Excel In Civics:

Excel in Civics Stephen Jenkins, Susan Spiegel, Edward McMahon, Linda Riekes, 1985 Rebuilding Support for Higher Education Paul L. Gaston, 2024-08-01 This book provides a palette of practical strategies that higher education leaders administrators faculty members academic advisors and the like can apply to the task of rebuilding support Once closely associated with the common good higher education is now regarded principally as a benefit for individuals As a consequence support for colleges and universities has declined dramatically over the past 50 years having serious implications for both public and private institutions After summarizing the erosion of public funding acknowledging examples of self inflicted damage and proposing tactics for improvement this book suggests how to engage natural allies and advocates of higher education describes three key priorities that every higher education leader should pursue and emphasizes the importance of maintaining rigorous and conspicuous transparency Offering a clear eyed account of this widely lamented issue and innovative approaches for addressing it this book is essential reading for new seasoned and aspiring leaders in higher education *Making Civics Count* David E. Campbell, Meira Levinson, Frederick M. Hess, 2012-10-01 By nearly every measure Americans are less engaged in their communities and political activity than generations past So write the editors of this volume who survey the current practices and history of citizenship education in the United States They argue that the current period of creative destruction when schools are closing and opening in response to reform mandates is an ideal time to take an in depth look at how successful strategies and programs promote civic education and good citizenship Making Civics Count offers research based insights into what diverse students and teachers know and do as civic actors and proposes a blueprint for civic education for a new generation that is both practical and visionary **Advanced Civics; the Spirit, the Form, and the Functions of the American Government** Samuel Eagle Forman, 1907 *Excel in Civics* Jenkins, Alan, Stephen Jenkins, 1999-01-01 **The Australasian Journal of Psychology and Philosophy** , 1928 Civics Beyond Critics Ian MacMullen, 2015 Examines the orthodox view that education for civic character must be limited to avoid compromising its recipients ability to think and act as critically autonomous citizens arguing that traits such as law abidingness civic identification and support for society s institutions are equally essential **Civics as Applied Sociology** Patrick Geddes, 2023-10-15 In *Civics As Applied Sociology* Sir Patrick Geddes examines the idea of civics as a practical application of sociological principles to urban planning and the organization of society The book reflects Geddes s belief that understanding human behavior and social relationships is essential to creating well functioning communities and cities Geddes introduces the concept of civics as a field that goes beyond mere governance and public administration He argues that civics should encompass a broader understanding of how people interact with their environment how communities form and how cities can be designed to enhance the well being of their inhabitants The book delves into topics such as city planning social organization and the impact of the physical environment on human behavior Geddes advocates for a holistic

and interdisciplinary approach to urban planning taking into account not only physical infrastructure but also the social cultural and ecological aspects of urban life Geddes s ideas in *Civics As Applied Sociology* were influential in the early development of urban planning as a field of study and practice He emphasized the importance of understanding the social fabric of communities and the need to incorporate sociological insights into the design and development of cities This book is a significant contribution to the fields of sociology and urban planning highlighting the importance of considering the human element in the design and organization of urban spaces Geddes s ideas continue to influence urban planning and the study of cities to this day *Civics and Commerce* ,1916 ***Civics for Houston* ,1928** *Liberal Education, Civic Education, and the Canadian Regime* David W. Livingstone,2015-10-01 Shortly after Canadian confederation Thomas D Arcy McGee proclaimed that education was an essential condition of our political independence and that its role was to form citizens for the new regime Comparing this idea of education for citizenship or civic education to the modern goals of education *Liberal Education Civic Education and the Canadian Regime* explores the founders principles their sources and the challenges that threaten their vision for Canada The collection s first essays analyze the political thought of early Canadians such as Brown McGee Ryerson and Bourinot while later chapters examine enduring principles of liberal democracy derived from Aristotle de Tocqueville and Hobbes The final chapters bring the discussion forward to such topics as the decline of Canadian Catholic liberal arts colleges and the emerging role of our Supreme Court as a self appointed moral tutor Moreover as it deals with the changing roles of universities in contemporary Canada *Liberal Education Civic Education and the Canadian Regime* engages current debates about the value and place of a traditional liberal education and the consequences of turning our back on the concepts that inspired our founding leaders Considering whether Canada s early documents and traditions can revive past debates and shed light on contemporary issues this highly original collection presents education as an essential condition of our independence and asks whether current educational principles are threatening Canadians capacity for self government
