Execution By Hunger The Hidden Holocaust:

Execution By Hunger Miron Dolot,1987-07-07 An eyewitness account of the forced collectivization of Russian agriculture in 1929 1931 and the ensuing famine in the Ukraine brought about by Stalin s command **Execution by Hunger: The Hidden Holocaust** Miron Dolot,2011-02-14 Seven million people in the breadbasket of Europe were deliberately starved to death at Stalin s command This story has been suppressed for half a century Now a survivor speaks In 1929 in an effort to destroy the well to do peasant farmers Joseph Stalin ordered the collectivization of all Ukrainian farms In the ensuing years a brutal Soviet campaign of confiscations terrorizing and murder spread throughout Ukrainian villages What food remained after the seizures was insufficient to support the population In the resulting famine as many as seven million Ukrainians starved to death This poignant eyewitness account of the Ukrainian famine by one of the survivors relates the young Miron Dolot s day to day confrontation with despair and death his helplessness as friends and family were arrested and abused and his gradual realization as he matured of the absolute control the Soviets had over his life and the lives of his people But it is also the story of personal dignity in the face of horror and humiliation And it is an indictment of a chapter in the Soviet past that is still not acknowledged by Russian leaders **The Psychology of Genocide, Massacres, and Extreme Violence** Donald G. Dutton,2007-05-30 Chronicling horrific events that brought the 20th century to witness the largest number of systematic slaughters of human beings in any century across history this work goes beyond historic details and examines contemporary psychological means that leaders use to convince individuals to commit horrific acts in the name of a political or military cause Massacres in Nanking Rwanda El Salvador Vietnam and other countries are reviewed in chilling detail But the core issue is what psychological forces are behind large scale killing what psychology can be used to indoctrinate normal people with a Groupthink that moves individuals to mass murder brutally and without regret even when the victims are innocent children Dutton shows us how individuals are convinced to commit such sadistic acts often preceded by torture after being indoctrinated with beliefs that the target victims are unjust inhuman or viral like a virus that must be destroyed or it will destroy society **Old Nazis, the New Right, and the Republican Party** Russ Bellant,1991 A provocative sometimes chilling expose of domestic fascist networks which include Nazi collaborators within the Republican Party Journal of Soviet and Post-Soviet Politics and Society Julie Fedor,2016-01-05 This double special issue investigates the experiences of Soviet Afghan veterans and the ongoing impact of the Soviet Afghan war 1979 89 and the new and reconstituted narratives of martyrdom that have been emerging in connection with 20th century history and memory in the post socialist world The JOURNAL OF SOVIET AND POST SOVIET POLITICS AND SOCIETY JSPPS is a new bi annual companion journal to the Soviet and Post Soviet Politics and Society SPPS book series founded 2004 and edited by Andreas Umland Dr phil PhD Guest editors Felix Ackermann European Humanities University Michael Galbas Konstanz University Uilleam Blacker UCL Stalin and Mao Lucien Bianco,2018-03-15 China s ascent to the ranks of the world s second largest

economic power has given its revolution a better image than that of its Russian counterpart Yet the two have a great deal in common Indeed the Chinese revolution was a carbon copy of its predecessor until Mao became aware not so much of the failures of the Russian model but of its inability to adapt to an overcrowded third world country Yet instead of correcting that model Mao decided to go further and faster in the same direction The aftershock of an earthquake may be weaker but the Great Leap Forward of 1958 in China was far more destructive than the Great Turn of 1929 in the Soviet Union It was conceived with an idealistic end but failed to take all the possibilities into account China's development only took off after and thanks to Mao's death once the country turned its back on the revolution Lucien Bianco's original comparative study highlights the similarities the all powerful bureaucracy the over exploitation of the peasantry which triggered two of the worst famines of the 20th century control over writers and artists repression and labor camps The comparison of Stalin and Mao that completes the picture leads the author straight back to Lenin and he quotes the observation by a Chinese historian that If at all possible it is best to avoid revolutions altogether

Genocide: A Thematic Approach Thomas Earl Porter, John Cox, 2025-04-08 The purpose of this volume is not simply to compile yet another wearying chronicle of the horrors that have been committed by our fellow human beings Most students who register for a course on Genocide assume that it will focus perhaps exclusively on the Holocaust the case with which they are most familiar Many of them have read Elie Wiesel's eloquent masterpiece *Night* in secondary school and some may have read *The Diary of Anne Frank* A few students might even know that a genocide occurred in Rwanda or Darfur Like most people however they equate genocide simply with mass killing and assume that genocide must by definition entail millions of deaths Raphael Lemkin who coined the word genocide meaning literally to kill a people originally defined it a colonial crime of destroying the national patterns of the oppressed and imposing the national patterns of the oppressors This was a process Lemkin said deliberately intending to destroy a people's culture that could sometimes but not necessarily always result in mass murder Students need to know that after World War II the great powers undermined and co-opted the process of writing the 1948 Genocide Convention at the UN because these nations did not want their own colonial crimes oppression of minorities and destructions of cultures to be included in the definition Instead they simply used the Holocaust as a template and succeeded in distorting what Lemkin originally meant by genocide the murder of a people by destroying their social and cultural connections

BOOK JACKET *Demonizing the Other* Robert S. Wistrich,2013-03-07 At the close of the twentieth century the stereotyping and demonization of others whether on religious nationalist racist or political grounds has become a burning issue Yet comparatively little attention has been paid to how and why we fabricate images of the other as an enemy or demon to be destroyed This innovative book fills that gap through an interdisciplinary cross cultural approach that brings together a distinguished array of historians anthropologists psychologists literary critics and feminists The historical sweep covers Greco Roman Antiquity the Middle Ages and the Modern Era Antisemitism receives special attention because of its longevity and centrality to the Holocaust but it is analyzed here within the much broader framework of racism and xenophobia The plurality of viewpoints expressed in this volume provide fascinating insights into what is common and what is unique to the many varieties of prejudice stereotyping demonization and hatred

