Existence Existenz And Transcendence An Introduction To The Philosophy Of Karl Jaspers:

Existence, Existenz, and Transcendence Oswald O. Schrag, 1971 Karl Jaspers Kurt Salamun, 2022-12-14 This book paints a brief picture of Karl Jaspers unusual life and philosophy The reader gets to know a brave personality who had to face a life between extremes Threatened by an incurable disease and harassed by the Nazi regime Jaspers nevertheless succeeds in building a fruitful work as a psychiatrist researcher academic teacher philosopher and political writer and living an unusually happy marriage in the process The reader is introduced to the main themes of his thinking the meaning of life in borderline situations interpersonal communication God the meaning of history and the defense of democracy His criticism of illiberal totalitarian ways of thinking *The History of Western Philosophy of Religion* Graham Oppy, N. N. Trakakis, 2016-09-17 The History of Western Philosophy of Religion brings together an international team of over 100 leading scholars to provide authoritative exposition of how history's most important philosophical thinkers from antiquity to the present day have sought to analyse the concepts and tenets central to Western religious belief especially Christianity Divided chronologically into five volumes The History of Western Philosophy of Religion is designed to be accessible to a wide range of readers from the scholar looking for original insight and the latest research findings to the student wishing for a masterly encapsulation of a particular philosopher's views Together these volumes provide an indispensable resource for anyone conducting research or teaching in the philosophy of religion and related fields such as theology religious studies the history of philosophy and the history of ideas Twentieth-Century Philosophy of Religion Graham Oppy, N. N. Trakakis, 2014-09-11 The twentieth century saw religion challenged by the rise of science and secularism a confrontation which resulted in an astonishingly diverse range of philosophical views about religion and religious belief Many of the major philosophers of the twentieth century James Bergson Russell Wittgenstein Ayer Heidegger and Derrida significantly engaged with religious thought Idiosyncratic thinkers such as Whitehead Levinas and Weil further contributed to the extraordinary diversity of philosophical investigation of religion across the century In their turn leading theologians and religious philosophers notably Buber Tillich and Barth directly engaged with the philosophy of religion Later philosophy of religion became a distinct field of study led by the work of Hick Alston Plantinga and Swinburne Twentieth Century Philosophy of Religion provides an accessible overview of the major strands in the rich tapestry of twentieth century thought about religion and will be an indispensable resource for any interested in contemporary philosophy of religion The A to Z of Existentialism Stephen Michelman, 2010 Existentialism is the philosophy of human existence which flourished first in Germany in the 1920s and 1930s and then in France in the decade following the end of World War II The operative meaning of existentialism here is thus broader than it was circa 1945 when the term first gained currency in France as a label for the philosophy of Jean Paul Sartre However it is considerably less broad than the view proposed by commentators in the 1950s and 1960s who in an attempt to overcome Sartre's hegemony discovered the seeds of existentialism far and wide in Shakespeare Saint Augustine

and the Old Testament prophets In this dictionary existentialism is understood as a decidedly 20th century phenomenon though with roots in the 19th century Effort has been made to understand the philosophy of existentialism as all philosophies should be understood as part of an ongoing intellectual tradition an evolving history of problems concepts and arguments The A to Z of Existentialism explains the central claims of existentialist philosophy and the contexts in which it developed into one of the most influential intellectual trends of the 20th century This is done through a chronology an introductory essay a bibliography and more than 300 cross referenced dictionary entries offering clear accessible accounts of the life and thought of major existentialists like Jean Paul Sartre Martin Heidegger Martin Buber Karl Jaspers Gabriel Marcel Simone de Beauvoir Albert Camus and Maurice Merleau Ponty as well as thinkers influential to its development such as Wilhelm Dilthey Henri Bergson Edmund Husserl and Max Scheler This book affords readers an integrated critical and historically sensitive understanding of this important philosophical movement

Routledge History of Philosophy Volume VIII Richard Kearney, 2003-12-23 Continental philosophy as it has emerged in the twentieth century is less a seamless fabric than a patchwork of diverse strands Phenomenology hermeneutics existentialism structuralism critical theory deconstruction these are some of the salient movements which have developed in continental Europe between 1900 and the 1990 s though their influence is by no means confined to geographic location Continental thought has proved highly exportable circulating far beyond the frontiers of Europe to provoke strong responses in the intellectual world at large The fifteen articles in this volume outline and assess some of the issues and experiments of continental philosophy The first five span the twin movements of phenomenology and existentialism running from Husserl and Heidegger to Sartre Merleau Ponty and Levinas Subsequent essays deal with specific currents of continental thought in such areas as science Marxism linguistics politics aesthetics feminism and hermeneutics A final chapter on postmodernism highlights the manner in which so many concerns of continental thought culminate in a radical anti foundationalism This volume provides a broad scholarly introduction to this period for students of philosophy and related disciplines as well as some original interpretations of these authors It includes a glossary of technical terms and a chronological tube of philosophical scientific and other cultural events

