself dependent on the very expressions of perverse gender and sexuality that they discursively condemned an aesthetics that created a conceptual third space in which bitter enemies male or female

conformist or nonconformist could bond by engaging in collaborative experiments with dialogical invective By considering a literary mode of articulation that vehemently counters dominant literary discourse this book changes the way that we look at late Elizabethan and early Jacobean literature as it associates works that have been studied in isolation from each other with a larger coherent literary movement      **The Tragic Sense of Life in Men and in Peoples** Miguel de Unamuno,1921

thereby revises our perceptions of English humanism revealing its emphasis on sayings collectivism shared resources anonymous inscription and balance of power in contrast to an aristocratic mode of thought which championed individualism imperialism and strong assertion of authorial voice Crane first explores the theory of gathering and framing as articulated in influential sixteenth century logic and rhetoric texts and in the pedagogical theory with which they were linked in the humanist project She then investigates the practice of humanist discourse through a series of texts that exemplify the notebook method of composition These texts include school curricula political and economic treatises such as More's Utopia contemporary biography and collections of epigrams and poetic miscellanies Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**The British Review ...**, 1852 The Aesthetic Theories of the German Storm and Stress Movement ... Arthur Emanuel Wald, 1924 *Issues of Death* Michael Neill, 1999-01-07

Death like most experiences that we think of as natural is a product of the human imagination all animals die but only human beings suffer Death and what they suffer is shaped by their own time and culture Tragedy was one of the principal instruments through which the culture of early modern England imagined the encounter with mortality The essays in this book approach the theatrical reinvention of Death from three perspectives Those in Part I explore Death as a trope of apocalypse a moment of unveiling or discovery that is figured both in the fearful nakedness of the Danse Macabre and in the shameful openings enacted in the new theatres of anatomy Separate chapters explore the apocalyptic design of two of the periods most powerful tragedies Shakespeare's Othello and Middleton and Rowley's The Changeling In Part 2 Neill explores the psychological and affective consequences of tragedy's fiercely end driven narrative in a number of plays where a longing for narrative closure is pitched against a particularly intense dread of ending The imposition of an end is often figured as an act of writerly violence committed by the author or his dramatic surrogate Extensive attention is paid to Hamlet as an

extreme example of the structural consequences of such anxiety The function of revenge tragedy as a response to the radical displacement of the dead by the Protestant abolition of purgatory one of the most painful aspects of the early modern reimagining of death is also illustrated with particular clarity Finally Part 3 focuses on the way tragedy articulates its challenge to the undifferentiating power of death through conventions and motifs borrowed from the funereal arts It offers detailed analyses of three plays Shakespeare's Antony and Cleopatra Webster's The Duchess of Malfi and Ford's The Broken Heart Here funeral is rewritten as triumph and death becomes the chosen instrument of an heroic self fashioning designed to dress the arbitrary abruption of mortal ending in a powerful aesthetic of closure