Never Speak to Strangers and other writing from Russia and the Soviet Union David Satter,2020-04-22 David Satter arrived in the Soviet Union in June 1976 as the correspondent of the Financial Times of London and entered a country that was a giant theater of the absurd After 1982 he was banned from the Soviet Union but allowed back in 1990 and finally expelled in 2013 on the grounds that the secret police regarded his presence as undesirable From 1976 to the present he saw four different Russias which differed from each other radically while remaining essentially the same From 1976 to 1982 the Soviet Union was at the height of its world power and its people were in thrall to an absurd ideology With the advent of Gorbachev s perestroika the Soviet population was liberated from the ideology and the state hurtled to its inevitable collapse When independent Russia emerged from the wreckage the failure to replace the missing ideology with genuine moral values led to

Russia's complete criminalization The articles in this unique collection are a chronicle of Russia from the day David Satter arrived in the Soviet Union until the present Emigres from the states of the former Soviet Union often despair of their inability to convey the true character of their experiences to the West Penetrating the veil of Russian mystification requires effort and the ability to understand that seeing is not always believing The Russians have created an entire false world for our benefit This collection reflects David Satter's 40 year attempt to see them as they are [On the Trail of Genghis Khan](#) Tim Cope,2013-01-01 The personal tale of an Australian adventurer's tragedy and triumph that is packed with historical insights On the Trail of Genghis Khan is at once a celebration of and an elegy for an ancient way of life Supported by an epic Australian and New Zealand Tour **Red Famine** Anne Applebaum,2017-10-10 NEW YORK TIMES BESTSELLER A revelatory history of one of Stalin's greatest crimes the consequences of which still resonate today as Russia has placed Ukrainian independence in its sights once more from the author of the Pulitzer Prize winning Gulag and the National Book Award finalist Iron Curtain With searing clarity Red Famine demonstrates the horrific consequences of a campaign to eradicate backwardness when undertaken by a regime in a state of war with its own people The Economist In 1929 Stalin launched his policy of agricultural collectivization in effect a second Russian revolution which forced millions of peasants off their land and onto collective farms The result was a catastrophic famine the most lethal in European history At least five million people died between 1931 and 1933 in the USSR But instead of sending relief the Soviet state made use of the catastrophe to rid itself of a political problem In Red Famine Anne Applebaum argues that more than three million of those dead were Ukrainians who perished not because they were accidental victims of a bad policy but because the state deliberately set out to kill them Devastating and definitive Red Famine captures the horror of ordinary people struggling to survive extraordinary evil Applebaum's compulsively readable narrative recalls one of the worst crimes of the twentieth century and shows how it may foreshadow a new threat to the political order in the twenty first [Joseph Stalin](#) David R. Egan,Melinda A. Egan,2007-07-25 With the opening of Russian and communist bloc archives dating from the Soviet era there has been a significant increase of scholarly writings pertaining to Joseph Stalin Widely considered to be among the most influential historical figures of the twentieth century Stalin continues to be a source of intense study In the absence of a comprehensive compilation of periodical literature the need for Joseph Stalin An Annotated Bibliography of English Language Periodical Literature to 2005 is conspicuous Ranging from editorials and news reports to academic articles the more than 1 700 sources cited collectively cover the full range of his life the various aspects of his leadership and virtually all facets of the system and practices traditionally associated with his name The coverage in this bibliography extends beyond the person of Stalin to include the subjects of Stalinism the Stalinist system the Stalin phenomenon and those policies and practices of the Communist Party and Soviet state associated with him This volume also provides a record of scholarly opinion on Stalin and sheds light on the evolution and current state of Stalinology An effort has been made to list only those articles in which Stalin

figures prominently but in some instances articles have been included which do not center on Stalin but are worthy of listing for other reasons The book is divided into fourteen main sections General Studies and Overviews Biographical Information and Psychological Assessments The Revolutionary Movement October Revolution and Civil War Rise to Power Politics Economics Society and Social Policy Nationalism and Nationality Policy Culture Religion Philosophy and Theory Foreign Relations and International Communism Military Affairs and De Stalinization Including a subject index of several hundred headings and even greater number of subheadings this comprehensive annotated bibliography should be of benefit to those individuals who for the purpose of research or classroom

Problems of Communism ,1989 **Reigns of Terror**

Patricia Marchak,2003-11-10 Marchak departs significantly from mainstream explanations of genocide rejecting racism as a fundamental cause and disputing a wide range of other explanations that cite racist and religious ideologies perception of threat authoritarianism and unique historical circumstances as primary causes She argues that while these variables may be contributing factors states move toward human rights crimes because their governments can no longer sustain a particular social hierarchy Reasons for their paralysis may be economic environmental demographic or purely political In an attempt to re establish the former status quo they turn against groups low on the hierarchical scale some of which may be defined in ethnic terms If governments come into power as revolutionary forces they may commit such crimes in order to establish a new social hierarchy Other necessary but insufficient conditions for state crimes include the military capacity for committing mass murder the creation of ideology that justifies such action and the failure of independent institutions such as the mass media and universities to counter ideological and military forces Reigns of Terror is highly accessible and aimed at an audience of senior undergraduates graduate students and faculty in the social sciences as well as a more general reading public concerned about the many state sponsored crimes against humanity still occurring in the world