Biographical Dictionary of Twentieth-Century Philosophers Stuart Brown, Diane Collinson, Robert Wilkinson, 2012-09-10 This Biographical Dictionary provides detailed accounts of the lives works influence and reception of thinkers from all the major philosophical schools and traditions of the twentieth century This unique volume covers the lives and careers of thinkers from all areas of philosophy from analytic philosophy to Zen and from formal logic to aesthetics All the major figures of philosophy such as Nietzsche Wittgenstein and Russell are examined and analysed The scope of the work is not merely restricted to the major figures in western philosophy but also covers in depth a significant number of thinkers from the near and far east and from the non European Hispanic language communities The Biographical Dictionary also includes a number of general entries dealing with important schools of philosophy such as the Vienna Circle or currents of thought such as vitalism These

allow the reader to set the individual biographies in the context of the philosophical history of the period With entries written by over 100 leading philosophy scholars the Biographical Dictionary is the most comprehensive survey of twentieth century thinkers to date Structure The book is structured alphabetically by philosopher Each entry is identically structured for ease of access and covers nationality dates and places of birth and death philosophical style or school areas of interest higher education significant influences main appointments main publications secondary literature account of intellectual development and main ideas critical reception and impact At the end of the book a glossary gives accounts of the schools movements and traditions to which these philosophers belonged and thorough indexes enable the reader to access the information in several ways by nationality by major areas of contribution to philosophy e g aesthetics by major influences on the thinker concerned e g Plato Kant Wittgenstein

One Hundred Twentieth-Century Philosophers Stuart Brown, Diane Collinson, Dr Robert Wilkinson, Robert Wilkinson, 2008-02-20 One Hundred Twentieth Century Philosophers offers biographical information and critical analysis of the life work and impact of some of the most significant figures in philosophy this century Taken from the acclaimed Biographical Dictionary of Twentieth Century Philosophers the 100 entries are alphabetically organised from Adorno to Zhang Binglin and cover individuals from both continental and analytic philosophy The entries have an identical four part structure making it easy to compare and contrast information comprising biographical details a bibliography of major works a listing of relevant secondary and critical literature an appraisal of the philosopher's thoughts and achievements A separate glossary provides an introduction to the origins development and main features of major philosophical schools and movements and offers select bibliographies to guide the reader to further research

Transcendence and Hermeneutics A.M. Olson, 2012-12-06 The problem of Transcendence is the problem of our time I Needless to say Transcendence was a particularly lively issue when Karl Heim wrote these words in the mid 1930s Within the province of philosophical theology and philosophy of religion however it is always the problem as Gordon Kaufman has recently reminded us For the question concerning the nature and the reality of Transcendence has not only to do with self transcendence but with the being of Transcendence Itself that is to say with the nature and the reality of God as experienced and understood at any given time or place Now there are those today who would claim that any further discussion of the latter half of this proposition namely Transcendence Itself or God is worthless and quite beside the point Such persons would claim that the particular logia represented by the theological sciences has collapsed by virtue of its object having disappeared Indeed when one surveys the contemporary scene in philosophy and theology there is a good deal of evidence that this is the case theology of late having become something of a spectacle to use Pritz Buri's term One of the reasons for this we here contend is that the richness and the diversity of the meaning of Transcendence has been lost And even though we do not here intend to resolve the issue neither do we assume that such an enquiry is either impossible or irrelevant

Death, 'Deathlessness' and Existenz in Karl Jaspers' Philosophy Filiz Page, 2008-01-23 Karl Jaspers is one of the

