Pekala, 2013-11-11 This book presents an approach to quantifying consciousness and its various states It represents over ten years of work in developing testing and researching the use of relatively simple self report questionnaires in the retrospective assessment of subjective or phenomenological experience While the simplicity of the method allows for subjective experience to be reliably and validly

assessed across various short stimulus conditions the flexibility of the approach allows the cognitive psychologist and mental health professional to quantify and statistically assess the phenomenological variables associated with various stimulus conditions altered state induction techniques and clinical procedures The methodology allows the cognitive psychologist and mental health professional to comprehensively quantify the structures and patterns of subjective experience dealing with imagery attention affect volitional control internal dialogue and so forth to determine how these phenomenological structures might covary during such stimulus conditions as free association a sexual fantasy creative problem solving or a panic attack It allows for various phenomenological processes to be reported quantified and statistically assessed in a rather comprehensive fashion that should help shed greater understanding on the nature of mind or consciousness

Expansion for Ascending Consciousness Todd R. Deviney, 2018-07-31 The awakening begins in an ascending consciousness with an unspecified dissatisfaction regarding the established rules and assumptions You cannot identify the irritation but it feels as if there should be something more Because of this you begin to look for answers outside of the normal channels and your awakening commences The messages for awakening are as diverse as their sources because they are designed to reach different levels of consciousness yet the truth is always the truth though the form it takes may vary Expansion for Ascending Consciousness is a cooperative effort to provide a basis for understanding consciousness and the energy construct we exist within The intent is to remove the mysticism surrounding consciousness and embodied experience While complex and miraculous in its design consciousness is scientifically explainable and the foundation upon which the universe has been created As an ascending collective you have reached a time in your development where mysticism has outlived its usefulness Truth comes in many forms and thus the information you gravitate to at any given moment is dependent upon what resonates with your current level of awakening At a point in this process you will look back upon the information you have accumulated and see that each one was a step that incrementally raised your awareness Expansion for Ascending Consciousness contains the next step along this path of ascension [The Gnostic Luciferian New Age Babylon Revisited](#) Gregory Lessing Garrett, 2019-09-30 The Gnostic Luciferian New Age Utopia will be based upon a Mystery Babylon re visitation of tolerance for all behaviors narcissistically self indulgent sexually perverse psychoactively induced and sinfully decadent with self worship and self adulation as the highest pinnacle of religious zeal Additionally utilizing the trickery and artifice of an Alien Antichrist Messiah Deception the Luciferian Elite seek to obliterate Christianity and replace it with a Gnostic Pantheistic Cosmogogenesis narrative where Ancient Aliens are our true genetic origins and Cosmic Evolution with Mankind in tow is the Grand Design of the Universe Since this is a very real situation which effects all the world in the direst sort of way the contents of this book are relevant to all citizens of the world This book bravely explores the various guises that this repackaged Babylonian Gnostic Luciferianism has taken and how it got to this point as well as offers answers to this