least understood and most neglected major philosophers of the twentieth century and yet his ideas particularly those concerned with death have immense contemporary relevance Filiz Peach provides a clear explanation of Jaspers philosophy of existence clarifying and reassessing the concept of death that is central to his thought For Jaspers a human being is not merely a physical entity but a being with a transcendent aspect and so in some sense deathless Peach explores this transcendent aspect of humanity and what it is to be deathless in Jaspersian terms This book is a major contribution to the scarce literature on Jaspers and will be valuable to student and academic alike Jean Améry and Existentialism's Limits John Reed Spiers, *Nature's Primal Self* Nam T. Nguyen, 2011-12-28 *Nature's Primal Self* examines Corrington's thought called ecstatic naturalism in juxtaposition to both C S Peirce's pragmatic and semiotic concept of the self and Karl Jaspers existential elucidation of Existenz Peirce's and Jaspers anthropocentrism is thus corrected by Corrington's ecstatic naturalism Ecstatic naturalism as a new movement is both a semiotic theoretical method and a metaphysics that probes deeply into the ontological divide between nature naturing and nature natured Author Nam T Nguyen attempts to achieve three goals first to present and elucidate the underlying philosophical concepts of Charles Peirce Karl Jaspers and Robert Corrington second to critique the anthropocentric self of Peirce's semiotic pragmatism and of Jaspers existential anthropology periechontology from the standpoint of ecstatic naturalism and third to introduce the concept of nature's primal self radically grounded in the perspective of ecstatic naturalism as a judicious more encompassing and richer framework compared to Peirce's semiotic construction of the self and Jaspers existential concept of Existenz **The Self After Postmodernity** Calvin O. Schrag, 1997-01-01 A portrait of the human self by way of a critical engagement with the proponents of postmodernity It experiments with an innovative vocabulary so as to describe self understanding and self formation in its discursive action oriented communal and transcending dynamics **Phenomenology in Psychology and Psychiatry** Herbert Spiegelberg, 1972-02 Phenomenology in Psychology and Psychiatry is a historical introduction to phenomenology in psychology working from the general to the details of the subject *The Existentialist Reader* Paul S. MacDonald, 2001 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company **A Companion to Continental Philosophy** Simon Critchley, William R. Schroeder, 1998-06-08 Covering the complete development of post Kantian Continental philosophy this volume serves as an essential reference work for philosophers and those engaged in the many disciplines that are integrally related to Continental and European Philosophy The Messianic Disruption of Trinitarian Theology Kornel Zathureczky, 2009-03-16 The unsettling context of late modernity a terrain of an infinite fragmentation of life poses a challenge to Christianity to rearticulate its defining doctrine of the Trinity Christianity's initial messianic weakness_ in that its canonical writings attest to a universal message of redemption for the victims of Empire_ was subverted into the strong theology of the Empire This book demonstrates that Trinitarian discourse was profoundly implicated in this development as it essentially absorbed and took the bite out of the messianic language of the early

Christian movement Zathureczky proposes a retrieval of the messianic discourse of Christianity by way of recapturing its redemptive weakness Relying on an elective affinity between Walter Benjamin s messianism and JYrgen Moltmann Trinitarianism he attempts to recapture the weakness and fragility of the language of the initial messianic impulse of the Christian community The resulting weak Trinitarianism retains the basic character of Christianity as a Trinitarian faith but now Trinitarian discourse about God is simultaneously messianic discourse a language that is attuned to give voice to the damaged lives and alienating conditions of our contemporary context

Emmanuel Levinas: Levinas and the question of religion Claire Elise Katz,Lara Trout,2005 Emmanuel Levinas 1905 1995 was one of the foremost thinkers of the twentieth century His work influencing a wide range of intellectuals such as Maurice Blanchot Jacques Derrida Luce Irigaray and Jean Luc Marion

Karl Jaspers Ronny Miron,2012-01-01 This book traces the work of German philosopher Karl Jaspers 1883 1969 from his origins as a young psychiatrist up to his maturity as an existentialist philosopher The critique of Jaspers s thought follows his attempts to grant meaning to the human search for self understanding It reveals the difficulties and frustrations entailed in this search The book reveals to the reader Jaspers s handling of these difficulties through constituting a philosophical relation toward the Being existing beyond the individual other people the world and transcendence In this book the author conducts an ongoing dialog with existing research into Jaspers s work and proposes her own new reading As well as critiquing the existing interpretations the author uncovers the challenges Jaspers s character has presented the readers Unlike most scholars who generally ignored Jaspers s early writings dealing with psychiatry and psychology this book suggests a philosophical reading of these writings This exposes the unity of the world from which Jaspers created first as a psychiatrist and later as a philosopher This reading shows Jaspers s work as an ambitious attempt to formulate an original perception of the two basic themes that have interested philosophy and human thought throughout the ages Selfhood and Being

The Global Vision Indu Sarin,2009 Karl Jaspers is a leading thinker a representative of German existential philosophy whose thoughts address the whole human kind This book analyzes Jaspers view of philosophy as existential illumination which opens the realms of human freedom creativity and communication It explores the significance as well as the limitations of scientific rationality Jaspers reflections on various dimensions of human condition are compared to philosophers such as Weber Kant Otto Tillich Heidegger and Hannah Arendt as well as to the Indian thoughts present in Advaita Vedanta and Buddhism Examining the problems of homogeneity heterogeneity hybridization and cultural pluralities the author reflects on the emerging global scenario dominated by technology and on the schism between local and global
